ISOLAB
Laborgeräte GmbH

Dear customer,

We are proud to present our new, colourful and cheerful cataloque to your taste.

Main "highlights" of our new catalogue are;

We added hundreds of new products that were carefully selected to ease your daily work.

Products are categorised with different section colors according to their areas of utilization.

New designed product and catalogue number indexes offer easy and fast access to products.

We are now offering a wide range of chemicals and reagents with a perfect price & quality correlation.

30 years *of enthusiasm*

ISOLAB
Laborgeräte GmbH

highlights

our goals, mission and vision

For us, the only important factor is quality. Our product quality, service quality, man-force quality, and management quality will never change.

Our compass always directs us to perfection. German sensibility and perfectionism are two main components of our entire business life.

We deny the word “impossible”. We have no place in our vocabulary such as “impossible”. In contrast, we have opportunity, solution, flexibility.

We consider our customers as the sole judge in this game that we have been playing with enthusiasm. Customer satisfaction is our only criteria.

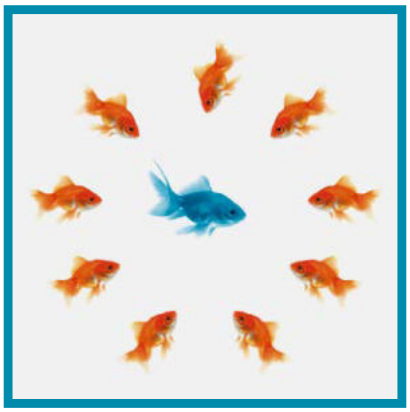

We always wanted the word “trust” to gleam next to our name. And it is actually what happened. Our belief is that everything starts with trust.

It is our sincere belief that we were all born from the same mother. We are always respectful to the enviroment and the world we live in.

Everyday we embrace new ideas. Each morning we spend the first hours for implementing new ideas to our business.

We differentiate ourselves from the ordinary. We always try to create new ideas and strategies for being a pioneer in our field of activity.

For many years now, we have been working for science extending beyond boundaries. We have been succesfully exporting to 110 countries in the world.

ISOLAB Laborgeräte GmbH

highlights
plastic injection production

ISOLAB is also a well known plastic labware manufacturer. Latest technologies approved production techniques and high capacity machinery park are held to serve the best **sterile** and **non sterile** products.
ISOLAB plastic production consists of experienced staff, high capacity injection moulding technology and premium grade raw material.
Most of the ISOLAB plastic products are certified with **CE - Invitro Diagnostic Directive,** council directive 98/79/EC, concerning in vitro diagnostic instruments.
Raw materials are carefully chosen according to their **MFI** (melt flow index) value, **OIT** (oxidative induction time) value, density and humidity.

highlights
plastic blowing production

Thanks to the latest technology, ISOLAB became one of the best Plastic Blowing Producer in labware industry.

Fully automated blowing machines, European made moulds and auxiliary, Premium grade raw material and experienced staff, provide a stable and seamless labwares, such as; bottles, pipettes etc.

ISOLAB is using very sensitive control units, such as patented parison controls from 300 different points.

This helps to control the wall thickness in all sections of a product and resulting a continuous quality level.

highlights
plastic sterile production

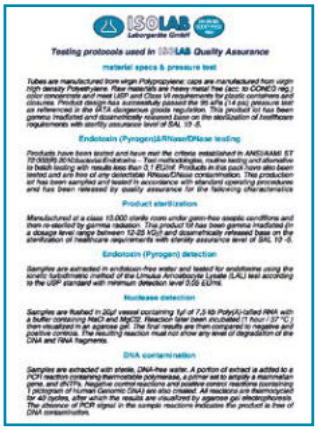

ISOLAB sterile production plants are well equipped clean rooms with **HEPA filters** and positive pressure areas which are supplied with air locked doors.

Clean rooms are validated according to international **DIN** and **ISO** standards. In order to avoid any contamination through human contact, the entire process is automated.

Raw material is automatically fed from silos to moulding machines, through vacuum loaders.

Clean room staff is equipped with appropriate, protective clothes, in order to diminish the contamination risks.

CERTIFICATE of COMPLIANCE and QUALITY

Product Name	
Catalog Number	
Product Lot No	
Material Used	
Production Date	
Expiration Date	

This package contains a **gamma irradiated** high quality product manufactured in a POR-clean and germ-free Class 10.000 clean room (according to EN ISO 14644 - 1 & EN ISO 14644 - 2) environment.

This certificate is issued to confirm that this lot of products had been manufactured and tested under a registered and audited ISO 9001 quality system and conforms the below mentioned material specs and passed all tests successfully.

Test Procedure	Results
Leak Test	Pass
Centrifuge Test	Pass
Visual attribute	Pass
Packaging	Pass
Endotoxin - Pyrogen	Free
Human DNA - Erase	Free
RNase - PCR inhibitor	Free

ISOLAB Laborgeräte GmbH

The biotech industry needs certification for the plastics they use. The market trends indicate a need for **DNase, RNase** and pyrogen-free products.

ISOLAB **certified plastic products** are a result of an ongoing quality control process.

The process begins with the inspection of raw materials to monitoring the final product and ends with testing each lot after production for contaminants.

- stirring & mixing & shaking & heating & cooling (155 - 164)
- chromatography & spectroscopy (165 - 178)
- life sciences & microscopy & microbiology (179 - 210)

how to use QR code

Based on the principles of innovative approach we, as ISOLAB Family, are dedicated to giving you the best user experience and technical support when you need.

On our brand new product catalogue, we launched a very useful feature, which allows you to explore ISOLAB World with a 360° view!

Now you can start to scan product QR codes on relevant product pages and take a 360° look at ISOLAB products, for a 360° scene of quality.

Scan barcodes on our catalogue by your smartphone easily in all platforms or just click in the digital catalogue.

SCAN Please scan barcodes in the catalogue by using QR code scanner on your smartphone.

CLICK Please kindly click in the link shown in your QR code scanner or click directly in your digital catalogue.

WATCH You can see the details of the products on youtube.

ISOLAB Laborgeräte GmbH

DIN EN ISO CERTIFIED 9001

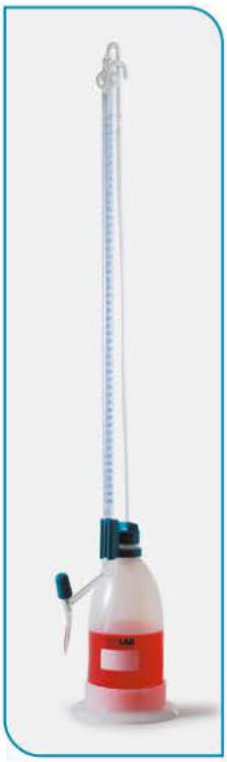

volumetric measurement & liquid handling

volumetric measurement & liquid handling

blank production

State of the art automatic welding and attaching machines are used for connecting the glass parts to each other.

ISOLAB is one of the few manufacturers that produces its own blank products.

Glass tubes are blown by highly skilled blowers to ensure the uniform wall thickness, exact shape and dimensions according to DIN standards.

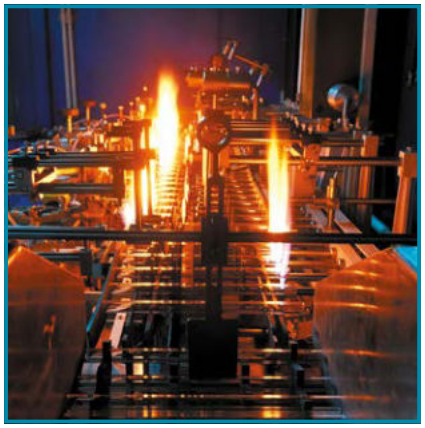

After rigorous controls, all blanks are sent to tunnel furnaces where the stress on the blanks is eliminated under controlled heating and cooling process.

This process ensures the optimum mechanical stability and inhibits the effect of temperature fluctuations.

Glass tubes are blown by highly skilled blowers to ensure the uniform wall thickness, exact dimensions according to DIN standards.

joint production

All joints are manufactured by automatic forming machines for consistent quality and guaranteed uniformity.

ISOLAB manufactures all joints with automatic machines with guaranteed uniformity.

During the grinding process, only diamond tools are used to ensure perfect results.

The taper of the joints are tested with precise taper angle control machine to ensure the taper quality.

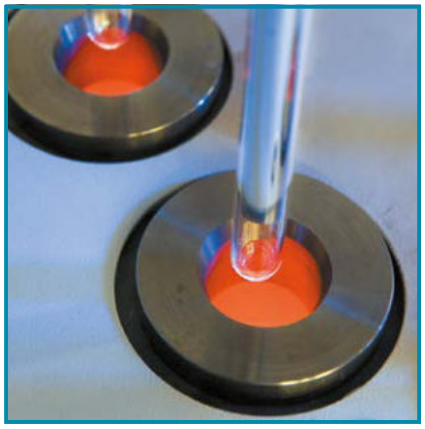

This process ensures ending up with accurately tapered, smoothly finished, absolutely leak-proof and interchangeable ground joints.

The tightness also tested with vacuum test machines.

Grinding steps are performed by diamond reamers assuring best results with highest precision.

calibrated tubing production

Glass tubings are slowly and gradually heated up to half-melting level. Then they are shrinked around steel rods with precise diameter.

Most of the burette manufacturers use ordinary tubings which are more tolerant in terms of wall thickness and inside diameter.

ISOLAB burette tubings are manufactured by using vacuum technology to maintain inside diameter of the burette tubings uniform all over their length.

First tubings are slowly and gradually heated up to half-melting level.

Then they are shrinked around steel rods with precise diameter under vacuum condition for uniform wall thickness and diameter.

Burette tubings are manufactured by using vacuum technology to maintain diameter of the burette tubings uniform all over their length.

volumetric measurement & liquid handling

printing process

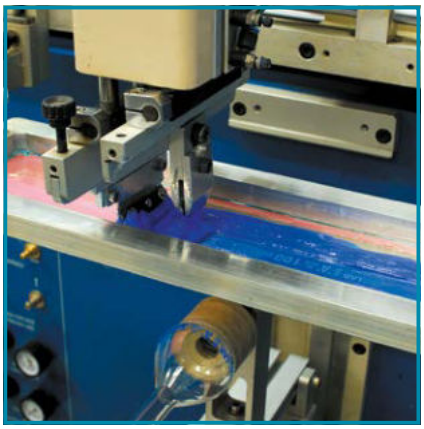

ISOLAB uses the most advanced printing machines for achieving the highest printing quality.

These machines guarantee high contrast and sharp printing providing precise reading.

All used screen stencils are stretchable.

The stretchable screen stencils easily stretched to match the calibration marks so that the volume precision is maintained at all volume levels.

Specially formulated blue, white or amber colored enamels are used during printing process.

Only high contrasted and fine printing allows precise reading of scaled products such as cylinders, burettes, pipettes etc.

According to DIN standards the information listed hereunder is required to printed on the bodies of products.

- Brand name
- Nominal capacity
- Class degree
- Calibration temperature
- Matching standards
- Possible error limits
- Batch numbers
- Production date
- Warnings, etc

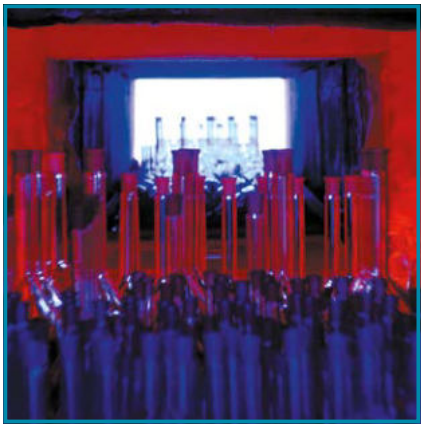

annealing process

Furnace process is the last step to reach a perfect product.

In order to achieve, stress-free products with highest level of printing quality precise controlled gradual heating and cooling is essential.

At ISOLAB, all heating and annealing steps are carried with state-of-art temperature controlled tunnel furnaces.

For these reasons all ISOLAB glassware are stress-free, mechanically strong and ever lasting printed.

In order to achieve the best results, the furnace has a precise temperature control all-over the thermal heating zone.

Furnace is entirely controlled by electronic panel for guaranteed temperature control at all steps.

packing process

ISOLAB is perfectly aware that the products used in laboratory should be very clean and excellently packed.

All glassware are washed in industrial scale ultrasonic cleaning machines for removing all the dirt and left over particles.

Our staff responsible for the final quality control of the packaging is extremely qualified and well experienced.

High quality packing materials are used to ensure break-free delivery of the products.

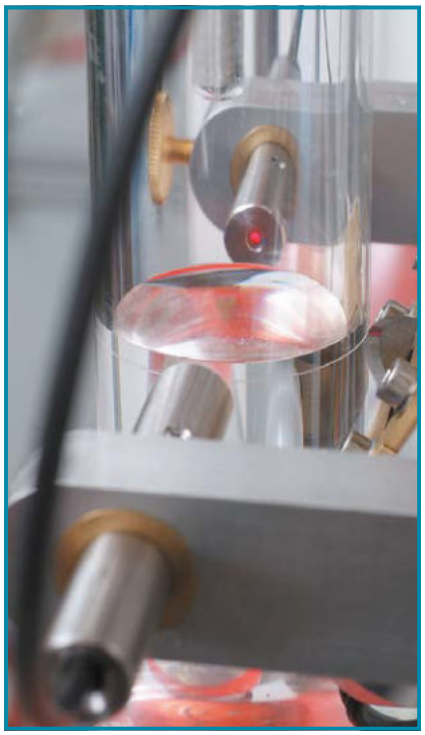

Modern industrial scale ultrasonic cleaning machines guarantee perfect removal of all remaining dirt and particles.

The final step of the packing is also the final step of quality control process.

volumetric measurement & liquid handling

calibration

Meniscus is determined automatically at the exact lowest level by a laser beam.

Manual calibration done by an operator carries high risk of mistakes and is not reliable.

All calibration steps are carried out with fully automatic robots.

These robotic machines guarantee the highest level of precision and accuracy.

Although during the calibration process the room temperature enviroment is kept stable at 20°C any slight change in the room temperature is automatically compensated by the machines.

Meniscus is automatically determined at the exact lowest level by a laser beam.

Application of the meniscus ring line is done by stretching the glass surface for longer persistance with the help of a diamond tool. Later the stretched ring line is stained with either blue or white enamel paint for easy observation of meniscus line.

Filling the blank products with water is done automatically by the calibration machines.

quality control

Steps such as filling the water, finding the meniscus line and controlling the volume are done automatically.

Manual quality control of volumetric products is also very complex and time consuming. Also, manual quality control done by an operator carries high risk of mistakes and is not reliable.

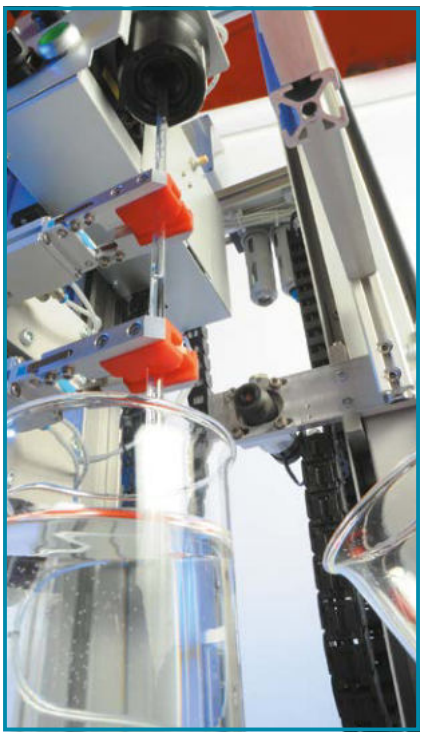

In order to avoid above mentioned risks and to achieve the best reliable results quality control steps are carried out with fully automatic robots which are only used by very few selected manufacturers.

Quality control robot is featured with a high resolution camera and image processing system for the most precise meniscus level control.

Steps such as filling the water, finding the meniscus line and controlling the volume are done automatically.

The balances and the electronic calibrated thermometers are in-line connected to the system for online data transfer.

The operator simply mounts the volumetric glass to the quality control robot and waits for the precision guaranteed outcome.

The operator simply mounts the volumetric glass to the quality control robot and waits for the precision guaranteed outcome.

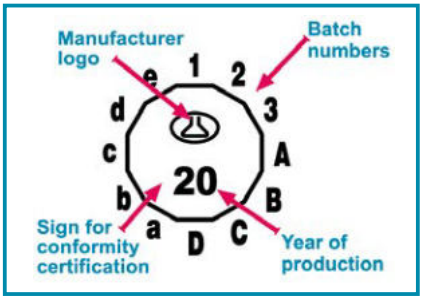

conformity

“Conformity” is the compliance of the product with the exact and legal standards defined by German Federal Weights and Measures (Eichordnung) Regulation.

The “conformity testing and certification” is described in detail on **DIN 12600** standard.

According to German law of metrology, only listed accredited manufacturers such as ISOLAB with a guaranteed quality assurance are allowed to certify the conformity by printing the conformity logo **(DE-M)** on self manufactured volumetric products.

The manufacturer’s logo should also be printed along with the conformity logo. We are very proud of having this logo printed on our related products as a guarantee of conformity according to **DIN 12600** standard starting from day one.

batch certification

“Batch certificate” shows the determined mean value of the controlled standard deviation and tolerance of volumetric products batch to batch.

After the production of each batch, the mandatory minimum quantity is randomly tested and certified according to **DIN 12600** standard.

The **“batch certificate”** comprimises the date of production, mean value, standard deviation, permitted tolerance and other information.

By tracking the batch number user can reach the related batch certificate.

Batch numbers and related certificates can be downloaded from our ISOLAB web site. Users can print the **“batch certificate”** online with the following steps:

For downloading the certificate please enter www.isolab.de web site, and ➤ select “downloads/support” from the menu ➤ select the product code number from “obtain certificates” section ➤ select the batch number printed on the body ➤ certificate page comes automatically ➤ print the page by selecting “printer version” on the left corner.

quality certification

An **“individual quality certificate”** can also be issued for volumetric products.

“Quality certificate” shows the final and ultime tested factors of the volumetric products.

Such a certificate is always well accepted worldwide since it should be prepared by a worldwide accreditated test laboratory.

The selected product is individually tested in the most precise way and controlled as defined by German Federal Weights and Measures (Eichordnung) Regulation and according to **DIN 12600** standard.

Individually prepared and printed quality certificate compromising the date of production, mean value, standard deviation, permitted tolerance and other informations.

volumetric measurement & liquid handling

classification

All volumetric products are always calibrated as **to contain (In)** or **to deliver (Ex)**.

They are classified in three groups; **Class "B"** or **Class "A"** or **"AS"**.

Class "A" and **"AS"** carry exactly the same error and tolerance limits.

The difference is in their "delivery" and "waiting times". "S" means quick (swift) delivery.

The classification as **"A"** or **"B"** indicates the degree of accuracy of related parameters.

Class **"A"** or **"AS"** volumetric products carry highest level of accuracy and specially well accepted by laboratories looking for quality.

The error limits, accuracy and variations are always in accordance with relevant **ISO** or **DIN** standard limits.

delivery time

Delivery time is the time needed to deliver the liquid from the starting level to the final level.

For burettes and pipettes final level is generally the tip of the product.

waiting time

The waiting time starts after complete transfer is finalised.

After the transfer of the liquid usually liquid continues to flow down from the burette or pipette wall.

For accurate volume measurement attention must be paid to the waiting time.

Specially with pipettes the residual drop accumulated at the tip should be considered.

meniscus line

A simple definition of meniscus is the curve on the surface of the liquid.

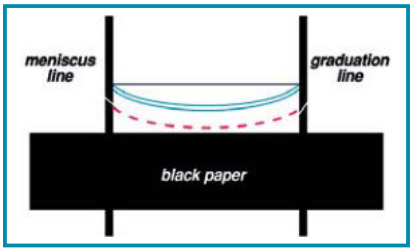

According to **DIN**, **ISO** and most other standards volume should be read at the lowest liquid level.

The lowest level of the meniscus has to touch the upper edge of the graduation mark.

On the volumetric glassware the form of the meniscus is concave.

For the exact and most precise results, the eye of the observer must be exactly at the same level of meniscus line.

To have a better, faster and more accurate reading and measurement, a black strip should be held at the back side, just below of the graduation mark and meniscus line.

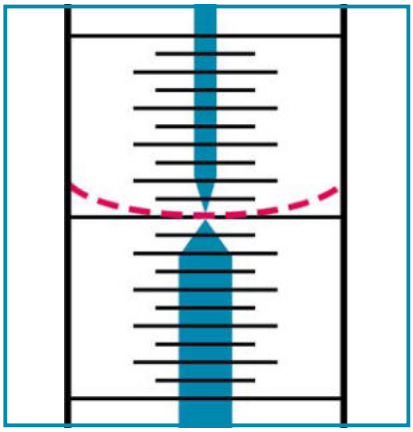

schellbach stripe

The schellbach stripe is a narrow blue band which takes place at the center of a wider white band on the burette tube background.

Mostly printed at the backside of the burette tube for easier observation of meniscus line.

The penetrated light fraction two arrow head points that appear at the meniscus line.

Exact meniscus line is exactly where two arrow heads touch each other.

volumetric measurement & liquid handling

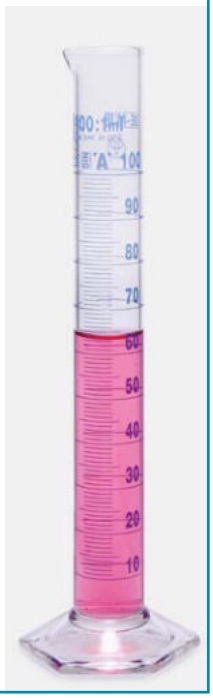

how to use volumetric flasks

- Volumetric flasks are mainly used for preparation of highly accurate solutions.
- First add the exact weight of the product inside the flask. Fill the flask about half the volume and mix the content.
- Then fill again until the level reaches a bit lower than calibration ring mark.
- Adjust the temperature of flask and the content to 20°C.
- Add a little more liquid so that the meniscus will be exactly at the same level of the ring mark.
- Pay attention to read the meniscus at the eye level also not to wet the inner neck wall above the ring mark.

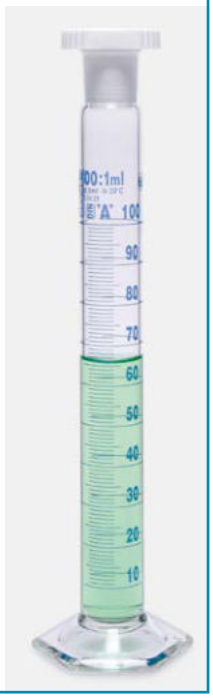

how to use measuring cylinders

- Cylinders are mainly used for the exact measurement of liquid volumes.
- First fill the cylinder with liquid and wait until the residual liquid on the wall will to filter down.
- Then read the volume level from the cylinders volume graduation chart.
- Pay attention to read the volume level at the eye level. Do not wet the inner neck wall above the calibration mark.

how to use mixing cylinders

- Mixing cylinders are mainly used for the exact measurement of liquid volumes.
- First fill the cylinder with liquid and wait until the residual liquid on the wall to filter down.
- Then read the volume level from the cylinders volume graduation chart.
- Later add the precise weight of the substance and dissolve it by shaking the cylinder.

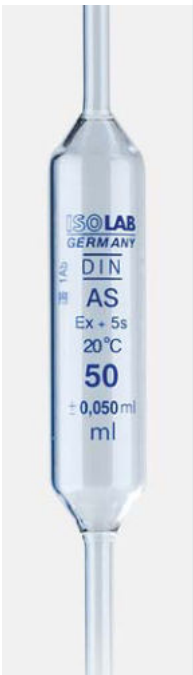

how to use burettes

- Fill the burette a bit higher than the "0" level.
- To activate the stopcock, drain the solution but never below the "0" mark.
- Pay attention there will be no air bubbles left in the burette.
- Fill more solution above 10 mm of the "0" mark. Do not wet the burette wall above the liquid level.
- By focusing the meniscus at eye level drain the solution to the exact "0" mark.
- Wipe off the drops at the stopcock tip and slowly start the titration. When color changes stop the titration and wait for the 30 seconds.
- Wipe off the remaining drop since this is also the part of the measured volume.

how to use pipettes

- Fill the liquid max 5 mm above the volume mark. Wipe off the outer surface of the pipette.
- Hold the pipette at eye level and place the tip to the wall of a beaker with a slight angle.
- Discharge the access volume until the meniscus reaches the calibration mark.
- When the level of the liquid reaches to the tip wait according to waiting time.
- When the waiting time is over, wipe the tip gently pulling upwards on the beaker wall and transfer the liquid.
- If there is still any residual liquid left in the tip, never blow out.

how to use density bottles

- Carefully weigh the empty and well dried density bottle.
- Fill the bottle up to 2/3 of the neck level while avoiding air bubbles.
- Adjust the bottle temperature to 20°C in a thermostatic bath. Insert the stopper of the bottle carefully. The capillary of the stopper will discharge the liquid.
- Dry the body of the bottle and the stopper carefully by wiping with a tissue paper. Pay attention not to remove any liquid from the capillary tube.
- The liquid inside of the bottle should exactly be at the same level with the upper end of the capillary tube.
- Final step is weighing the filled density bottle and calculating the density.

VOLUMETRIC FLASKS - "glass" - "class A" "conformity certified"

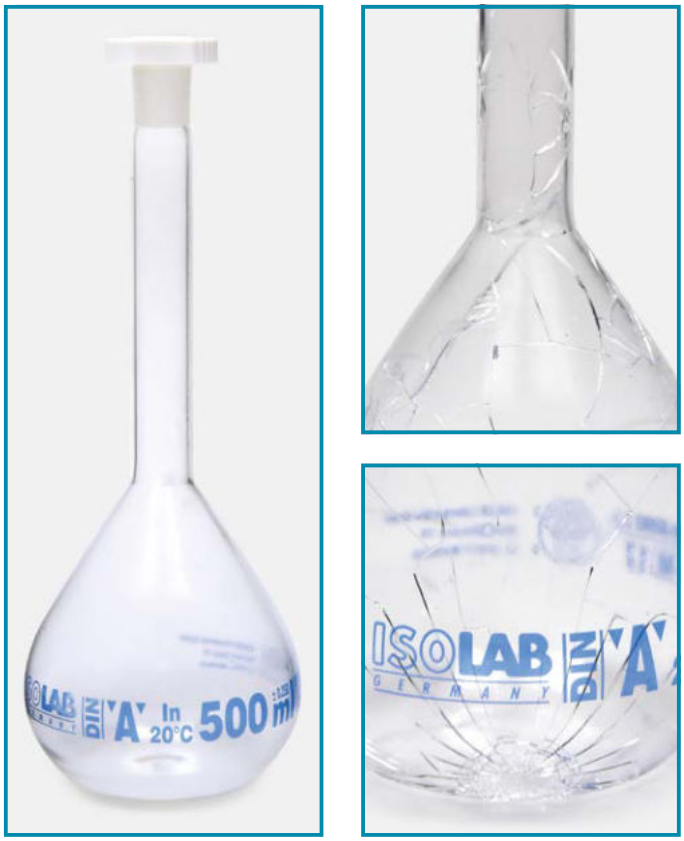

- Manufactured from heat resistant borosilicate 3.3 glass according to DIN EN ISO 1042 standard. Calibrated by automatic robots according to DIN/ISO Class "A" standard.
- Conformity mark ("DE-M") and batch number printed on the body surface. Batch certificate can be downloaded from website.
- Blue and white colored diamond grinded meniscus ring mark offers longer persistence. Inscriptions on the flask bodies are printed with long lasting enamel color.
- Flasks are supplied with a leak-proof P.E stopper which ensures perfect closure.

VOLUMETRIC FLASKS - "glass" - "class A" "conformity certified" - "COATED"

- When handling dangerous and/or valuable solutions coated volumetric flasks are highly recommended.
- Bodies of these flasks are coated with a special formulated coating which reduces the impacts and also minimize the possible risks in case of breakage. Coating covers the body like a protective glove and holds the broken parts unscattered.
- The coating is highly transparent and can resist up to 135°C with maximum period of 30 minutes. Coated flasks should not be exposed directly to open flame.
- All other technical specifications are identical with standard body volumetric flasks.

150 ml, 300 ml, 400 ml and 10000 ml volumetric flasks are in addition to DIN range.

VOLUMETRIC FLASKS - *"glass" - "class A" - "conformity certified" - "trapezoidal"*

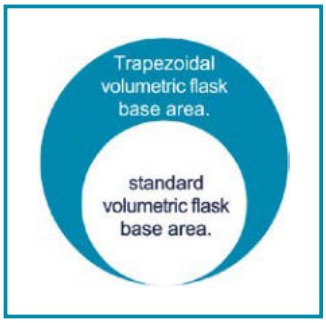

- Manufactured from heat resistant, borosilicate glass 3.3 according to DIN EN ISO 1042 standard.
- Trapezoidal body form offers much higher stability and avoids fall over risk.
- Calibrated according to DIN/ISO Class "A" standard. Featured with a ("DE-M") conformity mark according to German Federal Weights and Measures Regulations.
- Individual calibration carried out by automatic robots eliminate possible deviations from nominal values.
- Conformity mark and batch number printed on the body surface. Batch certificate can be downloaded from website.
- Diamond grinded meniscus ring mark offers longer persistance and enables easy observation of meniscus level.
- Inscriptions on the flask bodies are printed with long lasting enamel color.
- All volumetric flasks are supplied with a leak-proof P.E stopper which ensures perfect closure.

Small size flasks with standard body shape can fall over very easily due to their smaller center of gravity.

Compared to other standard volumetric flasks of the same volume, trapezoidal flasks have at least twice base area.

For this reason trapezoidal flasks are much more stable than standard flasks.

VOLUMETRIC FLASKS - *"P.P" - "class B"*

- Manufactured according to DIN EN ISO 1042 standard from clear polypropylene. Resistant to most acids, bases and many commonly used solvents.
- Calibrated according to DIN/ISO Class "B" standard.
- Clear flasks are manufactured from very clear polypropylene resulting high transparency and clear indication of meniscus line.
- Amber flasks are manufactured from special formulated polypropylene preventing UV light penetration into the flask yet still offering high transparency.
- All volumetric flasks are supplied with a leak-proof P.E stopper which ensures perfect closure.
- For consistent accuracy should not be used with liquids over 60°C or kept under direct sunlight for long periods.

CYLINDERS *"class B" - "P.P base"*

- Manufactured from heat resistant, durable borosilicate glass according to DIN/ISO Class "B" standard.
- These cylinders are supplied with an interchangeable polypropylene base.
- Thick and durable polypropylene base reduces the risk of breakage during use and cleaning.
- Base perfectly fits the cylinder body and can easily be dismantled.
- Flawless spout design assures pouring without any drips.
- Inscriptions on the cylinder body are printed with white enamel.

catalogue number	volume	pack quantity

BURETTES - *"straight" - "class AS" - "conformity certified"*

- Manufactured from pre-vacuum calibrated borosilicate 3.3 tubing according to ISO 385 standard. Calibrated according to DIN/ISO Class "AS" standard.
- Conformity mark ("DE-M") and batch number printed on the body surface. Batch certificate can be downloaded from website.
- Supplied with an interchangeable PTFE stopcock with identical keys with does not need "matching the pairs" during cleaning.
- Inscriptions and nominal values are printed with long lasting enamel color.
- Schellbach stripe featured with a narrow blue band which is at the center of the larger white band offers easier and accurate observation of the meniscus line.

The schellbach stripe has a narrow blue band which is at the center of the larger white band.

The light fraction creates two arrow head points which appear at the meniscus line level.

Meniscus reading point is exactly where these two arrow heads meet each other.

AUTOMATIC BURETTES - *"class AS" - "conformity certified"*

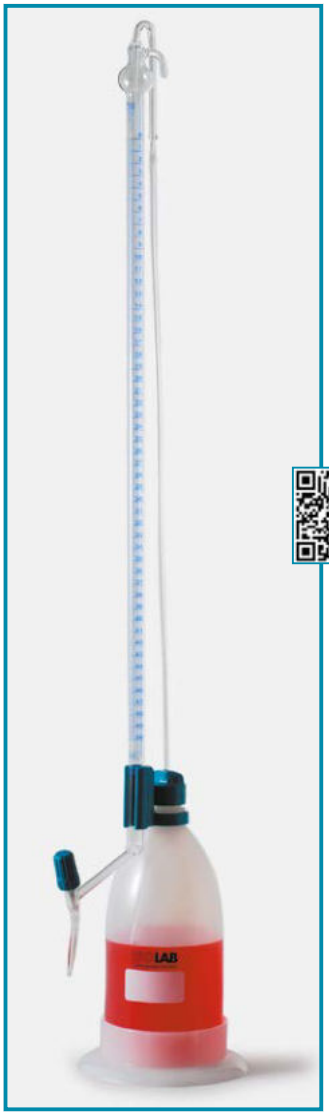

- Manufactured from pre-vacuum calibrated borosilicate 3.3 tubing according to ISO 385 standard. Calibrated according to DIN/ISO Class "AS" standard.
- Conformity mark ("DE-M") and batch number printed on the body surface. Batch certificate can be downloaded from website.
- Featured with an intermediate PTFE stopcock and with a PTFE "needle" valve stopcocks.
- Clear burettes are featured with a schellbach stripe for easier and accurate observation of the meniscus line.
- Inscriptions and nominal values are printed with long lasting enamel color.
- **Automatic burettes are supplied without bottles and bellow. Bottles and bellows should be ordered separately.**

All automatic burettes are featured with an intermediate PTFE stopcock for reliable, fast and accurate measurement.

features of Schilling burettes

Schilling burettes are described as an alternative automatic burette specially suitable for field analysis where there is always a risk of breakage.

Schilling burette set consists of a burette tubing similar to glass automatic burette and a polyethylene reservoir bottle with a stabilising stand.

Offers a rapid filling by squeezing the polyethylene reservoir bottle and fast titration through valve stopcock.

ACCESORIES for BURETTES

BOTTLES - *"for automatic burettes"*

➤ Manufactured from thick glass with 2000 ml volume.

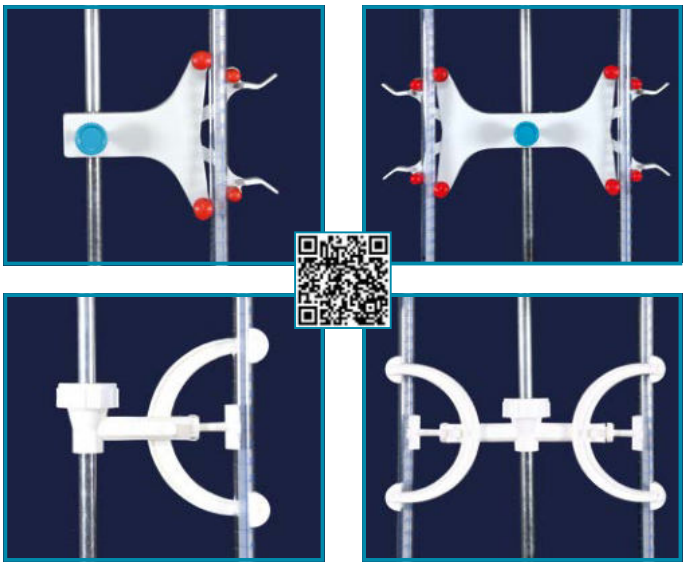

➤ Grinded neck with NS 29/32 socket size perfectly fits to automatic burette's cone.

clear bottles	amber bottles	pack quantity
020.07.010	020.07.025	1 piece

BELLOW - *"for automatic burettes"*

➤ Manufactured from natural rubber. Tube diameter perfectly fits to all connectors.

catalogue number	bulb type	pack quantity
020.08.001	single	1 piece

CLAMPS - *"for straight burettes"*

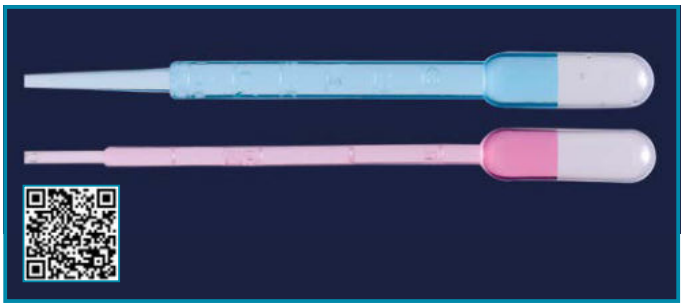

➤ Manufactured to hold one or two straight burette at a time. They firmly hold the burettes on position and offer an easy observation of volume graduations and meniscus level.

➤ Clamps can be used on rods of diameter 10 mm to 12 mm.

➤ Fixing heads are featured with flexible springs that offers easy insertion and extraction of the burettes.

PIPETTES - *"pasteur" - "polyethylene"*

- Manufactured from low density polyethylene. Uniform wall thickness guarantees uniform suction force at all times and offers reproducible drop sizes for each use.
- Ideal for transfering and dispensing liquids safely eliminating the risk of cross contamination.
- Pipette bulb requires very small pressure force. Long and flexible stem can be bent to draw liquids from narrow vessels.
- Featured with embossed volume graduations on the body.

catalogue number	volume	product descriptions	packing specifications	pack quantity

DISPENSER BOX - *"large"*

- Manufactured from crystal clear acrylic with excellent field of vision.
- Ideal for storing and dispensing relatively large scale products such as pasteur pipettes.
- Featured with non-skid silicone feet for stable stand.
- Featured with an easy opening hinged lid. Once opened, the lid stands open for easy dispensing.
- Box offers safe and clean storage of pipettes without been effected from enviromental effects.
- Box external dimensions: 175x250x600 mm.

catalogue number	pack quantity
084.05.001	1 piece

PIPETTES - *"serological" - "polystyrene"*

- Manufactured from virgin polystyrene with excellent optical transperancy. Sterilized with gamma irradiation. Free of RNase, DNase, DNA and pyrogene.
- Smooth interior prevents cell-hanging and clumping inside the pipette wall. Pipette tip offers constant reproducible flow.
- Optimised mouthpiece perfectly fits to all types of pipette pumps and balls.
- Colour coded ring mark at suction stem allows fast identification and sourcing.
- The sharp, black, highly visible permanent graduations guarantee precise reading.

catalogue number	pipette volume	color code	box quantity

PIPETTES - *"pasteur" - "glass"*

Pipette tip provides reproducible drop sizes at all times.

- Manufactured from neutral glass according to ISO 7712 standard.
- Thick walls provide extra strength eliminating the risk of breakage.
- Ideal for transfering and dispensing liquids safely eliminating the risk of cross contamination.
- Featured with a long drown capillary tip. The design of the suction part allows cotton plugging.

volumetric measurement & liquid handling

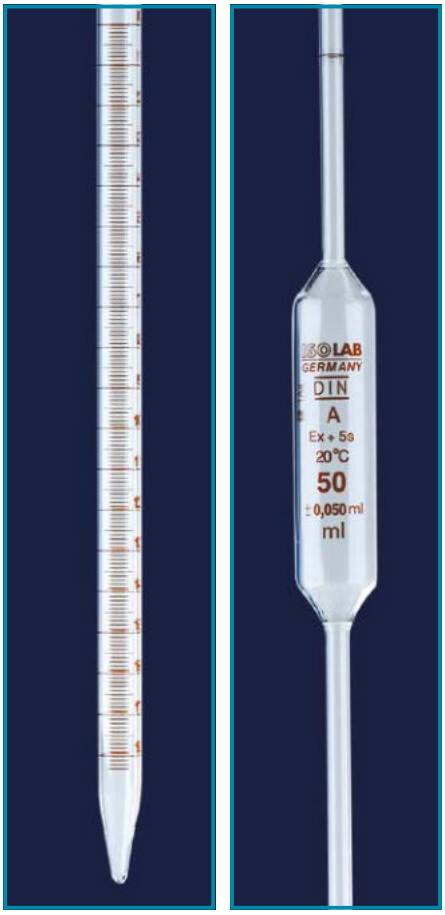

PIPETTES - "glass" - "class AS" - "conformity certified"

- Manufactured from neutral tubing according to ISO 648 and DIN 12687 (for volumetric pipettes),ISO 835 and DIN 12699 (for graduated pipettes) standards.
- Calibrated according to DIN/ISO Class "AS" standard.
- Conformity mark ("DE-M") and batch number printed on the body surface. Batch certificate can be downloaded from website.
- Carefully formed and bevelled tips ensure proper flow rate. Color coded ring marks allows fast sourcing.
- Inscriptions and nominal values are printed with long lasting enamel color.

STAND - "for pipettes" "carrousel"

- Manufactured from polypropylene for holding up to 94 pipettes vertically.
- The round carrousel stand can rotate 360° around stand axis enabling easy reach to each pipette.
- The grid patterned upper disc which is concentric with the carrier plate keeps the pipettes in vertical and correct position.
- The carrier plate consists of four concentric troughs with tapered sides and open bottoms which cradle the pipette tips protectively.
- Drained liquid is collected by a stationary rack at the bottom part.

catalogue number	height x diameter	pack quantity
022.01.001	48 x 23 cm	1 piece

The grid patterned upper disc which is concentric with the carrier plate keeps the pipettes in vertical and correct position.

The carrier plate consists of four concentric troughs with tapered sides and open bottoms which cradle the pipette tips protectively.

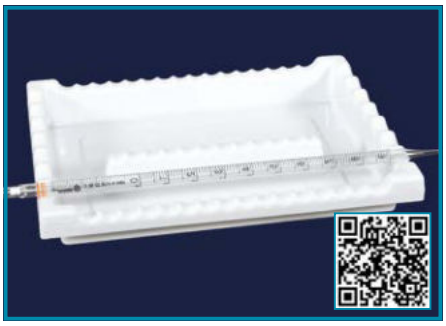

STAND - *"linear"*

➤ Manufactured from polypropylene for holding up to 12 pipettes horizontally. Easily dismantable for storage and cleaning purposes.

catalogue number	pack quantity
022.02.001	1 piece

TRAY - *"for pipettes"*

➤ Manufactured from polystyrene for easy organisation of all kind of pipettes.

➤ Crenated design enables holding of large size pipettes in longitudinal direction and short size pipettes in transverse direction.

catalogue number	dimensions	pack quantity
022.03.001	285 x 215 x 40 mm	1 piece

TRAY - *"for pipettes"*

➤ Manufactured from polystyrene for easy organisation of all kind of pipettes.

➤ 1-2-5 and 10 ml pipettes can be stored at 4 different compartments. Can also be used in drawers as well as on bench tops.

catalogue number	dimensions	pack quantity
022.03.011	300 x 425 x 30 mm	1 piece

BOX - *"for pipettes"*

➤ Manufactured from AISI 304 stainless steel with rectangular form. The total box height is not adjustable.

➤ Supplied with a silicone pad that fits to the box base.

➤ Silicone pad acts as a shock absorber and prevents the risk of breakage.

catalogue number	box base dimensions	box height	pack quantity
022.04.001	70x70 mm	210 mm	1 piece

RACK - *"for pipettes"*

➤ Manufactured from acrylic for easy organisation of all kinds of pipettes.

➤ 4 shelves guarantee easy and fast reach of all pipettes between 1 ml to 50 ml size with in arm's reach.

➤ Angled design of the pipette shelves prevents the risk of pipettes falling out even the shelf is fully filled.

➤ Featured with magnetic clamps on both sides for arrangement of multiple box assembly.

catalogue number	dimensions	pack quantity
022.06.001	290x90x400 mm	1 piece

volumetric measurement & liquid handling

PIPETTE FILLERS - *"pi-pump"*

- A simple yet practicle pipette filler for all pipettes from 2 ml to 25 ml volume range.
- Even very small volumes can be dispensed precisely.
- Pipette stem smoothly fits to the flexible silicone chuck and are firmly hold in position.
- Rotating the existing handwheel on the body upwards draws the liquid precisely to the desired level.
- Rotating the handwheel downwards let the liquid in the pipette discharge partially.
- A slight pressure applied to the fast release lever let the liquid flow-out for complete delivery.

catalogue number	for pipette volume	pack quantity
011.01.002	up to 2 ml	1 piece
011.01.010	up to 10 ml	1 piece
011.01.025	up to 25 ml	1 piece

PIPETTE FILLERS - *"maxi"*

- Advance pipette filler for all pipettes from 1 ml to 100 ml volume range.
- The optimised valve system allows easy draw of liquid without excess pressure.
- Pipette stem smoothly fits to the flexible silicone chuck and are firmly hold in position.
- Very easy to use; before attaching the pipette first squeeze the silicone bulb and release the air inside.
- Attach the pipette. Move the pipetting knob up-word for filling, down-word for discharging.
- For blow-out just push the discharge bellow.
- A replaceable hydrophobic membrane filter in the intale cone prevents cross contamination.

catalogue number	product descriptions
011.02.003	pipette filler
011.02.003.3	spare filter

Standard pipette filler for up to 10 ml pipettes.

PIPETTE FILLER - *"macro"*

- Bulb maufactured from natural rubber. Most common pipette filler for all types of pipettes up to 100 ml volume. Standard model can be used up to 10 ml pipettes. Universal model can be used up to 100 ml pipettes.
- Evacuation can be easily done by pressing the related automatic valves. Offers an easy single hand use. Pressing the valve the liquid is drawn- up to the desired level, dispensed partially or blown-out.

catalogue number	model	for pipettes	pack quantity
011.02.001	standard	up to 10 ml	1 piece
011.02.002	universal	up to 100 ml	1 piece

Universal pipette filler for up to 100 ml pipettes.

PIPETTE FILLER

- Simple and easily controllable pipette filler for all pipettes up to 15 ml volume .
- Very easy to use; First squeeze the bulb and release the air inside. Then attach the pipette. Release the bulb pressure and fill the pipette. For discharge squeeze the bulb again.

PIPETTE PUMP - *"electrical"*

- For all kinds of pipettes from 0,1 ml to 100 ml volume range.
- Ergonomic, light weight and well balanced body offers full comfort and fatigue-free pipetting.
- Powerful pump can fill a 25 ml pipette under 4 seconds.
- Pump speed can be adjusted to 8 different levels. LCD display visually shows the selected speed. Also offers gravimetric drain.
- Changeable lithium-ion batteries provide 8 hours continuous use. LCD display shows remaining battery power.
- The high-tech charger prevents over charging and provides long life cycle. 2-3 hours is required for full charge.
- Silicone adapter in the intake cone holds firmly the pipettes in position. Replaceable hydrophobic 0,45µm PTFE filter prevents cross contamination.
- Supplied with a wall mounting and a dual-position stand.

volumetric measurement & liquid handling

BURETTE - *"digital" - "motor driven"*

- The most advanced digital burette featured with motor controlled piston movement. Conforms ISO 8655 standard. Guarantees reliable measuring results with bubble-free dispensing and consistent delivery with self calibration function.
- Offers an operating volume range from 0,01 ml to 99,99 ml with 0,01 ml resolution with a maximum piston lift of 10 ml.
- Back drawn valve for recirculating the liquid into the bottle without any loss of reagent.
- User friendly TFT control touchscreen guides the user for a quick and accurate titration. System also avoids manual disturbance and human errors. 16 stage dispensing speeds allow the user to achieve titration end point precisely.
- Dispensing can be performed by a touch at the screen and stops immediately when the touch is removed.
- BSG, PTFE, FEP are used in the liquid path provides excellent chemical resistance to most common laboratory reagents. Outer surface is made of ABS. Visible glass barrel allows inspection of the liquid before and during dispensing.
- Magnetic stirrer has a motor free design and featured with 5 programmable speeds.
- Precision valve ensures easy priming and minimum waste with no back leakage into the reservoir bottle.
- Discharge tube can be turned to any desired position since the body can rotate 360° round the axis.
- Featured with a built in ergonomic and compact ultra flat magnetic stirrer for easier and faster titration and also more stable and consisting results.

catalogue number	volume range (ml)	volume accuracy	pack quantity
007.01.002	0,01-99,99	0,01 ml	1 piece

DISPENSER - *"repetitive"*

- Ergonomically designed and light weight dispenser for fast and simple serial dispensing of liquids.
- Perfect tool for applications where repetitive dispensing is a must and where time is valuable.
- Very easy to use; first fill the dispenser tip with the liquid similar to a syringe. Then press the pipette button for each dispensing step.
- All functions can be controlled only by three control mechanisms.
- Offers 5 volume settings and 7 different dispenser tip sizes results with 35 alternative different volumes.
- Depending on the size & volume of the tip used - it is possible to dispense between 0,5 ml to 50 ml liquid in multi-interval.
- Works on the positive displacement principle which enables dispensing of even high density and high vapour liquids.
- Dispensing volume can be selected from the volume scale on the body.

catalogue number	pack quantity
008.06.001	1 piece

DISPENSER TIPS - *"repetitive"*

- Dispenser tips are manufactured from clear polypropylene.
- 7 different tip sizes offer 35 alternative different volumes.
- Graduation on the side of the tips enables visual confirmation of the volume.

Adapter for 25 & 50 ml tip should be ordered seperately
Cat. No: 008.06.002

008.06.002	adapter for 25 & 50 ml	

DISPENSERS - *"advanced model"*

- Guarantees reliable results with bubble-free dispensing of liquids. Fully autoclavable body provides high precision with consistent delivery.
- Available in 6 volume ranges covering a range from 2,5 ml to 100 ml.
- Individually calibrated according to ISO 8655 standard and supplied with a calibration certificate.
- All wetted parts are PTFE, FEP, PFA and borosilicate glass ensuring highest degree of chemical resistance.
- Springless PTFE valve manifold ensures excellent chemical compatibility and leak-proof functioning.
- This also ensures wiper like movement of the piston making it suitable for all kinds of crystalline liquids.
- PTFE piston and viton "O" ring guarantees fatigue-free, smooth, effortless piston movement and high accuracy.
- Dosing cylinder is protected against breakage by a polypropylene sleeve.
- Large volume scale printed on both sides of the body guarantees fast, easy and precise volume readings.
- Adapter rotates freely 360° on the bottle neck and redirects the discharge to the desired position.
- Easy volume setting with 180° rotating volume adjustment knob.
- Discharge tube cap prevents drying and accidental dropping.
- Supplied with 4 adaptors (28, 38, 40 & 45 mm diameter) to fit almost all available reservoir bottle necks.
- The telescopic extractable intake tube can be adjusted simply by pulling according to different bottle heights.
- Specially designed calibration tool is provided with each dispenser for convenient and fast user recalibration.

- **Alternative 2 dispensers:**
  - **without recirculation valve**
  - **with recirculation valve**

Volume scale printed on both sides of the body guarantees precise volume readings.

Built in recirculation valve prevents reagent loss during purging,

Adapter rotates freely 360° on the bottle neck and redirects the discharge to the desired position.

Fast, easy and reliable volume setting with 180° rotating volume adjustment knob.

Discharge tube cap reduces contact with the air and prevents drying. Also prevents accidental dropping.

Supplied in a perfectly designed modern and sturdy box featured for compartments for every piece.

volumetric measurement & liquid handling

MICROPIPETTES - *"adjustable volume"*

Non-autoclavable pipette

- 9 models covers volume range from 0,25 µl to 10 ml and combines all the requirements of a modern pipette.
- Each pipette is individually calibrated according to ISO 8655 and certified. Supplied with an individual calibration certificate.
- Ultralight and well balanced body offers greatest comfort for extended pipetting periods.
- Contoured and ergonomic body shape fits perfectly to all hand sizes.
- Guarantees fast and easy volume setting with single hand. Volume display is allways fully visible.
- Thumb friendly soft spring pipetting system reduce plunger pressure.
- Ergonomic finger hook offers comfortable handling and to take the weight for a more relaxed grip.
- Tip ejector with large pad reduces thumb pressure workload and guarantees easy tip ejection. (except 011.05.910)

PIPETTING RESERVOIRS - *"non-sterile & sterile" - "disposable"*

- Manufactured from polystyrene featured with thick walls and crush-resistant corners as single, disposable use.
- Offers a clean, practical and economical alternative to all other re-usable pipetting reservoirs.
- Featured with a visible volume marking on the side wall.
- Large pour-back spouts at the corners guarantee safe pouring back the remaining liquid in to the original container.
- Easily stackable due to the tapered body form for reducing storage space. Liquid reservoirs do not stick to each other even stacked.
- Bottoms with a sloping "V" form and tapered in a narrow through guarantee maximum liquid recovery.

Easily stackable due to the tapered body form for reducing storage space.

Bottoms with a sloping "V" form and tapered in a narrow through.

MICROPIPETTES - *"adjustable volume" - "autoclavable" - "for research"*

- One pipette with exchangeable fix-volume controllers solves all your problems. Offer as single channel and 8 channel models.
- 9 models cover volume range from 0,2 µl to 10 ml and fullfill all the requirements of a modern pipette.
- Autoclavable, ultralight and well balanced body offers greatest comfort for extended pipetting periods.
- PP/PVDF/ anodised aluminium and stainless steel body construction guarantees the highest level of accuracy and precision.
- Dual "O" ring technology guarantees best tip fit. Outer "O" rings makes tip loading easy.
- Fast and easy volume setting with single hand. Volume setting requires 50% fewer turns compared to some brands.
- Volume lock prevents accidental volume changes during operation. Volume display is always fully visible.
- Thumb friendly soft spring pipetting system reduces plunger pressure by up to 50% and guarantees the whole procedure more comfortable.
- Ergonomic finger hook offers comfortable handling and to take the weight for a more relaxed grip.
- Color-coded tip ejector reduces thumb workload by 70 % compared with other brands.
- Large pad of tip ejector guarantees easy tip ejection.
- Each pipette is individually calibrated and certified. Serial number is printed on each pipette.

volume range	single channel	inaccuracy	imprecision %	8 channel	inaccuracy	imprecision %	color code	pack quantity

10 - 100 µl	011.20.100	2.50 / 0.70	1.00 / 0.20					1 piece
20 - 200 µl	011.20.200	2.50 / 0.60	0.70 / 0.20	011.21.200	1.80 / 1.20	0.80 / 0.40		1 piece
30 - 300 µl		1.66 / 1.40	0.60 / 0.30	011.21.300	1.66 / 1.40	0.60 / 0.30		1 piece
100 - 1000 µl	011.20.901	2.00 / 0.80	0.60 / 0.20					1 piece
1 - 5 ml	011.20.905	1.20 / 0.60	0.30 / 0.15					1 piece
1 - 10 ml	011.20.910	3.00 / 0.60	0.60 / 0.15					1 piece

volume lock feature

Select the desired volume and lock the indicator.

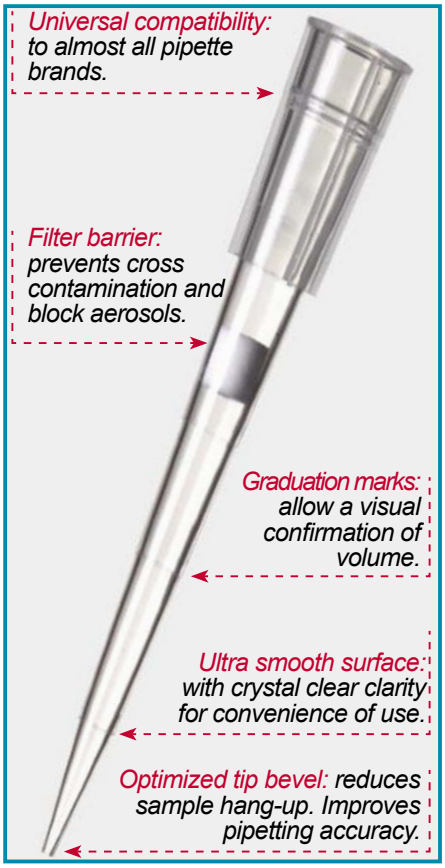

- Volume lock feature allows selecting the desired volume and locking the indicator to achieve a more reliable pipetting experience.
- Locking feature prevents accidental volume changes during pipetting procedures.
- Simply slide the button to the upper position to lock or lower to release.

dual "O" ring

Dual "O" ring technology: guarantees best tip fit.

- Outer "O" rings make tip loading easier. The first "O" ring creates a smooth seal while the second "O" ring creates a positive stop to ensure that the tips are airtight, sealed, and can be ejected with the smallest amount of force.

PIPETTE TIPS - *"precision" - "for research"*

- Manufactured from FDA approved polypropylene with consistent quality.
- Manufactured in fully automatic, human touch-free, clean room facilities as DNase, RNAse, Pyrogen free. Certified on lot basis.
- Low retention is achieved by a special resin which offers minimum retention and maximum accuracy allowing complete retrieval of precious samples.
- Maximum sample recovery eliminates sample hold-up, providing the most accurate sample delivery.
- Exclusive molding technology reduces the sample loss, saves costly reagents and maximises accuracy and precision.
- Filtered tips prevents cross contamination from sample to sample by creating a physical barrier in the tip to inhibit and block aerosols.
- Optimised shape fits to all common pipettes to give perfect seal between the pipette tip and the pipette shaft.
- Different lengths within the same volume range for different applications.

Alternative packing options:

Puncture resistant bags:
- Base with a wide gusset enables self-standing and allows single-handed access.
- Heat sealed above the zip-lock closure, product integrity and cleanliness is assured right down to the last tip.

Durable boxes:
- Easy to open-close hinged lid boxes with internal rib structure provide an extremely strong platform.
- Features recessed wells to ensure perfect tip allingment.

maximum sample recovery

Isolab tip after dispensing 100 µl sample.

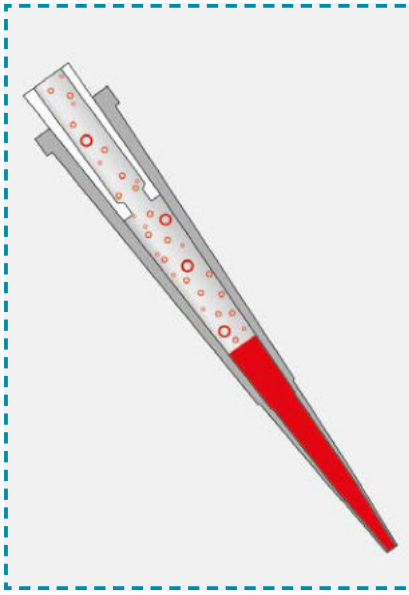

ISOLAB *tips are made from low liquid retention resins that provides superior sample recovery while increasing accuracy and reproducibility.*

- Allows for complete retrieval of precious samples.
- Saves costly reagents by reducing sample loss.
- Optimizes accuracy of the pipettor and also transfer of blood plasma.
- Avoids denaturation of nucleic acids and protein samples.

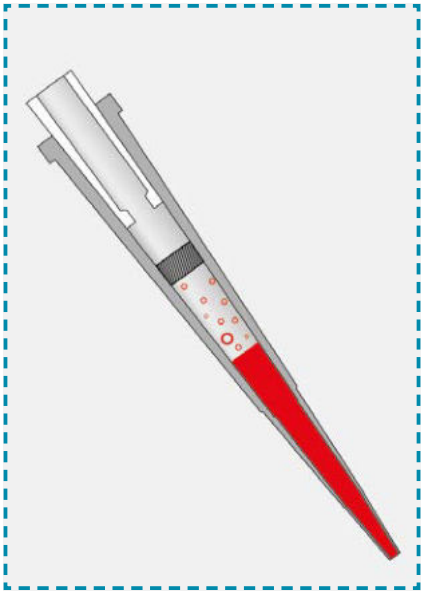

Other brand standart tip after dispensing 100 µl sample.

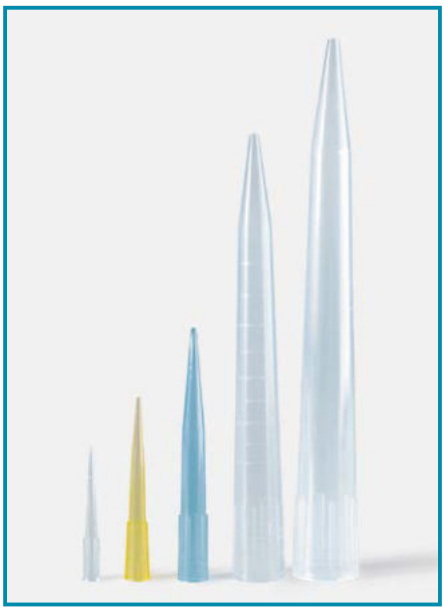

filter tips

ISOLAB *filter tips offer the ultimate in protection against contamination.*

- Filter barriers block aerosols by coalescing radioactive, chemical or biological contaminants before they can come in contact of pipettor shaft.
- Their usage is mostly essential in critical applications such as PCR, DNA sequencing and other techniques that involve the use of vaporous, biohazardous or corrosive material.
- Tip filters also act as a safety barrier against accidental over-pipetting of liquids without risk of sample lock-up.

PIPETTE TIPS - *"economical"*

- Manufactured from high quality pure polypropylene which is highly resistant to chemicals and thermal effects.
- Produced to match wide variety of pipettors for secure sealing and easy tip ejecting.
- Uniformity in size and shape allows perfect fitting with almost all micropipettes.
- Flashfree and uniform delivery orifice for consistent accuracy and reproducible sample delivery.
- Thin wall and small surface area at the tip minimize the possible tip retaining samples droplets.

STAND - *"micropipette" "carrousel"*

- Manufactured from polypropylene for using with most common micropipette brands.
- This space saving, robust stand can hold up to 6 pipettes comfortably.
- The round carrousel stand can rotate 360° around the axis enabling easy reach of any pipette.

catalogue number	base diameter	total height	pack quantity
006.11.005	160 mm	320 mm	1 piece

STAND - *"micropipette" "linear"*

- Manufactured from polypropylene for using with most common micropipette brands.
- Offers practical and easy direct access to micropipettes.
- This space saving, robust stand can hold up to 6 pipettes comfortably.

Linear micropipette stand can also hold multi-channel pipettes.

catalogue number	dimensions	pack quantity
006.11.006	143 x 290 x 290 mm	1 piece

STAND - *"micropipette" "adjustable"*

- Manufactured from acrylic with ergonomic angled body form with adjustable pipette holding option.
- Can be used with most pipette brands.
- Depending on the stand size enables easy holding and handling of 4 or 6 single channel pipettes.

The unique adjustable pipette holding design guarantees the use with different height pipettes.

catalogue number	dimensions	pack quantity
006.12.004	130 x 260 x 220 mm	1 piece
006.12.006	150 x 380 x 220 mm	1 piece

STAND - *"micropipette" - "with bin"*

- Manufactured from acrylic with a bin. The top support can hold 4 single channel pipettes.
- Generous opening of the bin provides easy and safe access to partitions.
- Cover is featured with easy opening sliding lid. Once opened, the lid stays open and enables easy filling and dispensing.
- Bin guarantees safe and clean storage of box pipette tips without been effected from dust, moisture and other environmental effects.
- Featured with non-skid silicone feet for safe and stable stand on the laboratory desks.

catalogue number	dimensions	pack quantity
006.05.001	200 x 178 x 173 mm	1 piece

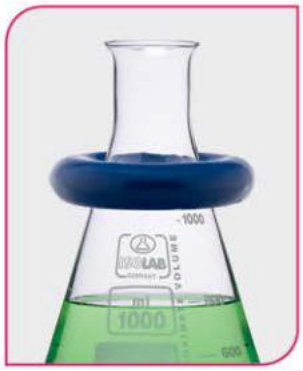

Bin guarantees safe and clean storage of pipette tips without been effected from dust, moisture and other environmental effects.

Cover is featured with easy opening sliding lid. Once opened, the lid stays open and enables easy filling and dispensing.

BOTTLES - *"ISO" - "borosilicate glass"*

- Manufactured from heat resistant, durable borosilicate glass with thick walls and crush-resistant corners.
- These impact resistant, excellently thermal stable bottles are autoclavable at 121°C. Caps should not be closed during autoclaving.
- Angled neck form allows unrestricted liquid flow out without leaving any residue at the bottle neck.
- A large GL 45 bottle neck provides easy filling and pouring. Unique design pouring ring prevents drops and spillage.
- Caps are made from polypropylene with large ridges with increased grip. Cap inner design ensures hermetical and leak-proof closure.
- Volume graduations on wall side offers better liquid level viewing. Graduations and inscriptions are printed with white enamel.

Color coded caps enable easy and practical identification of bottle content. Color coded caps can be selected from page no 69.

Cap with large ridges for increased grip with self sealing lock.

GL 45 neck provides easy fill & pour. Pouring ring prevents drops and liquid splash.

COATED BOTTLES - *"glass" - "clear & amber"*

- When handling dangerous and/or valuable solutions coated bottles are highly recommended.
- They are featured with identical technical specifications of clear and amber bottles with codes 061.01.xxx and 061.02.xxx.
- Bodies of these bottles are coated with a special formulated coating which reduces the impacts. Coating covers the body like a protective glove and holds the broken parts unscattered.
- The coating also holds the broken glass together so that the leakage will be minimum. In most of the cases this coating keeps the solutions still inside the flask body without leakage.
- The coating is highly transparent and can resist up to 135°C with maximum period of 30 minutes. These bottles can be cleaned at maximum 95°C and can be reapetably autoclaved at 121°C.
- Coated bottles should not be exposed directly to open flame.

Sterile bottles are manufactured at aseptically sterile production halls and then sent to gamma sterilisation.

Such informations as lot number, production and expiry dates etc. are indicated on the packing.

BOTTLES - *"ISO" - "polypropylene"*

- Manufactured from special formulated polypropylene with thick walls and crush-resistant corners.
- Featured with high transperancy and best chemical heat tolerance.
- These impact resistant, excellently thermal stable bottles are autoclavable at 121°C. Caps should not be closed during autoclaving.
- Angled neck form allows unrestricted liquid flow out without leaving any residue at the bottle neck.
- A large GL 45 bottle neck provides easy filling and pouring. Unique design of the neck with moulded pouring ring prevents drops and spillage.
- Cap with large ridges with increased grip featured with self lock and internal security ring. Cap inner design ensures hermetical and leak-proof closure.
- Embossed volume graduations on wall side offers better liquid level viewing and reproducable filling of the bottle without the need of a measuring cylinder.
- **Alternative 2 bottles:**
  - **Clear bottles**
  - **Amber bottles**
- Clear bottles are manufactured from very clear polypropylene resulting with high transperancy and for better view of the bottle content.
- Amber bottles are manufactured from special formulated polypropylene preventing UV light penetration into the flask yet still offering high transperancy.
- **Alternative 2 products:**
  - **Non-sterile bottles**
  - **Gamma sterile bottles**
- Sterile bottles are manufactured at aseptically sterile production halls and then send to gamma sterilisation. Such informations as lot number, production and expiry dates etc are indicated on the packing.

Unique design of the cap with intended top plate guarantees tight and leakproof closure.

Integral security ring of the cap ensures safe and untouched protection of the bottle content.

Caps are made from robust and thick polyethylene with large ridges for increased grip.

Unique neck design with moulded pouring ring prevents drops and liquid splash.

BOTTLES - "square" - "wide neck" - "polyethylene"

- Manufactured from polyethylene with thick walls and crush-resistant corners.
- A large bottle neck provides easy filling and pouring.
- Cap offers increased grip. Featured with an insert plug for hermetical and leak-proof closure.
- Bottle neck and the cap carry holes for enabling the insertion of the security seal wire.
- The space between the cap and the insert plug can be used for securing confidential notes.
- Embossed volume graduations on wall side offers better liquid level viewing and reproducable filling of the bottle without the need of a measuring cylinder.
- **Alternative 2 bottles:** **Clear bottles** **Amber bottles**
- Clear bottles are manufactured from very clear P.E resulting with high transperancy and for better view of the bottle content.
- Amber bottles are manufactured from special formulated P.E preventing UV light penetration into the flask yet still offering high transperancy.

BOTTLES - *"for water sampling" - "polypropylene"*

Self sealing lock caps with integral security ring. Cap inner design ensures hermetical closure and guarantees an excellent leak proof closure.

Cap with large ridges with increased grip featured with self lock and internal security ring. Cap inner design ensures hermetical, leak-proof closure.

Each bottle is labelled specifying sample and source descriptions, code and lot numbers, expiry date and other informations.

- Manufactured from polypropylene for taking, transporting and storing of water samples for microbiological analysis. They can be used for all analysis where a sterile sample is required.
- Bottles are manufactured at aseptically sterile production halls and then sent to gamma sterilisation. Such informations as lot number, production and expiry dates etc are indicated on the packing.
- Square bottle form offers easy handling and optimum space saving solutions. GL 50 wide bottle neck provides easy filling and pouring.
- Cap with large ridges with increased grip featured with self lock and internal security ring. Cap inner design ensures hermetical and leak-proof closure. Caps are made of polyethylene.
- Embossed volume graduations on wall side offer better liquid level viewing.
- **Alternative 2 bottles:**
  - **Without sodium thiosulfate**
  - **With sodium thiosulfate**
- Bottles with sodium thiosulfate (20 mg/lt - according to ISO/FIS 19458/2006 standard) are ideal for water analysis where chlorine may modify the composition of the sample.
- **Alternative 2 packing:**
  - **"Bulk packed", where bottles are packed as a group in a box.**
  - **"Single packed", where bottles are first individually packed in P.E bags and then repacked in a box.**
- **Alternative 2 colors:**
  - **Clear bottles**
  - **Amber bottles**
- Clear bottles are manufactured from very clear P.P resulting with high transperancy and for better view of the bottle content.
- Amber bottles are manufactured from special formulated P.P preventing UV light penetration into the flask yet still offering high transperancy.

"Single packed", where bottles are first individually packed in P.E bags and then repacked in a box.

WASH BOTTLES - *"wide neck" - "multilingual"*

- Manufactured from highly translucent and semi-rigid polyethylene and polypropylene according to European safety regulations (EC)1272/2008(GHS).
- Angled delivery tube guarantees a fine and straight flow with an application of a slight pressure on the body.
- Dispensing tube design offers turbulance free liquid transfer.
- Caps acupled with delivery tube are made from polyethylene with large ridges with increased grip.
- Cap inner design ensures leak-proof closure.
- Chemical names, formulas, CAS numbers and other key safety informations are printed on the body surface in 4 (English / French / German and Spanish) languages.

Warning words as "flammable", to identify the the hazardous liquids, "how-to-use" instructions in four languages are printed on the body.

Chemical names, formulas, CAS numbers and pictograms showing the latest changes in regulations are printed on the body.

TUBE RACKS - *"epoxy coated steel"*

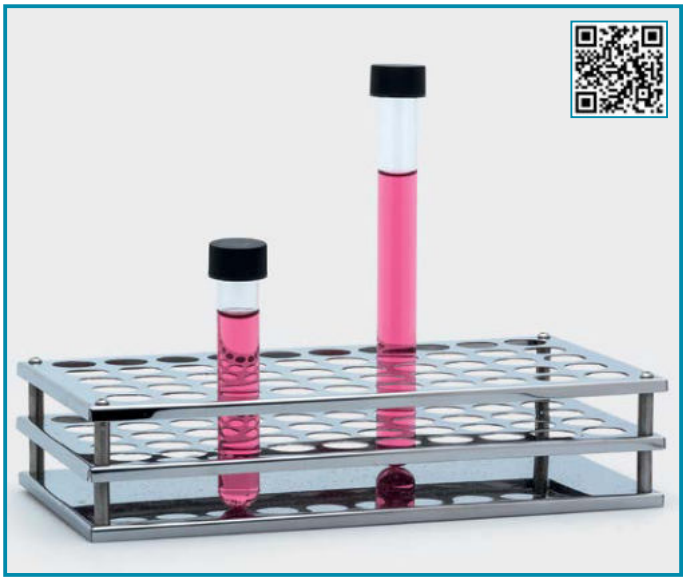

- They offer ideal solutions with square tube holes, reinforced edges and slotted bottom design or secure handling.
- Manufactured from high quality steel wire, welded and coated with heat cured blue epoxy.
- The epoxy coating is absolutely corrosion proof and can resist to salts, moderate acids, moderate alkalis and organic solvents.
- Ideal for autoclaving. Can resists from -200°C to +121°C.

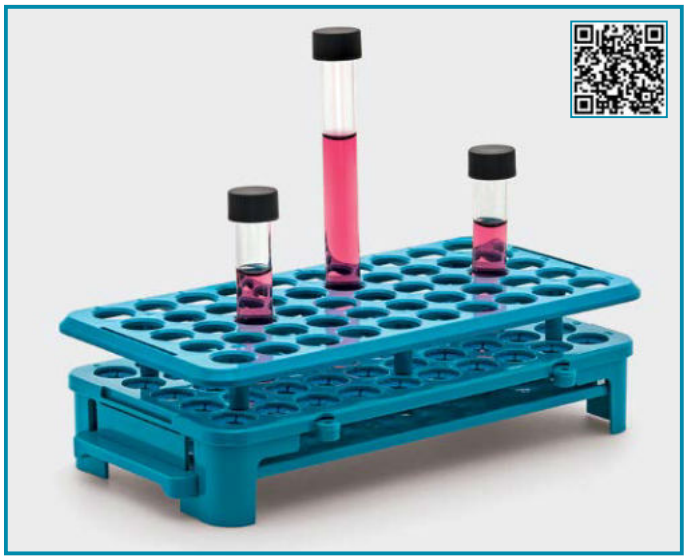

Square tube holes and slotted bottom design guarantees firm hold of the tubes at exact positions.

CLAMP - *"3 jaws" - "with bosshead"*

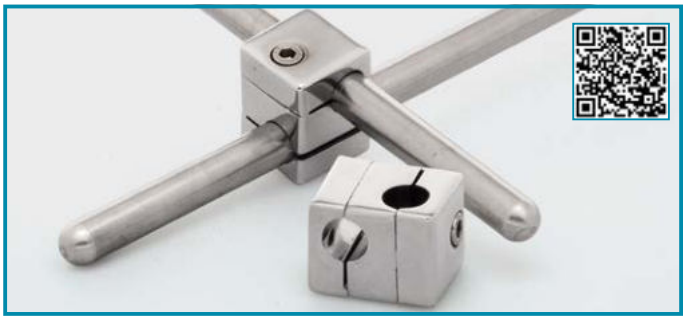

➤ Manufactured from high quality, corrosion resistant chromated steel holding for various objects in the most secure way.

➤ Featured with a swivel bosshead which provides 360° swivel of the clamped object around their axis. Bosshead locking feature guarantees perfect position hold of the clamped objects. Adjustable clamps guarantee perfect pressure control.

➤ PVC coated insulated jaws guarantee perfect heat insulation. Soft coating holds the glassware gently and prevent breakage.

➤ Clamps can be opened and closed smoothly with a 70 mm grip diameter.

SCOOPS - *"polypropylene" - "self standing"*

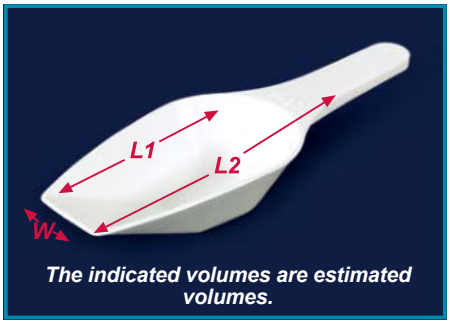

- Manufactured from high quality polypropylene which resists to most acids, bases and many commonly used solvents.
- Guarantees excellent temperature resistance between -20°C to +121°C.
- Perfect shape and size enable efficient sampling of various powder, granulate and paste form samples.
- 9 volume sizes from 2 ml to 1000 ml offer an wide sampling option from smallest to largest sample volume.
- Due to their flat bottom construction these scoops can stand horizontal on the flat surfaces and can also be used as a weighing pan.
- With the help of precision formed sharp edge they offer best performance while picking up samples even from wet surfaces.

Featured with easy to grip handles for comfortable use. Approximate volume values are printed on the handles.

The indicated volumes are estimated volumes.

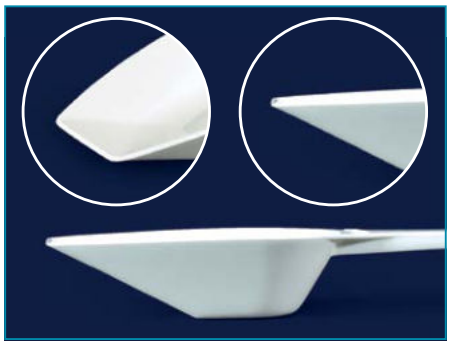

white scoops	blue scoops	volume	L1	L2	W	pack quantity

- For very high heating heating up to 1700°C is required.
- Can be used with all gases such as neutral gas, butane gas and coal gas.
- Offers practical control of flame from very slow heating to rapid boiling with an adjustable air and gas regulation ring.
- Precise flame adjustment is guaranteed by a screw driven gas control knob.

BUNSEN BURNER STABILIZER

- There is always a tilt over risk for bunsen burners.
- Bunsen burner stabilizer provides a very stable and robust additional base and holds the attached bunsen burner firmly avoiding above mentioned risk.
- The nest perfectly fits to the bases of bunsen burners with catalogue no: 050.01.002 and 050.01.003.
- First insert the bunsen burner into the stabilizer nest. Then stabilize the bunsen burner by fixing the provided screw tightly.

050.09.001	1 piece

HOSES - *"for bunser burners"*

- Manufactured from extra thick walled rubber. Specially designed to be used with bunsen burners.
- Reinforced ends fits perfect to the bunsen burner at one side and the gas tap at the other side assuring gas leakage free connection.

SILICA - GEL DESICCANT BEADS

- Silica-Gel beads are moisture absorbing self - indicating drying agents.
- Perfect substitude of classical desiccator moisture absorbents.
- Beads has a grain size variable from 1 to 3 mm. They are free from any heavy and environmentally compatible.
- Original orange color gradually turns to white as the gel absorbs moisture.
- Color change offers monitoring of the saturation level.
- Silica-Gel beads can be regenerated when heated at a temperature of maximum 120°C.
- The color turns back to original orange color.
- Packed as 1 kg in a sealed P.P bottle in order to prevent preabsorption of moisture.

SCISSORS - *"for hose cutting"*

➤ Offers a clean and sharp cut of all kinds of hoses with external diameter range 6 mm to 25 mm.

➤ The cutter blade is manufactured from stainless steel with two ends. If one cutting end gets blunt, the other side can be used.

catalogue number	pack quantity
052.08.002	1 piece

Offers a clean and sharp cut of all kinds of hoses with external diameter range 6 mm to 25 mm.

TUBING CLAMPS - *"click -lock"*

➤ Manufactured with a stainless steel clamp and HIPS pressure plate for reliable and precise flow control.

➤ Can be used wherever the flow rates at tubings with liquids and gases need to be regulated or stopped.

➤ The micro screw system enables a fine and stepless adjusted flow control.

➤ The clamp can be opened and closed at any position without loosening.

➤ The unique construction enables easy mount of the clamp even when the tubing is already connected to a system.

➤ Adjustable pressure plate compresses the tubing over a wide area against the stainless steel hook in order to prevent damages.

STOPPERS *"rubber"*

- Manufactured from additive free, best quality natural rubber according to DIN 12871 standard with durometer 40 A.
- Guarantees excellent chemical and temperature resistance between -25°C to +70°C.

STOPPERS *"silicone"*

- Manufactured from chemically inert, autoclavable, best quality natural silicone according to DIN 12871 standard with durometer 50 A.
- Guarantees excellent chemical and temperature resistance between -60°C to +170°C.

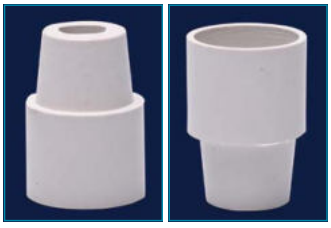

STOPPERS *"cork"*

- Manufactured from non-porous, additive free, best quality natural cork according to DIN 12871 standard dimensions.
- Offers multi advantages with their light weight yet robust construction. Can be easily drilled.

STOPPERS - *"turn - over flange"*

- Manufactured from chemically inert, autoclavable, best quality natural silicone.
- Guarantees excellent chemical and temperature resistance between -60°C to +170°C.
- They provide perfect tight sealing even with poorly finished rims preventing accidental openings.
- Offers optional sealing both from inside or outside of the tube wall.
- For sampling the upper septum can be easily punctured. Flexible body material reseales.

how to select proper size stopper?

Attached table indicates technical dimensions of NS joints. Please examine the related NS size and select the right stopper from the catalogue list.

Please pay attention to select a larger stopper for perfect closure of the joint.

NS size	total height	diameter narrow end	diameter wide end
10/19	19,00 mm	8,02 mm	10,00 mm
12/21	21,00 mm	10,50 mm	12,50 mm
14/23	23,00 mm	12,17 mm	14,50 mm
19/26	26,00 mm	16,01 mm	18,80 mm
24/29	29,00 mm	20,95 mm	24,00 mm
29/32	32,00 mm	26,12 mm	29,20 mm
34/35	35,00 mm	30,77 mm	34,50 mm

STOPPERS - *"hallow glass" - "hexagonal"*

- Manufactured from borosilicate glass according to DIN 12252.
- Hexagonal flat head prevents the stopper from rolling on the bench and avoids the breakage risk.
- A pointed, round formed "drip-tip" stopper lower end guarantees return of the adhered liquid back to the flasks.

lab consumables & labware

CLING FILM

- Manufactured from PVC based resin with extremely good stretching, and adhesion characteristics. Perfect tool for sealing and wrapping of various labware.
- Offers an easy use and easy for unravel application.
- Stretches and widens up 50% of original length. Clings around the labware and seals labware with leak-proof tightness.
- Waterproof. Chemically inert and resistant to most organic solvents and caustic agents.
- Remains flexible in moderate freezing temperatures. Can resists up to 75°C.

Offers extremely good stretching, and adhesion characteristics. Perfect tool for sealing and wrapping of various labware.

058.03.001	300 mm	90 m	0,011 mm	1 piece

SEALING FILM - *"parafilm"*

- Most common sealing film used in laboratories.
- Manufactured from polioefin and paraffin mixture.
- Guarantees excellent chemical to salt, inorganic and alkaline solutions up to 48 hours and offers temperature resistance between -45°C to +500°C.
- Stretches and widens up 200% of original length.
- Clings around flask necks circumference and seal irregular perimeters of flasks, erlenmeyers, bottles, beakers etc. with leak-proof tightness.
- Also prevents breakage risk of flask neck and spillage of flask contents in case of a tilt over.

Clings around flask neck circumference and seal irregular perimeters of flaks, erlenmeyers, bottles, beakers etc. with leak-proof tightness.

PARAFILM DISPENSER

- Perfect tool for safe and easy cutting of 100 mm and 50 mm width parafilms.
- Keeps the remaining part uneffected from enviromental conditions.
- Can cut one roll of 100 mm or simultaneously 2 rolls of 50 mm width parafilm.
- Manufactured from ABS and featured with a double action cutting blade that silides and cuts.
- The clear hinged lid enables visual control of the remaining parafilm roll.
- Unique design of the blade holder guarantees easy handling.
- The cutting blade can easily slide in both directions providing a clean and uninterrupted cut.
- The cutting blade is embedded in a holding block ensuring finger safety.

dispenser cat. number	dimensions	body color	pack quantity
058.02.001B	120 x 140 x 140 mm	blue	1 piece
058.02.001P	120 x 140 x 140 mm	purple	1 piece
058.02.001R	120 x 140 x 140 mm	ruby	1 piece

Push the cutting mechanism of the dispenser backwards.

Place the parafilm and move the mechanism back to original position.

Pull out the necessary length from dispenser for cutting.

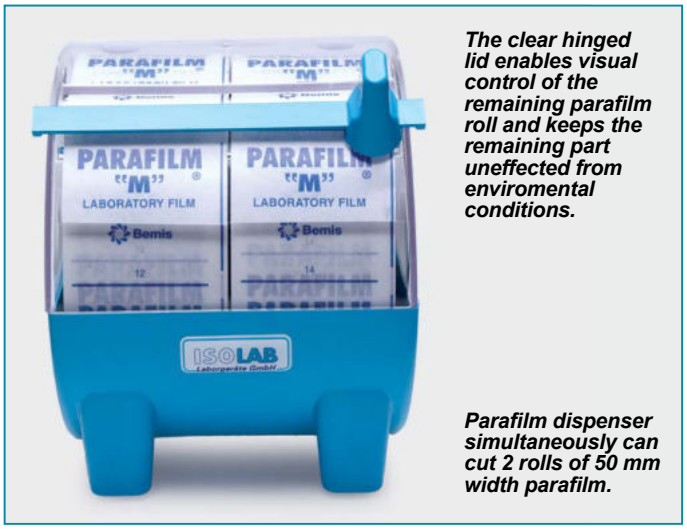

Parafilm is cut with one movement of the blade from side to side.

SPARE CUTTING BLADE

- Unique design of the blade holder guarantees easy handling.
- The cutting blade is embedded in a holding block ensuring finger safety.
- It is recommended that after a certain use period the cutting blade should be exchanged for better cutting performance.

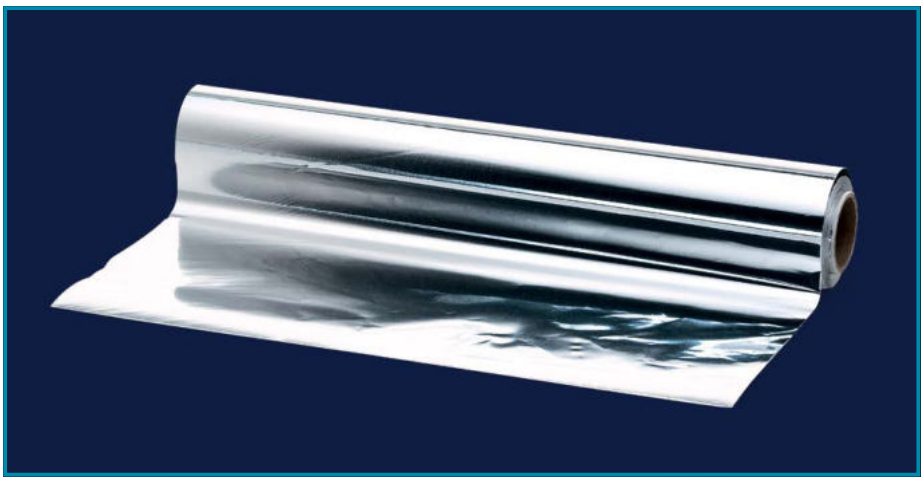

catalogue number	pack quantity
058.02.101	1 piece

The clear hinged lid enables visual control of the remaining parafilm roll and keeps the remaining part uneffected from enviromental conditions.

Parafilm dispenser simultaneously can cut 2 rolls of 50 mm width parafilm.

FOIL ROLL - *"aluminium"*

- Manufactured from polished, pure aluminium sheet for wrapping and sealing of various labware.
- Due to the characteristics also convenient to form temporary containers.
- Offers ideal use during autoclaving, heating, freezing applications.
- Approximate foil thickness is 0,018 mm.

catalogue number	roll width	roll length	pack quantity
058.04.001	300 mm	45 m	1 piece

FOIL DISPENSER

- Perfect dispenser to be used for aluminium folios and cling films.
- Easy and safe to use; Place the roll inside the box, press the lid, pull the necessary length out and start cutting.
- An easy and clean cut without waste is guaranteed with sharp cutting teeth.
- Light weight ensures easy handling with one hand.
- Compact design requires limited working space area.

catalogue number	max. roll width	pack quantity
058.02.002	300 mm	1 piece

ALUMINIUM DISCS

- Manufactured from polished, pure aluminium sheet in circular form for sealing of beakers, erlenmeyers, flasks and other various labware necks.
- Guarantees perfect, dust-free seal and offers ideal use during autoclaving, heating, freezing applications.
- Discs do not stick to each other since they are interleaved with protective tissue papers.
- Approximate foil thickness is 0,03 mm.

Guarantees perfect, dust-free seal and offers ideal use during autoclaving, heating, freezing applications.

PEN - *"engraving"*

Easy to operate; hold the pen tightly on the surface, press the power button, let the tip rotate with high speed and provide a permanent inscription on the surface.

- Offers unlimited application for writing, marking and engraving on almost all surfaces without applying pressure.
- Easy to operate; hold the pen tightly on the surface, press the power button, let the tip rotate with high speed and provide a permenant inscription on the surface.
- The inscriptions and markings will not be effected by chemicals or sunshine and stay forever.
- Cordless battery power enables both indoor and outdoor applications. Operates with 2x"AA" battery which is not supplied with the pen.

catalogue number	pack quantity
099.01.001	1 piece

PENS - *"permanent-ink"- "double tip"*

- All purpose pens with round fiber tip for labelling, writing, painting on virtually all materials including glass, metal and plastic surfaces.
- Consists of 2 tips at each end. The "fine" tip at one end has 0,6 mm stroke. The "medium" tip at the other hand has 1,5 mm stroke.
- The pen ink is odorless, smudge-proof, and quick drying. Tips do not dry even if left uncapped for prolonged hours.

Supplied as a pack of 3 pens with red, blue and black colors.

catalogue number	pack quantity
099.01.002	set of 3 pens

PENS - *"marker"- "double tip"*

- All purpose pens with flat fiber tip for marking texts on paper.
- Consists of 2 tips at each end. The "fine" tip at one end has 0,9 mm stroke. The "medium" tip at the other hand has 2,7 mm stroke.
- Airtight pen cap prevents air flow and for extended life cycle.
- Supplied as a pack of 5 pens with purple, blue, green, pink and yellow colors.

Supplied as a pack of 5 pens with purple, blue, green, pink and yellow colors.

catalogue number	pack quantity
099.01.006	set of 5 pens

PENS - *"permanent-ink"- "single tip"*

- All purpose pens with round fiber tip for labelling, writing, painting on virtually all materials including glass, metal and plastic surfaces.
- Consists of a single tip at one end with 3 mm stroke.
- The pen ink is odorless, smudge-proof, and quick drying. Tip do not dry even if left uncapped for prolonged hours.

catalogue number	pack quantity
099.01.003	set of 3 pens

SEALING TAPE - *"for petri dishes"*

- Perfect tool to protect petri dish interior contents. Stretches and widens up 50% of original length.
- Clings around the petri dish body and seals irrular perimeters of petri dishes.
- Waterproof. Chemically inert and resistant to most organic solvents and caustic agents.
- Remains flexible in moderate freezing temperatures. Can resist up to 100°C.

catalogue number	tape width	pack quantity
058.07.001	19 mm	1 piece

SEALING TAPE - *"reinforced"*

1- Reinforced Kraft Paper tape: With reinforced layer with fiberglass lamination for excellent resistance to abrasion while transporting. Can adhare to any surface due to the strong adhesive backsurface. Suitable for heavy duty packaging, bundling etc.

2- Reinforced Aluminium tape: Made with layers of aluminum, fibreglass yarn and Kraft paper. Resistant to U.V degradation, moisture, many chemicals. Can adhare to any surface due to the strong adhesive backsurface. Also suitable for heat/cold reflective wrap along or over insulation, wrapping any product for protection against heat, water, dust and chemicals.

catalogue number	tape name	tape width	tape length	pack quantity
099.04.004	Kraft	60 mm	50 mt	1 roll
099.04.005	Aluminum	50 mm	20 mt	1 roll

- Designed for easy identification of materials with the universally applicable hazard symbols.
- Manufactured from 100 µm glossy PE film with acrylic resin adhesive back.
- Expands and retracts together with temperature fluctuations and guarantees always a strong adhesive bond.
- Chemically inert, water proof, moisture and most solvents and caustic agents. Can be used between - 20°C to + 80°C temperature range.
- Adheres to any clean surface including PTFE coated surfaces without cracking, peeling and degrading. Peels off without leaving any sticky residue.

CUTTING TOOL - *"for tapes"*

- A practicle cutting tool for all mentioned tapes in this page.
- Practical to use. Easy to handle. Just place the tape in position and start using immediately.

catalogue number	pack quantity
099.04.001	1 piece

TAPES - *"for labelling" - "roll"*

➤ Manufactured from colored paper with special resin adhesive that resists to moisture and most solvents.

➤ Can be used between -5°C to + 110°C temperature range. Also with stands steam autoclaving cycle and gamma irradiation.

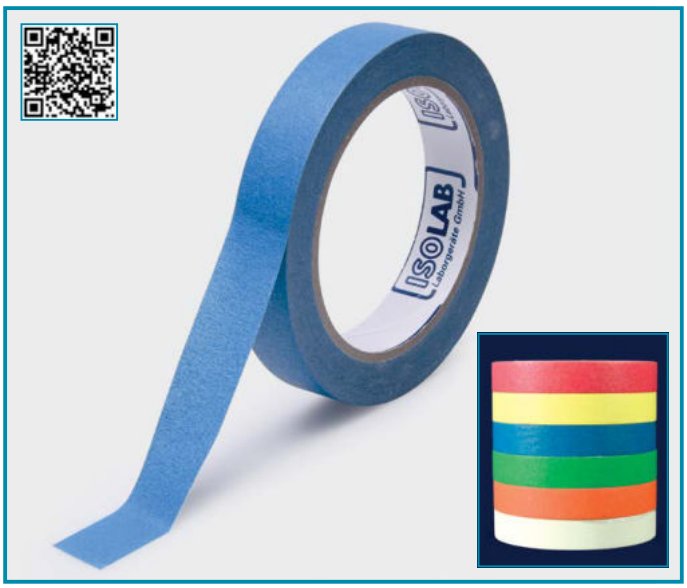

➤ Adheres to any clean surface including PTFE coated surfaces and peels off without leaving any sticky residue.

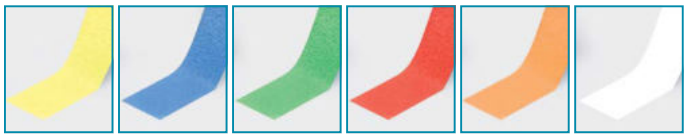

➤ Accepts writing from almost all pen types such as pencil, ball point pen, solvent ink marker etc.

➤ Markings remain absolutely legible under the most demanding laboratory conditions.

➤ Supplied as white color or as "rainbow pack" pack of 6 different colors matching the universal hazard color codes. (yellow for chemical reactivity / blue for health hazards / green for safety / red for flammability / orange tape for biohazard and white for general purpose.)

catalogue number	tape width	tape length	tape color	box quantity

099.02.011	19 mm	30 meter	white	1 roll

TAPE DISPENSER

➤ Suitable for holding and releasing the tape to be cut to users desire.

➤ The core perfectly fits to the inner diameter of the tape and keeps the tape rigidly.

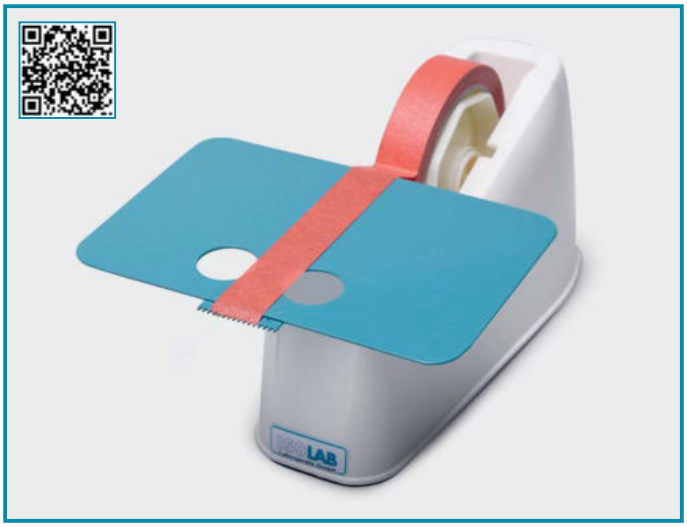

➤ Platform includes a writing surface. Finger holes on the platform enable quick release of the tape and accelerate the cutting step.

➤ Featured with a cut-off edge for efficient cutting of the tape.

➤ A weighted base with non-skid pads prevent sliding or lifting.

➤ Over all dimensions: 155x250x100 mm.
Cutting platform dimensions: 155x110 mm.

catalogue number	pack quantity
099.02.002	1 piece

LABELS - *"rectangular form"*

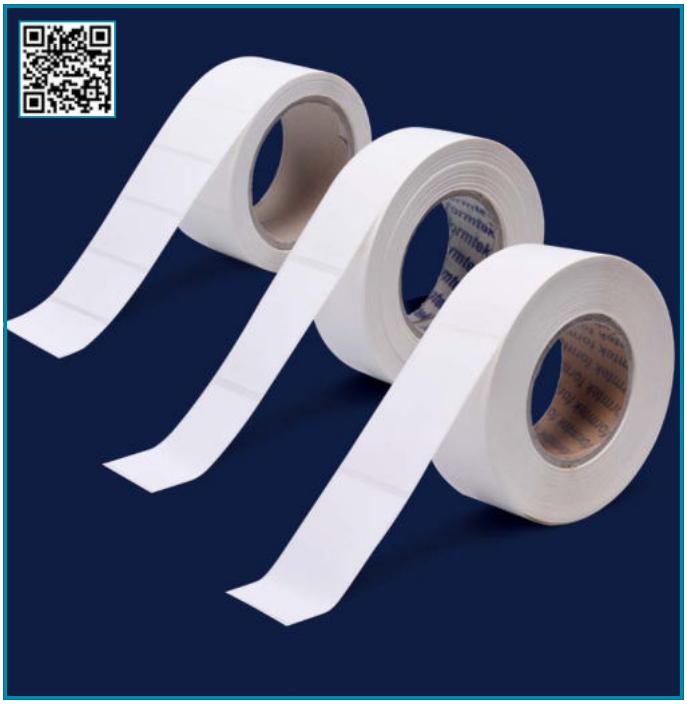

➤ Manufactured from polypropylene flexible paper with acrylic resin adhesive back.

➤ This unique combination expands and retracts together with temperature fluctuations and guarantees always a strong adhesive bond.

➤ Chemically inert, resists to water, moisture and most organic solvents and caustic agents. Can be used between -96°C to +121°C temperature range. Also withstands steam autoclaving cycle and gamma irradiation.

➤ Adheres to any clean surface including PTFE coated surfaces without cracking, peeling and degrading. Peels off without leaving any sticky residue.

lab consumables & labware

LABEL - *"circular form"*

- Manufactured from polyfiber grade flexible paper with acrylic resin adhesive back.
- This unique combination expands and retracts together with temperature fluctuations and guarantees always a strong adhesive bond.
- Chemically inert, resists to water, moisture and most organic solvents and caustic agents. Can be used between -196°C to +80°C temperature range.
- Adheres to any clean surface including PTFE coated surfaces without cracking, peeling and degrading. Peels off without leaving any sticky residue.
- Recommended to be used on tube caps with different diameters. Supplied as rolls packed in a dispenser box for practical use.
- Supplied as white color or as "rainbow pack" pack of 6 different colors matching the universal hazard color codes. (yellow for chemical reactivity / blue for health hazards / green for safety / red for flammability / orange tape for biohazard and white for general purpose.)

BAGS - *"autoclavable" - "plain"*

- Manufactured from a special grade of polypropylene with high tear and puncture resistance.
- Commonly used for safe disposal of contaminated laboratory waste such as used petri dishes, test tubes, sample vials, cultureware and other biohazardous products.
- Also offers an alternative for storing and transportation of various products.
- Can resist pressure differences during autoclaving.
- Bags should be left open during autoclaving.
- Strong side seams stand safe under pressure or weight and guarantee safe holding of bag content.

catalogue number	bag type	width x height	pack quantity

BAG STAND
"adjustable height"

- Manufactured from stainless steel for use with the bags with catalogue no **039.30.001.**
- Ideal for disposal of small objects during daily use at laboratories.
- Due to it's compact size bag stand does not cover space on the laboratory bench.
- The height of the stand is adjustable with the help of adjusting screw.

BAGS - *"with wire closure" - "sterile"*

- Manufactured from clear and thick polyethylene to be used with chemical, medical, food, biological samples of liquid, powder, solid and paste form.
- With their exceptionally transparent, odour-tight, tear-proof and leakproof properties they offer alternative solutions to laboratory bottles and other flasks.
- Sterilized with gamma irradiation, **free of RNase, DNase, and pyrogene.** Can be frozen to -80°C.
- Unique metal closure system guarantees leak-proof closure preventing odors and any leakage to exterior enviroment.
- Write-on white patch offers a practical area for writing specific marks and notes.

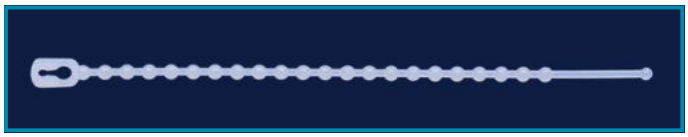

catalogue number	volume	width x height	wall thickness	wire thickness	packing specifications

lab consumables & labware

BAGS - *"homogenization" - "sterile"*

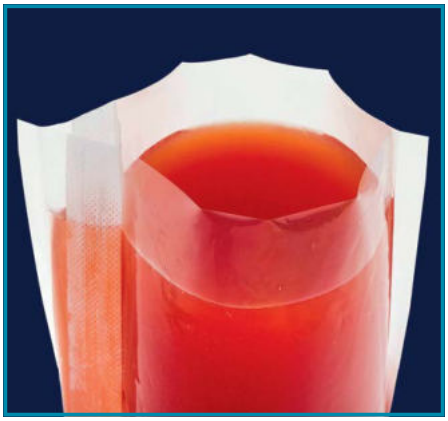

- Manufactured from polyethylene. Specially designed for fast and effective crushing of solid samples to the liquid phase.
- Sterilized with gamma irradiation, **free of RNase, DNase, and pyrogene.**
- Even at low temperatures they maintain the stability of the specimen's microbiological status.
- While working with infectious samples, bags can be sealed by any ordinary bag sealer to prevent the escape of aeresols.
- **Alternative 3 products:**
  - **Bag without filter**
  - **Bag with side filter**
  - **Bag with full filter**

bag with no filter

Bags without filter are generally used for standard and common practises.

bag with side (lateral) filter

Bags with side (lateral) filter divides the bag in 2 non-equal compartments. They are suitable for small samples such as PCR applications.

bag with full (page) surface filter

Bags with full (page) filter divides in 2 equal compartments. Solid sample remains in it's side, while the liquid phase moves to the other side.

ADAPTERS - *"PTFE" - "flexible"*

- Manufactured from chemicaly inert PTFE with excellent chemical resistance, high mechanical strength and high temperature resistance between -200°C to +260°C.
- Unique flexible body form guarantees 90° angular connections of NS joints and provides corrections of mis-alingment in glassware assemblies.
- Extra smooth interior finish guarantees high vacuum sealing performance without a need of any lubricant.

CHEMISTRY SET

➤ Set consists of 16 pieces various small size glassware with NS 14/23 joints.

➤ Allows multi micro experiments under vacuum or atmospheric pressure.

➤ Supplied in a sturdy plastic case featured with foam inserts. Foam inserts prevent breakage and allow organised storing of the contents.

➤ Product descriptions of the chemistry set are shown at below list.

catalogue number	pack quantity
067.30.001	1 piece

item photo code	product descriptions	pack quantity
1	filter funnel	1 piece

15	hexagonal stoppers	2 pieces
16	microscale chemistry case	1 piece

WATER ESTIMATOR

➤ Manufactured from borosilicate 3.3 for determination of water with xylol method.

➤ System consists of a 500 ml flask with NS 29/32 joint, a liebig condenser of 400 mm lenght and a measuring tube with PTFE stopcock.

catalogue number	pack quantity
065.70.001	1 piece

ARSENIC ESTIMATOR

➤ Manufactured from borosilicate 3.3 for determination of arsenic and antimony content.

➤ System consists of a 100 ml erlenmeyer with NS 29/32 joint and an absorption tube attached to erlenmeyer.

catalogue number	pack quantity
065.71.001	1 piece

CLIPS - *"for NS joints"*

- Manufactured from POM with excellent chemical resistance and high mechanical strength.
- With their flexible jaws, they guarantee absolute leak-proof, tight connection of two NS joints.

JOINT GREASE *"standard vacuum"*

- Ideal for lubricating and leak-proof sealing of all types of joints, metal and plastic connectors and stopcocks.
- Recommended to be used under standard vacuum conditions.
- Guarantees excellent chemical and temperature resistance between -40°C to +300°C.
- Non-solidifying during use. Easily washable due to water soluble characteristic.
- Best results can be achieved by application of a thin layer.
- Supplied in a tube of 30 gram lubricant weight.

catalogue number	grease color	pack quantity
063.17.001	clear	1 piece

JOINT GREASE *"high vacuum"*

- Ideal for lubricating and leak-proof sealing of all types of joints, metal and plastic connectors and stopcocks.
- Recommended to be used under high vacuum conditions.
- Guarantees excellent chemical and temperature resistance between -40°C to +320°C.
- Non-solidifying during use. Easily washable due to water soluble characteristic.
- Best results can be achieved by application of a thin layer.
- Supplied in a tube of 30 gram lubricant weight.

catalogue number	grease color	pack quantity
063.17.002	brown	1 piece

JOINT SLEEVES - *"PTFE"*

- Manufactured from chemicaly inert PTFE with excellent chemical resistance, high mechanical strength and high temperature resistance between -200°C to +260°C.
- Unique flexible body form guarantees leak-proof connections of NS joints with high vacuum performance.
- Extra smooth interior finish guarantees high vacuum sealing performance without a need of any lubricant.

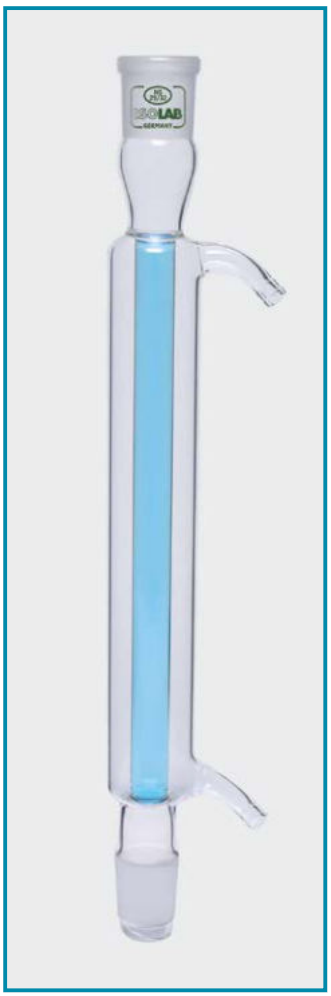

catalogue number	NS size	pack quantity

WATER STILLS - *"basic"*

- Offers space saving, and practical design with economical energy and water consumption. Supplies laboratory grade, distilled water free off pyrogen.
- Double walled interior chamber is manufactured from cavitation-proof, seamless, corrosion resistant stainless steel.
- Interior chamber should always be kept clean for consistent supply of pure water. Easily removable condenser unit enables fast and efficient cleaning of the chamber.
- Integrated low water protection system turns off heating in case lack of water. Integrated over temperature protection system turns off heating in case of a sudden increase of heat.
- Automatic circuit breakers ensure user safety in case of over temperature and over current problems.

PRE - FILTER

- Pre-filter system prevents undesired impurities and built-in large storage tank stores the produced water.
- Filter part in the pre-filter system should be controlled often and should be immediately replaced in case of dirt.

catalogue number	pack quantity
623.11.110	1 piece

ROTARY EVAPORATORS - *"vertical"*

- Featured with motorised quick-action lift that automatically raises the evaporation flask from the bath in case of any power failure.
- Chemical-resistant double PTFE system and patented pressure spring guarantees an excellent sealing during operation.
- Easy to read large digital LCD screen displays heating temperature, rotation speed, time and other parameters.
- Patented condenser design with 1.500 cm^2 effective cooling capacity guarantees excellent cooling effect.
- Unique motor action enabling selective rotation of the evaporation flask as clockwise or anti-clockwise movement guarantees effective results.
- Featured with an adjustable final position recognition system for protection of the glass parts from breakage.
- Timer function with time setting range 1 - 999 minute enables precise control of the operation.
- Supplied with a large, stainless steel 5 L water-oil bath with precise temperature control from ambient to 180°C.
- An automatic over-heat protection system automaticaly stops heating if the bath temperature exceeds 220°C.

Integrated operating panel for convenient control of the main unit and also the heating bath.

Unique design of the detachable operating panel enables remote control option and easy use of the panel outside the fume hood.

Featured with an adjustable final position recognition system for protection of the glass parts from breakage.Unique push-off device to release the flask and protect it from breaking.

Chemical-resistant double PTFE system and patented pressure spring guarantees an excellent sealing during operation.

Optimal interval operation offers dual action in clockwise and counter clockwise for the drying process.

PROTECTIVE COLLARS *"for filter flasks"*

- Manufactured from natural rubber with a special design that keeps the funnel and filtering flask always in center.
- These adapters also provide all-round protection reducing impact damages.
- Also clean seal is created between the flask rim and the funnel neck.

catalogue number	for flask volume	pack quantity

GASKETS - "natural rubber"

➤ Manufactured from natural rubber with conical body form. Designed to fit Buchner funnels and Gooch funnels.

➤ Can be used also reverse cleaning of filter crucibles and as a support to standard funnels.

➤ Conical body form guarantees perfect fitting of funnels, filter funnels and crucibles to the filter flask necks.

➤ Supplied as a set of 7 different size adapters which guarantee perfect fit to all filter funnel necks with different volume sizes.

catalogue number	pack quantity
040.06.001	1 set

CRUCIBLES - "gooch" - "porcelain" - "with perforated base"

➤ Manufactured from glazed porcelain with perforated bottom layer.

➤ The crucible body form guarantees perfect fit to "GUKO" adapters.

VACUUM MANIFOLDS - *"stainless steel"*

- Vacuum manifolds allow filtration of multiple samples either at once or independently by controlling the separate branch valves. Suitable to be used with 47/50 mm diameter membrane filters.
- Body and the funnels are manufactured from AISI 304 quality stainless steel to be used at food, beverage, pharmaceutical and water quality laboratories.
- The main body is featured with handles on both sides for easy hold and carriage.
- Stainless steel funnels has a volume capacity of 500 ml. They can be used for sample volumes from 50 ml up to 500 ml.
- Volume graduation inside walls of the funnels offer practical volume indication of the sample.
- Attachment and removal of the funnels can be easily achieved with the attached closure clamp.
- Closure clamps under each funnel once closed guarantee perfect and vacuum tight sealing.
- The stainless steel frit filter support ensures a uniform distribution of the residues.
- All parts of vacuum filter set are fully autoclavable. They can also flame sterilized except o-rings.
- Vacuum manifolds are supplied with a cap for each funnel.

Volume graduation inside walls of the funnels offer practical volume indication of the sample.

Closure clamps under each funnels once closed guarantee perfect and vacuum tight sealing.

The stainless steel frit filter supports 47/50 mm diameter ensures a uniform distribution.

distilation & filtration & separation & sample preparation

FILTER PAPERS - *"quantitative"*

- Quantitative papers are recommended for analytical and gravimetric analysis.
- Manufactured first from high quality 100% cellulose fibres. They are further treated with dilute acid to remove any remaining organic or inorganic impurities. As the last step they are washed and cleaned with demineralised water.
- They guarantee low ash content around less than 0,01% and around 95% alpha-cellulose amount.

FILTER PAPERS - *"qualitative"*

- Qualitative papers are recommended for routine separation work.
- They are manufactured from high quality 100% cellulose fibres for consistent filtration speed, loading capacity and wet strength.
- They guarantee low ash content around less than 0,1% and around 59% alpha-cellulose amount.

FORCEPS - *"for filter papers"*

- Manufactured from high quality, chemical and corrosion resistant AISI 304 grade stainless steel.
- Most commonly used forceps for placing and picking filter papers during filtering process.
- Robust and seamless construction guarantees long life cycle.
- Grid lines on the middle part enable safe and easy handling.

catalogue number	total length	pack quantity
048.04.001	120 mm	1 piece

PUMPS - *"vacuum & pressure"*

- Ideal pumps for all kinds of filtration applications and also for air sampling, suspended solid tests, vacuum distillation, gel drying, chromotography applications. Can be used simultaneously both as a vacuum pump and as a pressure pump for pressure supply.
- Piston driven, belt free motor does not need any oil or lubricant and offers continuous oil free pumping. Siliconised rubber feet holds the pumps on the bench surface.
- Unique design of the pump guarantees maintenance free and long life cycle with minimum noise level less than 50dB.
- Filter barrier in the air exchange compartment of the pump enables clean air cycling at all times. Vacuum and pressure indicator at model 622.12.001 shows operational vacuum and pressure values at all times.
- Thermal protection system for overheating guarantees automatic stop in case of over heat during process.

WATER JET PUMP *"polypropylene"*

- Manufactured from polypropylene for continuous filtering applications.
- Suitable to operate under 10 kg/cm² water pressure.
- Featured with a non-return valve that eliminates water back flow.
- Easily dismantled for effective cleaning.
- Can be used also as a simple vacuum pump.

catalogue number	pack quantity
040.10.001	1 piece

FLOW INDICATOR

- Manufactured for PMP for precise optical indication of the flow. Can resist to 2 bar pressure. Can be used with tubings of 6 to 11 mm internal diameter.
- For optimum performance the minimum flow rate of 50 ml/minute (vertically) and 140 ml / minute (horizontally) is required.
- Functions in both directions and can be mounted with any angle.

catalogue number	pack quantity
052.18.001	1 piece

NON-RETURN VALVE - *"polypropylene"*

- Manufactured from polypropylene for usage with tubing connections and vacuum systems.
- Prevents water back flow when the pressure declines. Useful for any tubing system and vacuum line.
- Max. safe working pressure at ambient temperature: 2,0 bar. Min. safe working pressure at ambient temperature: 0,07 bar.

CENTRIFUGE - *"mini"*

- Compact and easy to use personal centrifuge for quick spin downs, micro-filter cell separations, and HPLC samples.
- Durable transparent and UV resistant polycarbonate lid and ABS resin body.
- DC motor accelerates the rotor to the set speed with low vibration and also with a quiet operation less than 45 dB noise level.
- Starts and reaches a maximum speed of 7.000 rpm in seconds.
- Multi voltage design guarantees stable running and high accuracy of speed.
- Featured with a door interlock system for extra safety.
- For user safety electronic brake immediately stops when lid opens.
- Rotor is seated on a tapered shaft which enables tool-free, fast and easy exchange.
- Supplied with two rotors and adapters to accommodate 0,5 ml and 1,5 ml and 2 ml tubes and also PCR tubes.

6 cavity rotor designed for 1,5 & 2.0 ml tubes directly.

16 cavity rotor designed for 0,2 ml PCR tubes which can also hold 2 x 8 PCR strips.

Easy to start: *Close the lid, the rotor starts and instantly reaches 7.000 rpm.*

Easy to stop: *Open the lid, the electronical brake immediately stops the rotor.*

CENTRIFUGE - *"mini" - "high speed"*

- Ideal centrifuge for fast spins for higher RCF requirement, for PCR protocols, for microfilter cell seperations, clinical applications and HPLC protocols.
- Offers memory function up to 10 different programs.
- Featured with an explosion proof and fully enclosed strong inner structure for full safety.
- Brushless DC motor accelerates the rotor to the set speed with low vibration and also with a quiet operation less than 56 dB noise level.
- Air evacuation system ensures free air flow during high speed to prevent samples being over heated.
- User friendly large LCD display enables easy setting and reading of the functional parameters.
- Both RPM and RCF can be set and displayed. The parameters can be modified after the set speed is reached.
- Metal casing with low gravity, provides stable and reliable running at maximum speed.
- Starts and reaches the maximum speed of 15.000 rpm with max 15.100 RCF in seconds. Speed can be set with an accuracy of +/- 20 rpm.
- Timer can be set from 30 seconds to 99 minutes or continuous running. Timer starts once the target speed is reached for more accurate operation time.
- Offers quick spins by pressing and holding the "pulse" key.
- Multi voltage design guarantees stable running and high accuracy of speed.
- Featured with a dual door interlock system for twice safety. Electronic brake immediately stops when lid opens for user safety.
- Lid is released automatically when the rotor stops.
- Rotor is sealed on a tapered shaft which enables tool-free, fast and easy exchange.
- Supplied with a 12 cavity rotor designed for 1,5&2.0 ml tubes directly.

User friendly large LCD display enables easy setting and reading of the functional parameters. Both RPM and RCF can be set and displayed.

High strength plastic rotor with excellent balance offers a stable operation. 12 cavity rotor designed for 1,5 & 2.0 ml tubes directly.

CENTRIFUGE - *"clinical"*

- Ideal centrifuge for fast separation of serum, plasma, urea, blood samples and other routine applications in medical, research and chemical laboratories.
- Explosion proof and marked as CE, cTUVus, and FCC. MCA test according to IEC/EN61010-2-10.
- Brushless DC motor accelerates the rotor to the set speed with low vibration and also with a quiet operation less than 56 dB noise level.
- User friendly large LCD display enables easy setting and reading of the funtional parameters.
- Both RPM and RCF can be set and displayed. The parameters can be modified after the set speed is reached.
- Starts and reaches a maximum speed of 4.500 rpm with max 2.490 RCF in seconds. Speed can be set with an accuracy of +/- 20 rpm.
- Metal casing with low gravity, provides stable and reliable running at maximum speed.
- Timer can be set from 30 seconds to 99 minutes or continuous running. Timer starts once the target speed is reached for more accurate operation time.
- Short spin function is used for quick spins by pressing and holding the "pulse" key.
- Multi voltage design guarantees stable running and high accuracy of speed.
- Featured with a dual door interlock system for twice safety.
- Electronic brake immediately stops when lid opens for user safety. Lid is released automatically when the rotor stops.
- The unique design guarantees stable running and high accuracy of the speed. High strenght rotor and excellent balance technology guarantees a quiet and stable operation.
- Delivered complete with a 8 cavity angled rotor and suitable adaptors to be used with 15 ml conical tubes and all kinds of blood collection tubes.

High strength plastic rotor and excellent balance technology to quarantee a quiet and stable operation.

Delivered complete with a 8 cavity angled rotor and suitable adaptors to be used with 15 ml conical tubes and all kinds of blood collection tubes.

User friendly large LCD display offers easy identification of parameters and shows all informations including accumulated running time and last running parameters.

Both RPM or G-force can be set and displayed. Parameters can be modified after the set speed is achieved.

LABORATORY BRUSH
"natural fibre / perlon"

- Excellent tools for washing and cleaning of all type of laboratory bottles, flasks, tubes, condensers, burettes etc.
- Brush material is manufactured from highest quality of fibre/perlon for long life cycle.
- Brush stem is manufactured from twisted steel wire.
- Brush handle is manufactured from polypropylene and offers extreme easy handling and use of the brush.
- Unique handle design enables hanging of the brush to a convenient place for easy reach.
- Spherical sponge top part enables access to every corner of the labware and guarantees perfect cleaning results.

Spherical sponge top part enables access to every corner of the labware and guarantees perfect cleaning results.

LABORATORY BRUSH
"hinged & swivel head"

- Specially recommended for curved and cornered shaped labware such as round bottom flasks.
- Uniquely designed convex swiveling brush head gets contact with all over the surface of the flask including difficult curves and corners and enables thorough cleaning.
- The brush head has a slightly convex shape for fast and effective cleaning even also at heavy soiled flasks.
- Strong yet flexible bristles provide long lasting trouble free life cycle. Good grip due to the solid and long wooden handle.
- The swivel brush part fits through NS 29/32 or larger or any non tapered neck with a diameter 24 mm or larger.
- 360 mm length brush handle offers easy touch of the bottoms of larger size flasks.

catalogue number	swivel head size	handle length	pack quantity
071.03.001	21x44x24 mm	360 mm	1 piece

LABORATORY BRUSH - *"non - absorbant foam"*

➤ Manufactured from non-absorbant reinforced foam which will not absorb water and not become soggy even after multiple use. ➤ Essentially much longer lasting than other common brushes. ➤ Cleans laboratory glassware with minimum effort and maximum efficiency. ➤ Will not chip, break or scratch laboratory glassware, can also be safety used on plastic labware. ➤ Ergonomically designed wide handles enable easy rotating of brush.

LABORATORY BRUSH - *"flexible"*

➤ Specially recommended for labware with narrow neck and wider base such as flasks, erlenmeyers, bottles etc.

➤ Feautured with a flexible body which perfectly adapts to the base and interior wall shape of the vessel to be cleaned.

➤ Offers perfect cleaning also for large size labwares with it's total lenght 370 mm and brush diameter 20 mm.

catalogue number	pack quantity
071.05.001	1 piece

LABORATORY BRUSH - *"round head"*

➤ Specially recommended for all labware with cylindrical form such as cylinders, beakers, vertical tanks and other similar flasks.

➤ Guarantees perfect cleaning with it's sprerical cleaning brush part that touches every surface and corner of labware's interior.

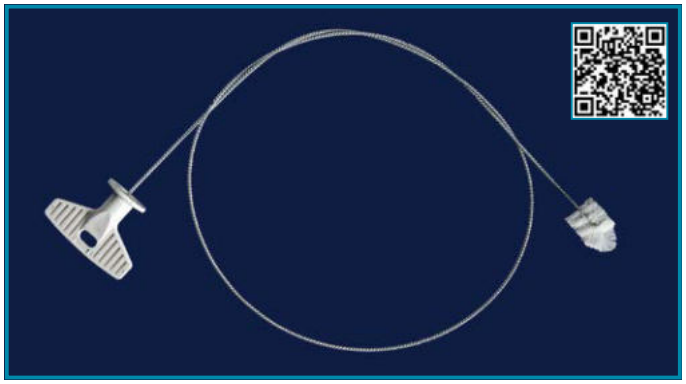

catalogue number	brush size	brush diameter	total length	pack quantity
071.05.002	short	60 mm	350 mm	1 piece
071.05.003	long	70 mm	400 mm	1 piece

LABORATORY BRUSH - *"for tubings"*

➤ Specially recommended for hoses, tubings with diameter from 12 mm to 25 mm.

➤ Perfectly adapts to the rounding of the tube and flexible long handle enables even the round labware can be cleaned effectively.

catalogue number	brush diameter	total length	pack quantity
071.05.005	20 mm	1200 mm	1 piece

LABORATORY BRUSH - *"for tubes"*

➤ Specially recommended for tubes due to the unique design which fits to all tube sizes from the smallest to the largest diameter.

➤ Consists of two parallel cleaning brush rods hold be a single head. The rods can be pulled and moved to sides.

➤ This feature enables the contact of the brush all over the interior surface of different tubes with different diameters.

➤ This tube brush with it's unique features guarantees fast and very effective cleaning of all tubes with different size and lenght.

Draining racks are supplied without packs pegs. Pegs should be ordered separately.

DRAINING RACK

➤ These proffessional draining racks cover all the cleaning demands of a modern laboratory.

➤ Manufactured from water resistant, sturdy polyresin thick plate for life time usage.

➤ **Alternative 2 racks:**

- **Medium size rack with 72 peg compartments**
- **Large size rack with 122 peg compartments**

➤ The collecting tray at the bottom part collects the drained water and dispens with the help of a hose supplied as a standard to the rack.

➤ Supplied complete with wall mounting kit, draining hose and fixing template.

➤ Draining racks are supplied with 16 small and 16 large pegs. Please kindly order for more pegs seperately.

The collecting tray at the bottom part collects the drained water and dispens by a hose supplied as a standard to the rack.

AUTOCLAVE - *"vertical"*

- This easy to use, desktop, vertical autoclave offers practical solutions for sterilization.
- Safe, reliable and complete sterilization is guaranteed by immersion type electrical heating elements with high thermal efficiency.
- Sterilization chamber is manufactured from single piece stainless steel of 2,5 mm thickness.
- "Over-temperature" and "over-pressure" systems ensures highest safety level during operation run cycle.
- Silicone sealing ring guarantees excellent and safe closure and prevents steam leakage offering always clean and dry environment.
- Featured with a LED screen electronic timer enabling the time control between 1 - 99 minutes.
- Operative pressure clearly visible and controllable by a pressure gauge. Also featured with buzzer type alarm function for low water level.

"Over-temperature" and "over-pressure" systems ensures highest safety level during operation cycle.

TEST INDICATOR - *"for steam sterilization"*

- Specially designed for steam sterilisation tests. Consist of a rolled paper with temperaure sensitive stripes on the surface.
- These stripes changes color once the ambient temperature reaches steam sterilisation temperature level.
- Irreversible color change from pale yellow to dark brown proves that the sterilisation protocols has been successfully covered.
- Adhesive at the back of the rolled paper strongly adheres to paper, plastic and textile surfaces yet easily removable without leaving any trace.
- Slightly crepped paper surface allows easy marking by any kind of pen.

ULTRASONIC CLEANER DETERGENT

- Higly effective special cleaner for cleaning items in ultrasonic baths intensively.
- Removes distillation deposits, tars, grease, resins, adhesives, fats, oils, metal oxides, mineral dirt and similar soiling without leaving traces only with consumption of less than 2 % of the tank volume.
- Supports ultrasonic cleaning process, ideal for washing operations which are normally too difficult for ultrasonics alone.
- Extremely gentle on ware with almost neutral pH value. Fully water soluble, low-foaming, low phosphate content, non-combustible, no gas formation, non-toxic, biodegradable.
- Although can be used cold water, using in hot water intensifies and accelerates the cleaning effect.

069.04.660	with 4,9 % phosphate buffer neutralisation solution	1 piece

069.05.660 / empty bottle without solution / 1 piece

Eye wash bottle provides a soft, broad and excellent, effective spray with a single action.

Snap-on cap covers the spray head in a hygienic way and guarantees perfect protection of inside.

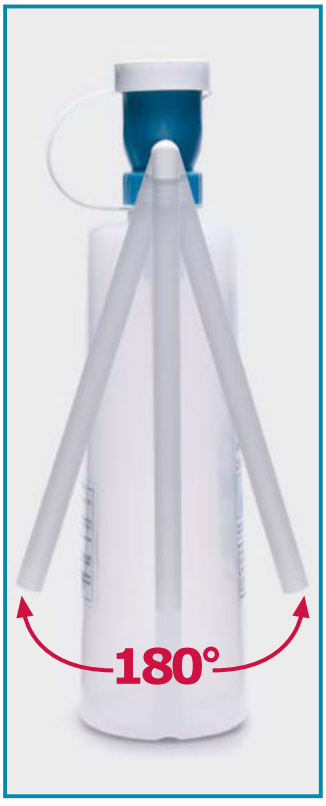

Bottle can be used also even when the injured person is lying down with the help of a sliding valve.

The spray head has a perforated plate to break up the stream providing a gentle spray to the eye.

The spray head fits securely around the eye socket to hold eyelid in an open position during application.

Contaminated used solution exits through a drain tube which rotates in any direction with 180 degree.

EYE WASH BOTTLES - *"compact size"*

- Manufactured as a personal eye wash bottle for emergency use.
- Ideal size for persons being frequently present in different risky working areas.
- Compact size with 175 ml volume capacity offers easy carry in a jacket pocket.
- The spray head fits securely around the eye socket to hold eyelid in an open position during application.
- Eye wash bottle provides a soft, broad and effective spray with a single action.
- The spray head has a perforated plate to break up the stream providing a gentle spray to the eye.
- A capped air vent valve prevents drawback of the contaminated eye wash back to the reservoir.
- Snap-on cap covers the spray head in a hygienic way and guarantees perfect protection of inside from dust and other environmental effects.
- Contaminated used solution exits through a drain tube which rotates in any direction.

- **Alternative 2 bottles:**
  - **Eye wash bottle filled with sterile saline rinsing solution**
  - **Eye wash bottle filled with sterile neutralisation solution**

catalogue number	solution descriptions	pack quantity
069.03.175	with 0,9 % saline rinsing solution	1 piece
069.04.175	with 4,9 % phosphate buffer neutralisation solution	1 piece

069.05.175 / empty bottle without solution / 1 piece

Compact size offers easy carry in a jacket pocket.

sterile saline rinsing solution

- Sterile saline rinsing solution contains 0,9% sodium chloride. Helpful in rinsing away dust, debris and other harmful irritants.
- Does not involve any side effects since the pH value is similar to that of human tears.
- Prevents the foreign bodies from sticking into the eye and causing serious harm.
- Does not contain pathogens that could cause infection, and will not damage eye or skin tissue during prolonged flushing.

sterile neutralisation solution

- When acids and alkalis contact the eyes or skin damage can start immediately.
- pH neutralising solution contains a sterile 4,9% phosphate buffer solution.
- Helpful in rinsing and neutralisation of acids and alkalis and other chemical contaminants to a harmless level in a very short time period.
- It is recommended to rinse the eye with saline solution after treatment with pH neutralisation solution.

BOTTLE STAND - *"for eye wash bottle"*

- For keeping eye wash bottles always "ready-for-use" stage.
- Keeps the bottle stable at his nest and guarantees easy and fast access to the bottle.
- Featured with a mirror and "how-to-use" instructions printed on the body.
- User looks directly into a mirror during rinsing.
- Supplied with necessary screw set for mounting on the wall.

catalogue number	pack quantity
069.05.001	1 piece

User looks directly into a mirror during rinsing. Focusing on the mirror with the eye lid open helps overcome the blinking reflex.

GLOVES - *"nitrile" - "0,06 mm standard thickness"*

- Manufactured pure nitrile free from phthalate softeners and latex proteins which cause allergy to the skin.
- Provides a standard thickness of 0,06 mm which is recommended for daily laboratory use.
- Classified as CE category 1. Tested an accordance with EN420:2003 standard.
- Provided with AQL 1,5 offering the highest level of protection according to EN374-2:2003 against penetration of microorganisms.
- 40 % more stronger and 60 % leaner than latex gloves.
- Provides full protection against wide range of chemicals including cylotoxic drugs.
- Easy to wear. Unique production techniques offer excellent mechanical strength providing multi-use options.
- Excellent fit to the hands guarantees maximum comfort.
- Slightly textured finger parts guarantee excellent grip option.

how to measure the right glove size?

- You have to select the right size of glove for your hands for your comfort.
- How you will select the right size of your glove? Measure the circumference of your dominant hand just below the fingers excluding the thumb. Compare the measurement to the size chart below to find your glove size.

XS	S	M	L	XL	XXL
(6" - 7")	(7" - 8")	(8" - 9")	(9" - 10")	(10" - 11")	(11" - 12")

GLOVES - *"for safe handling"*

- Manufactured from light weight 100 % cotton for multi-use. Unique design provides both left and right handed use.
- Easy to wear. Soft and flexible texture offers full comfort during use. Thick yet stretchable. Protects the sensitive skin.
- Makes unlined gloves easier to pull or to wear. Also prevents from moderate levels of cold and heat. They are machine washable.

catalogue number	total length	pack quantity
080.13.001	260 mm	1 pair

GLOVES - *"for cold protection"*

- Economical and practical glove specially designed to work in cold environments.
- Recommended to be used in cold treatment plants, handling dry ice, working with coolents.
- Offers full protection very against even cold temperatures such as -140°C.
- Easy to wear. Soft and flexible texture offers full comfort during use. Thick yet stretchable. Protects the sensitive skin.
- The outer part of the glove is covered with a heat repellent leather. While the inner part is featured with soft and flexible protective textile.
- Even working at very low temperatures with extended hours it still remains flexible.

catalogue number	total length	pack quantity
080.10.201	450 mm	1 pair

GLOVES - *"for cold protection"*

- Specially designed to work in hazardous ultra-cold enviroments. Recommended to be used in cold treatment plants, handling dry ice, working with coolents. Not immersion in liquid nitrogen.
- Multi-layer construction provides light weight and full comfort during use. State-of-art material is breathable and stays always comfortable and dry.
- Offers full protection against even very cold temperatures such as -160°C. The innovative design offers superior thermal protection and maximum level of flexibility.
- Even working at very low temperatures with extended hours it still remains flexible.

catalogue number	glove length	pack quantity
080.10.101	450 mm	1 pair

GLOVES - *"for heat protection"*

- Manufactured from soft, flexible, heat resistant pliant terry cotton material.
- Easy to wear. Soft and flexible texture offers full comfort.
- The upper part is covered with a heat repellent material. While the palm part is manufactured from heat resistant soft and flexible leather.
- Offers maximum isolation and protection up to for limited time 250°C when working with autoclaves and muffle furnaces.
- Guarantees a long life cycle since they can be machine washable.

catalogue number	total length	pack quantity
080.11.001	380 mm	1 pair

GLOVES - *"nitrile" - "for chemical protection"*

- Manufactured from pure nitrile free from phthalate softeners and latex proteins.
- Classified as CE category III they can be used both at laboratories and industry.
- Offers excellent protection against alcohols, oils, greases, and hydrocarbons.
- Provide superior mechanical resistance against abration and perforation.
- Excellent fit and flexible texture offers full dexterity and comfort during use.
- Cotton flock liner inside the glove absorbs moisture and prevents sweating during use.
- Slightly textured fingers and palm guarantees excellent grip.

080.53.021	100 pieces

PROTECTOR SUITS - 5/6

- Manufactured from high density antistatic polyethylene, providing an ideal balance of protection, durability and comfort.
- Offers chemical protection according to category III (type 5 & 6). Also offers an excellent barrier against fine particles down to 1 micron size.
- Protective suit with overall design perfectly suitable for clean room areas.
- Also practical use at pharmaceutical handling and many others.
- Guarantees air permeability and prevents sweating during use. Repels water based liquids and aeresols.
- Optimised body fit provides excellent wearer comfort. Featured with hood compatible with filtering face masks.
- Featured with rubber fasteners at wrist and around face.
- Closure is provided by auto-lock zipper with flap for increased protection.
- Light weight. Easy to wear. Flexible texture offers full comfort during use.

DESK PROTECTOR - *"paper"*

➤ A practical desk protector offering full protection of desks against spilled solutions. Quickly absorbs liquids and keep spills from spreading. Absorbs up to 750 ml/m² Their thick protective layer eliminates the risk of glass breakage in case tilt over.

➤ **Thick and very absorbent paper layer soaks the spilled liquids and protects the laboratory desks.**

➤ **Consists of 2 layers:**

➤ **Flexible, water-proof polyethylene layer prevents the spilled liquid penetration to the laboratory desk.**

➤ Supplied as a roll of 50 meters length with 46 cm width.

catalogue number	*pack quantity*
080.66.001	*1 piece*

CHEMICAL PADS

➤ Due to their microfibre structure they provide excellent absorbtion capacity. Consists of 8 layer highly absorbant fibers which altogether "imprisons" the liquids and never returns back.

➤ Quickly absorbs the spills of all kinds of liquids including water based liquids, solvents, alcohols, acids and alkalis and stores them absorbed. The absorbed liquid can be extracted to be used again or to be disposed of separately.

DUST MASK - *"FFP-1"*

- Offers protection against non-toxic harmful solid and liquid in concentrations up to 4 x OEL or 4 x APF.
- Specially recommended for calcium carbonate, china clay, cement, cellulose, cotton, sulfur, ferrous metals and foods.
- Convex design, aluminium nosepiece and adjustable fitting straps guarantee excellent fit to different face shapes.
- Light weight provides strain and fatigue free use even with extended hours.
- Inner and external layers of the mask manufactured from soft microfiber.

catalogue number	pack quantity
080.41.001	10 pieces

DUST MASK - *"FFP-2"*

- Offers protection against low-to-average toxic solids, liquids and smoke up to 12x OEL or 10 x APF.
- Addition to FFP-1 protection limits also offers protection against glass wool, mineral oils, most bacterias and fungi.
- Convex design, aluminium nosepiece and adjustable fitting straps guarantee excellent fit to different face shapes.
- Exhalation valve significantly minimise warm and humid airflow into the mask.
- Other thecnical properties are same with "FFP-1" dusk mask.

059.03.003	*1 piece*

Featured with a wireless measurement transmitter that can be used up to 60 meters (free field) to the thermometer body.

THERMOMETER - *"max. & min." - "humidity"*

- Suitable both for out-door or in-door applications. Weather resistant, robust housing is featured with an inclined shelter for further protection.
- Can measure and display in-door temperature and humidity plus out-door temperature.

Offers 3 parameters

- **In-door temperature**
- **Out-door temperature**
- **%RH humidity**

- Can also records and shows the maximum and minimum values of temperature and humidity selectively.
- Offers a in-door temperature measuring range from -10°C (+14°F) to +50°C (+122°F) with a precision of +/- 1°C (+/- 2°F)
- Offers a out-door temperature measuring range from -50°C (-58°F) to +70°C (+ 158°F) with a precision of +/- 1°C (+/- 2°F)
- Offers a in-door humidity measuring range from 20% RH to 99% RH with a precision of +/- 5% RH.
- Featured with push buttons switchs for °C or °F selection and maximum or minimum temperature.
- Can be hanged on walls or can stand on a bench.

density & sedimentation & temperature & time & pH & weight measurement

STOPWATCH - *"mechanical"*

- This classical stopwatch with mechanical winding system can be used even in extreme conditions.
- Provides time counting up to 30 minutes with 0,2 second resolution.
- Chrome plated sturdy housing provides resistance to sudden impacts and guarantees long life cycle.

catalogue number	diameter	pack quantity
055.01.001	50 mm	1 piece

STOPWATCH - *"electronic"*

- Electronic stopwatch offers counting up to 59 minutes, 59 seconds with 0,01 second resolution.
- Offers long life cycle and easy use with it's water resistant sturdy plastic housing and light weight.
- **3 functions:**
  - **As a time recorder**
  - **As a chronometer**
  - **As a 24 hour timer with alarm function.**

catalogue number	dimensions	pack quantity
055.02.001	63 x 76 x 20 mm	1 piece

TIMER - *"mechanical"*

- Mechanical timer counts up to 60 minutes with 1 minute resolution.
- No need for batteries. Just winding will be enough to start the time counting.
- A clear bell ring signals at the end of the preset time. Can be interrupted during work and reset any time.
- Can be used on bench top or also can be hanged to any smooth surface.

catalogue number	dimensions	pack quantity
056.01.001	60 x 60 x 34 mm	1 piece

TIMER - *"mechanical"*

- Mechanical timer counts up to 60 minutes with 1 minute resolution. Does not require batteries. Just winding will be enough to start the counting.
- A clear bell ring signals at the end of the preset time. Can be interrupted during work and reset any time.

catalogue number	dimensions	pack quantity
055.03.001	93 x 75 x 59 mm	1 piece

TIMER - *"mechanical"*

- Mechanical timer counts up to 60 minutes with 1 minute resolution. A large screen with 150 mm diameter provides easy reading option from relatively long distances.
- Featured with a red marked area for remaining time for long distance observation.
- Can be used on bench top or also can be hanged to any smooth surface.

catalogue number	pack quantity
055.04.001	1 piece

TIMER - *"electronic"*

- Electronic timer counts up to 19 hours, 59 minutes with a 4 digit display for extended hours. Also featured with count-down function.
- A clear bell ring signals at the end of the preset time.
- A large LCD screen with 32 x 12 mm dimensions provides easy reading option from relatively long distances.
- The folding stand at the back housing offers a convenient angle for easy reading. Also featured with a clip at the back side.

catalogue number	timer dimensions	screen dimensions	pack quantity
056.03.001	53 x 62 x 12 mm	32 x 12 mm	1 piece

TIMER - *"electronic"*

- Electronic timer counts up to 59 minutes, 59 seconds with a 4 digit display. Also featured with count-down function.
- A clear bell ring signals at the end of the preset time.
- A large LCD screen with 50 x 26 mm dimensions provides easy reading option from relatively long distances.
- The folding stand at the back housing offers a convenient angle for easy reading of the results. A clip at the back side of the watch enables easy wall mounting.

catalogue number	timer dimensions	screen dimensions	pack quantity
056.02.001	69 x 69 x 15 mm	50 x 26 mm	1 piece

TIMER - *"electronic"*

- Electronic timer counts down with selected intervals of 10 seconds / 1 minute / 5 minute and 10 minute.
- A clear visual and audial signal flashes at the end of the selected time.
- LCD screen with 30 x 80 mm dimensions provides easy reading option from relatively long distances.
- The folding stand at the back housing offers a convenient angle for easy reading.
- A clip at the back side of the watch enables easy wall mounting. Can be hanged on metal surfaces with the two magnets provided at the back.

catalogue number	timer dimensions	screen dimensions	pack quantity
056.04.001	70 x 90 mm	30 x 80 mm	1 piece

density & sedimentation & temperature & time & pH & weight measurement

METER - "portable" - "pH & mV & temperature measurement"

- Offers an economical solution for measuring pH & mV and temperature. Simple to calibrate by one keyboard.
- Easy to replace electrode. The new electrode will be recognised automatically and shown at the display.
- Ergonomic, lightwight and waterproof (which can even float on water) housing enables perfect outdoor practice.
- Measured values are shown by a microprocessor based large LCD display.
- Stores maximum and minimum measured values in memory.
- Offers a switchable temperature selection of °C or °F.
- Featured with a low battery and energy consumption indicator.
- Automatic switch-off function closes the circuit after 10 minutes of non use.
- Supplied in a carring case, with instruction manual and calibration standard set.

Meters are supplied in a sturdy carry case complete with hand held stripe, pH buffer solutions, cleaning solution, instruction manuel and other standard accesories.

catalogue no: 616.01.001	pH	mV	Temp
range	-2.00 / 16.00 pH	-1000 / 1000	0 / 90°C
accuracy	± 0.01+1 digit	± 2 + 1 digit	±0.2 + 1 digit
resolution	0.01 pH	1 mv	0.1°C
compensation	0 / 90°C		

METER - "portable" - "pH & mV & temperature & conductivity & TDS & salt measurement"

Supplied with a protective cap

All measurements except mV are done by single electrode.

- Featured with automatic temperature compensation (ATC) . Offers a switchable temperature selection of °C or °F.
- Easy to replace electrode. The new electrode will be recognised automatically and shown at the display.
- Featured with a low battery and energy consumption indicator.
- Automatic switch-off function closes the circuit after 10 minutes of non use.
- Supplied in a carring case, with instruction manual and calibration standard set.

- Offers an economical solution for measuring pH & mV & temperature. & conductivity & TDS & salt with one single electrode.
- Ergonomic, lightwight and waterproof (which can even float on water) housing enables perfect outdoor practice.
- Simple to calibrate by one keyboard. Memory function stores and recalls different measurements.
- Microprocessor based large LCD displays show the measured values and the temperature simultaneously. For mV measurement 616.02.102 shold be used.

Meters are supplied in a sturdy carry case complete with hand held stripe, pH buffer solutions, cleaning solution, instruction manuel and other standard accesories.

catalogue no: 616.02.002	pH	mV	Temp	Conductivity	TDS	Salt
range	-2.00 / 16.00 pH	-1999 / 2000	0 / 110°C	0 / 199.9 µs 2.00 / 100.00 ms	0 / 131.9 ppm 1.30 / 13.19 ppt	0 / 99.9 ppm 10 / 50.00 ppt

density & sedimentation & temperature & time & pH & weight measurement

METERS - *"table top"*

- Featured with microprocessor based design and rugged housing with splash proof keyboard.
- Microprocessor based large LCD display enables fast and accurate measurements.
- Automatic calibration enables fast measuring cycles.
- Easy replacement of electrode and the type of the electrode would be recognised automatically and shown on the display during insertion.
- Can measure and display (depending on model) pH & mV & temperature & conductivity & TDS & salt & dissolved oxygen in seconds.
- The large backlight LCD displays pH or mV or conductivity or TDS or salt or dissolved oxygen and temperature simultaneously.
- Offers a switchable temperature selection of °C or °F.
- Featured with an automatic temperature compensation (ATC).
- Stores maximum and minimum measured values in memory. Memory function can keep and recall up to 150 data.
- ORP probe is optional. **Cat. No. 616.11.109**.

Table top meters have a special platform with a magnetic stirrer which enables fast and accurate measurements and results.

Membrane keypad with large backlight LCD displays pH or mV or conductivity or TDS or salt or dissolved oxygen and temperature simultaneously.

pH BUFFER SOLUTIONS

- Ready to use pH buffer solutions with color coding, accuracy +/- 0,01 pH at 20°C. Traceable to NIST, packed in unique designed, practical twin-neck dosing bottles!

- **Unique and innovative design of the "twin neck" dosing bottles offers multiple advantages:**

- No need for a separate measuring container during calibration.

- No waste of buffer since exact and correct quantity of buffer is dispensed into the calibrating chamber at all times.

- Ideally suited for field work and easy to carry.

Operation is simple, fast and easy;

- Open safety lock of the integrated calibration chamber.

- Fill calibration chamber from buffer resorvoir by pressing the bottle gently.

- Calibrate pH electrode then discard used buffer solution. Bottle is now ready for the following use.

catalogue number	pH range	color	volume	pack quantity

LITHMUS PAPERS - *"red & blue"*

- Lithmus papers are the simplest and easiest way to measure pH values where no precise pH value is required. They are usefull for determining whether a solution is acidic or basic.
- The red lithmus paper has a pH measurement range 5,0 pH to 8,0 pH. The color changes from red → blue
- The blue lithmus paper has a pH measurement range 8,0 pH to 5,0 pH. The color changes from blue → red
- Packed as a booklet of 20 papers. 10 booklets are packed in a polystyrene box for for easy dispensing.

catalogue number	paper type	pack quantity
101.01.001	red	10 booklets
101.01.002	blue	10 booklets

pH PAPER - *"universal" - "roll"*

- Most commonly used pH papers for a wide field of application of pH measurement. They can measure pH values between 1,0 pH to 14,0 pH with 1 pH intervals.
- They provide easy pH measurement of solutions by using single color change.
- After the measurement, the pH value can be found by matching the color on the paper with the reference color chart printed at the back side of the box.
- Supplied in a box roll of 6 mm width and 5 meters length.

catalogue number	pack quantity
101.02.002	1 box

pH INDICATOR STRIPS

- They provide precise pH measurement of solutions by using single color change.
- pH measurement pads with different colors are chemically bounded to a cellulose fiber stick.
- This effectively protects the sample against contamination and enables measurements even in weakly buffered of strongly alkaline solutions.
- Fingers are protected from the test solution since the test pads are located at the extreme end of the strips.
- Since the pads do not bleed, pad colors do not interfere and mix with each other after the test and ensures reliable pH mesurement.
- After the measurement, the pH value can be found by matching the colors on the pads with the reference color chart printed at the back side of the box.
- 100 pieces strip is packed in a clear polystrene box for hygienic storage and for easy dispensing.

Isolab brand	M. Nagel brand	pH measuring range	pH graduation	strip width	strip length	pack quantity	box quantity
101.02.001	101.02.003	0,0 - 14,0 pH	1,0 pH	6 mm	80 mm	100 strips	1000 strips

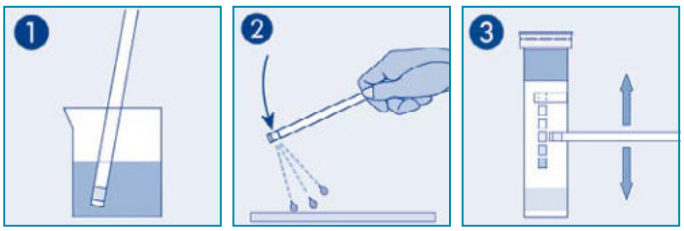

TEST STRIPS - *"PEHANON"*

- Test strip for pH measurement which unifies the pH-indicator with the reference pH color chart on the same strip.
- pH values can be determined without a separate color chart. They provide precise pH measurement of solutions by using single color change.
- The user can be sure to get accurate pH values at all times.
- Fast measurement results are guaranteed since they do not require an addition step of matching the pad color with a reference color scale.
- The handle will remain dry and clean by the invisible hydrophobic barrier.
- 200 pieces strip is packed in a clear polystrene box for hygenic storage and for easy dispensing.

Isolab brand	M. Nagel brand	pH measuring range	pH graduation	strip width	strip length	pack quantity	box quantity
101.14.003	101.04.003	3,8 - 5,5 pH	0,2 / 0,3 pH	6 mm	80 mm	200 strips	2000 strips

QUANTOFIX TEST STRIPS - *"peroxide"*

- A very special "ready-to-use" test strip with semi-quantitative nature for various measurements.
- Can be considered as ready to use kits that give precise results 10 - 120 seconds after use. Precise graduations guarantees reliable test results.
- The color chart is adjusted by certified standard solutions which are directly traceble to NIST standards.
- For reliable test results and longevity of the strip closing the cap after removing the strip is recommended.
- The desiccant in the stopper also effectively protects the strip against moisture.
- 100 pieces strip are packed in a box for hygienic storage and for easy dispensing.

Dip the test strip in sample as far as the arrow for one second. *Shake off excess liquid and place the strip on a horizontal surface.* *Read the result by comparing the test field with the color scale.*

Isolab brand	M. Nagel brand	product name	product type	graduation	strip width	strip length	pack quantity	box quantity
101.13.003	101.03.003	QUANTOFIX	PEROXIDE 100	0 - 1 - 3 - 10 - 30 - 100 mg/L H_2O_2	6 mm	95 mm	100 strips	1000 strips

TEST STRIPS - *"for water hardness"*

- In dialysis hard water can damage the delicate osmosis units.
- For this reason accurate and quick testing of water hardness is very important
- "Diaquant" test strips are specially designed for reliable and accurate low-range water hardness tests of rinse and feed water specially at dialysis enviroment.
- All water hardness tests are done simple and fast without any mixing.
- The easy dip & read procedure provides a reliable result in 10 seconds.
- After the test color changes from white to pink.
- Packed in a box of 50 strips of 6 mm width and 95 mm length.

Isolab brand	M. Nagel brand	graduation	pack quantity
101.13.005	101.03.005	0 - 5 - 10 - 20 ppm $CaCO_3$	50 pieces

AQUADUR TEST STRIPS

- A special "ready-to-use" test strip for determination of water hardness.
- Clear color changes from green to red guarantees reliable test results.
- Can precisely determine water hardness in a liquid very precisely from very soft water to very hard water.
- Since the color change is very clear and sharp with green / red indication they do not require any reference color scale for matching.
- The hardness of the water depends on its content of calcium and magnesium salts and expressed in terms of ppm (mg/l) CaCO3.
- Packed in a box of 100 strips of 6 mm width and 95 mm length.

Isolab brand	M. Nagel brand	graduation	pack quantity
101.13.004	101.03.004	<3->5->10->15->20->25 °d	100 strips

WEIGHING DISHES - *"P.S"*

- Manufactured from polystyrene for many applications such as weighing, dispensing and storing.
- Anti-static property of the raw material eliminates the static built-up. Specially recommended for weighing fine powders.
- They can also be used as freeze and mixing trays for small batches and also during microwave moisture analysis.
- Guarantees chemical and temperature resistance between -10°C to +70°C.
- Flat bottom ensures perfect stability on counters while smooth and non-porous inner surface provides accurate pour outs with minimal sample loss.

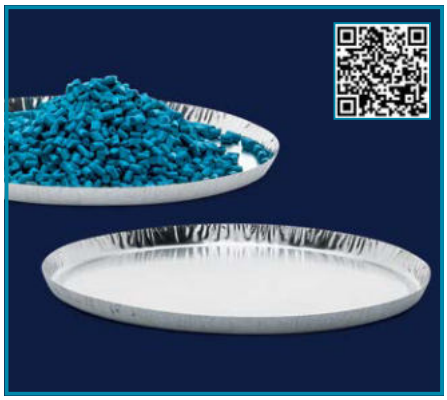

Non-sterile dishes are packed as 100 pieces. Sterile dishes are packed as 10 pieces.

With a slight pressure to the sides weighing dishes can easily be coverted into a pouring funnel for easy and non-spill transfer of samples.

WEIGHING DISHES *"aluminum"*

- Manufactured from high grade, oil free, durable and light gauge aluminium.
- Unique design guarantees excellent use with moisture determination balances.
- Can also be used as a mixing or weighing pan.
- Wall with 6 mm height guarantees spill-free application.
- Easily stackable due to the tapered body form for reducing storage space.

catalogue number	Ø x H (mm)	pack quantity
037.25.100	100x6	50 pieces

WEIGHING DISHES *"aluminum"*

- Manufactured from high grade, oil free, durable and light gauge aluminium. Featured with compressed walls for extra stability.
- Designed to be used as weighing dishes, evaporating dishes or drying dishes.
- Featured with a handle which enables easy holding of the dish. Can also be used as a marking surface.
- Easily stackable due to the tapered body form for reducing storage space.

catalogue number	Ø x H (mm)	pack quantity

DENSITY BOTTLES - *"non - calibrated & calibrated"*

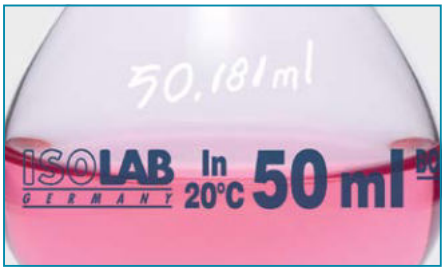

➤ All density bottles are manufactured according to ISO 3507 standard. For easy differentiation both the body and the stopper carries the same identification code number.

➤ They are supplied with a stopper with excellently polished upper and lower ends. Nominal volume and inscriptions are printed with blue enamel.

➤ **Non-calibrated density bottles** are supplied without calibration.
➤ **Calibrated density bottles** are calibrated together with the stopper with a precision of 0,001 ml. Net volume is engraved on the body.

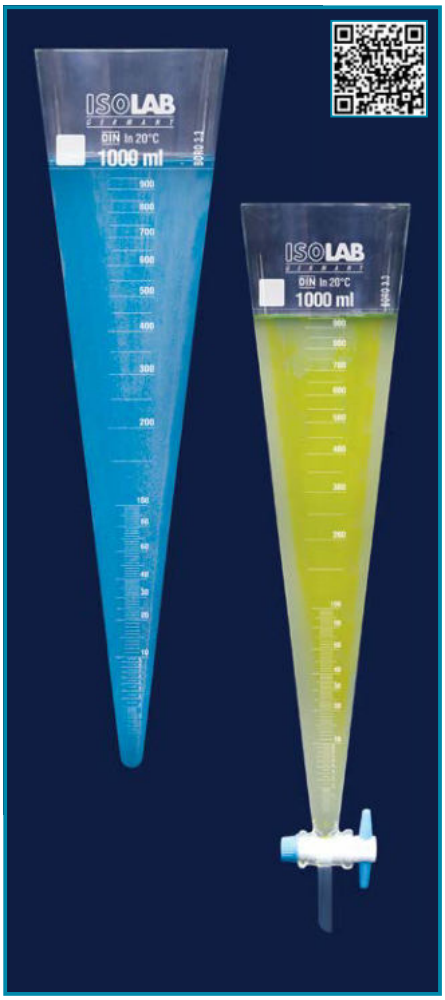

➤ **Calibrated density bottles** with thermometer are calibrated together with the stopper with a precision of 0,001 ml. Net volume is engraved on the body. Supplied with a thermometer of scale range +10°C to +40°C, with scale 0,5°C.

Net volume with 0,001 ml presicion is engraved on the body of calibrated density bottles.

stirring & mixing shaking & heating cooling

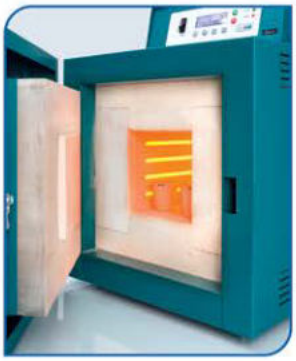

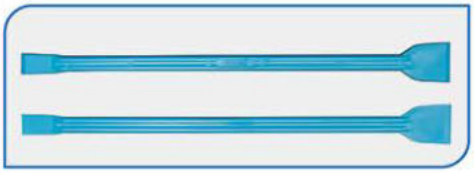

MAGNETIC STIRRER - *"with hot plate"*

catalogue no	613.06.001
dimensions	215x360x112 mm
weight	5,3 kg
plate size	184 x 184 mm
top plate	glass ceramic
motor type	DC motor
power	1050 W
voltage	100 - 240 V
frequency	50 / 60 Hz
capacity	20 L
range	100 - 1500 rpm
display	LCD
output	1000 W
range	room temp - 550°C
accuracy	±1 % > 100°C
safety temp.	580°C
warning	50°C
accesories	sensor PT 1000

- Featured with an explosion proof brushless DC motor with low noise level offers a stirring volume up to 20 lt.
- Ceramic top plate guarantees perfect chemical resistance against acids.
- Integrated the heater provides excellent heat transfer rate and quick heat up.
- Aluminium alloy housing protects all components from aggressive effects and guarantees safety with a long life time.
- Electronic speed control from 100 to 1500 rpm provides a precise stirring.
- LCD panel for display for set & actual temperature and set & actual speed.
- Guarantees excellent heating control from ambient temperature to 550°C.
- Overheat protection circuit turns off the heater if the top plate temperature reaches 580°C for any reason. LCD display will show "HOT" if hotplate temperature is over 50°C.
- Supplied complete with PT1000 temperature sensor, support rod and fixing clamp.

MAGNETIC STIRRER - *"with hot plate"*

catalogue no	613.01.001
dimensions	268x160x86 mm
weight	1,8 kg
plate size	Ø135
top plate	stainless steel
motor type	DC motor
power	630 W
voltage	100 - 240 V
frequency	50 / 60 Hz
capacity	3 L
range	100 - 1500 rpm
display	LED
output	600 W
range	room temp - 280°C
accuracy	±0.1°C
safety temp.	50 - 320°C
warning	50°C
accesories	sensor PT 1000

- Featured with an brushless DC motor with low noise level offers a stirring volume up to 3 lt.
- Ceramic top plate guarantees perfect chemical resistance against acids.
- Integrated the heater provides excellent heat transfer rate and quick heat up.
- ABS housing protects all components from aggressive effects and guarantees safety with a long life time.
- Electronic speed control from 100 to 1500 rpm provides a precise stirring.
- LED panel for display for set & actual temperature and set & actual speed.
- Guarantees excellent heating control from ambient temperature to 280°C.
- Overheat protection circuit turns off the heater if the top plate temperature reaches 320°C for any reason.
- Supplied complete with PT1000 temperature sensor.
- Please kindly order support rod separately **Cat. No 613.01.102**

MAGNETIC STIRRER - *"without hot plate"*

catalogue no	613.03.001
dimensions	150x260x80 mm
weight	1,8 kg
plate size	Ø135
motor type	DC motor
power	15 W
voltage	220 V
frequency	50 / 60 Hz
capacity	3 L
range	100 - 1500 rpm
display	LED

- Maintenance free DC motor with low noise level offers a stirring volume up to 3 lt with a smooth start and quick stop.
- Electronic speed control from 100 to 1500 rpm provides a gentle revolution and precise stirring speed even at maximum speed range.
- Large LED panel offers simultaneous display for set & actual speed.
- ABS housing protects all mechanical and electronic components from aggressive effects and guarantees safety with a long life time.
- Also provides impact resistant, easily cleanable, scratch-proof surface.

MAGNETIC STIRRER - *"without hot plate"*

catalogue no	613.05.001
dimensions	150x145x50 mm
weight	0,3 kg
plate size	Ø120
motor type	DC motor
power	7,2 W
voltage	220 V
frequency	50 / 60 Hz
capacity	1,5 L
range	300 - 2000 rpm
display	N / A

- This light weight, compact designed magnetic stirrer is specially recommended for titration applications.
- Electronic speed control from 300 to 2.000 rpm provides precise stirring speed even at maximum speed range.
- DC motor offers a stirring volume up to 1,5 lt with a smooth start and quick stop.
- PET housing protects components from aggressive effects.
- Anti-slip silicone feet pads minimize vibration and guarantee excellent stability.
- Featured with an adjustable clamp holder suitable to hold electrodes and other probes.

MAGNETIC STIRRER - *"without hot plate"*

catalogue no	613.07.001
dimensions	115x175x12 mm
weight	0,35 kg
plate size	Ø100
motor type	Magnetic motor
power	5 W
voltage	220 V
frequency	50 / 60 Hz
capacity	0,8 L
range	15 - 1500 rpm
display	N / A

- This ultra-flat, compact designed magnetic stirrer with only 350 gr weight can be carried even in a pocket.
- Specially recommended for titration applications. Offers a stirring volume up to 0,8 lt with a smooth start and quick stop.
- Electronic speed control from 15 to 1500 rpm provides precise stirring speed even at maximum speed range.
- Featured with automatic reverse rotation function for more efficient mixing.
- ABS housing protects all components from aggressive effects.
- Also provides impact resistant, easily cleanable, scratch-proof surface.

MAGNETIC STIRRING BARS
"cylindirical"

- Manufactured from ALNICO (an alloy of aluminium, nickel, iron and cobalt) magnets encapsulated with PTFE coating.
- Cylindrical magnetic stirring bars offer for a wide variety of applications providing excellent mixing effect.
- Polished finish provides excellent centering and smooth uninterupted stirring.
- Their perfect contacts with the base of the flask reduce the risk of ricochet during stirring.

catalogue number	length	diameter	pack quantity

MAGNETIC STIRRING BARS
"oval - elliptical"

- Manufactured from ALNICO (an alloy of aluminium, nickel, iron and cobalt) magnets encapsulated with PTFE coating.
- These elliptic magnetic stirrer bars provide excellent mixing effect specially when used with round bottom flasks.
- Their egg shapes guarantee unrestricted spinning and effective mixing by perfect adaptation of the vessel contour.

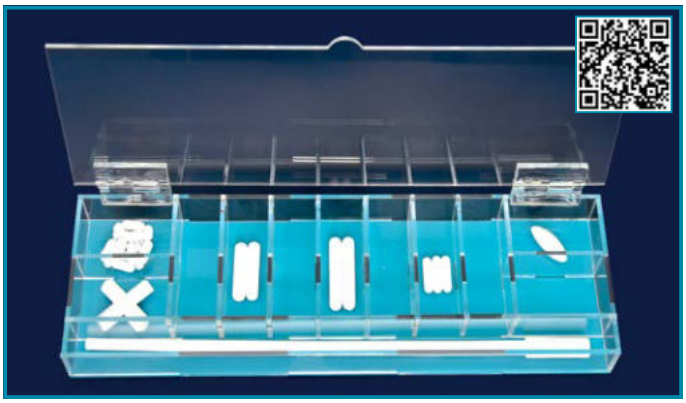

catalogue number	length	diameter	pack quantity
057.05.020	20 mm	8 mm	1 piece
057.05.025	25 mm	10 mm	1 piece

057.05.040	40 mm	15 mm	1 piece

MAGNETIC STIRRING BARS
"cross form"

- Manufactured from ALNICO (an alloy of aluminium, nickel, iron and cobalt) magnets encapsulated with PTFE coating.
- Cross formed magnetic stirring bar creates a deep vortex even at relatively slow speeds and provides an excellent mixing.
- Their angled body forms reduce the friction effect during stirring and provide excellent centering and smooth uninterupted stirring.
- Their perfect contacts with the base of the flask reduce the risk of ricochet during stirring.

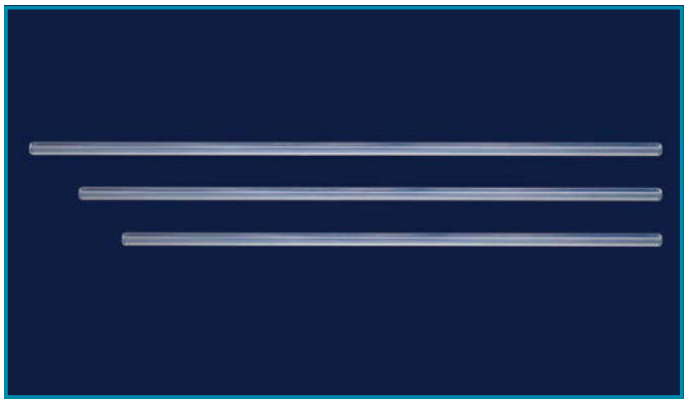

catalogue number	dimensions	pack quantity
057.06.037	37 x 37 mm	1 piece

BOX - *"with compartments" - "acrylic"*

- Manufactured from acrylic featured with different size compartments. Offers practical positioning and easy reach of different size small objects such as magnetic stirrers.
- The long compartment is ideal to store longer objects including magnetic bar retrievers. Featured with a lid protecting the box interior from enviromental conditions.

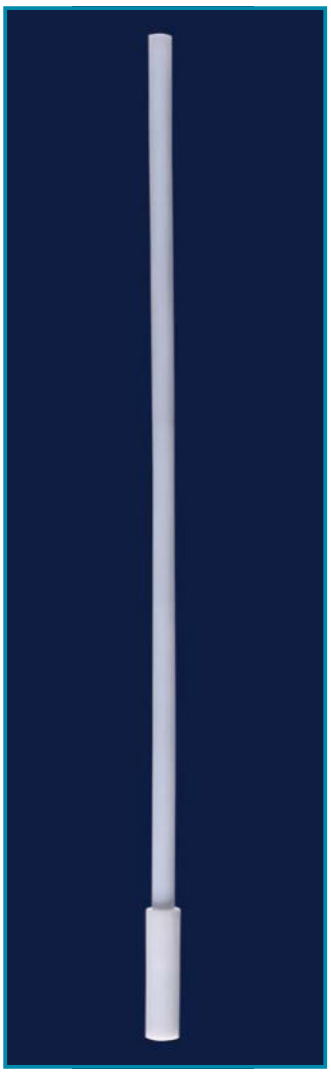

catalogue number	box width	box length	box height	compartment quantity	pack quantity
057.02.101	330 mm	110 mm	35 mm	12	1 piece

STIRRING ROD - *"glass"*

- Glass rods are manufactured from rods with different diameters and lengths.
- Their flame polished ends prevents unexpected breakage during applications. They offer practical solutions for mixing and stirring solutions by hand.

glass stirring rod	length	diameter	pack quantity
057.03.200	200 mm	5 mm	10 pieces
057.03.250	250 mm	6 mm	10 pieces
057.03.300	300 mm	6 mm	10 pieces

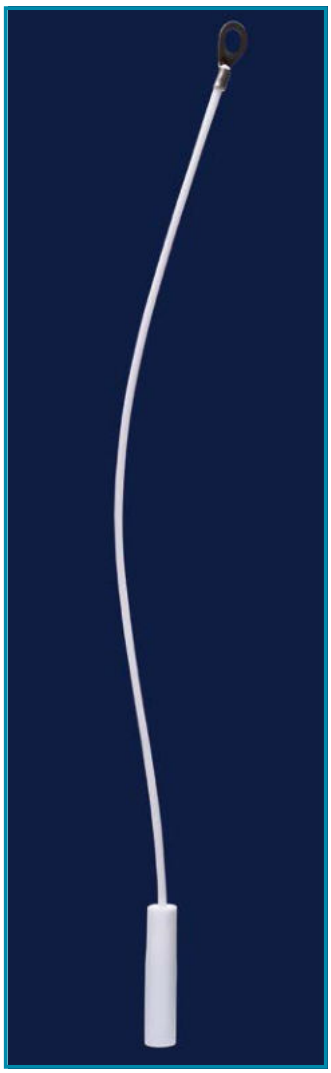

MAGNETIC BAR RETRIEVERS

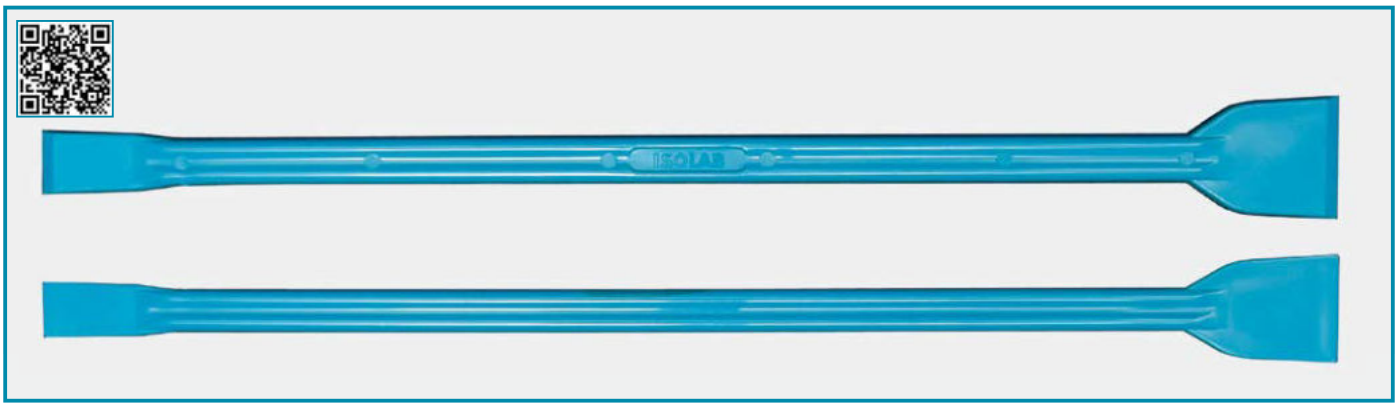

- Constructed with a PTFE encapsulated powerful magnet at the end of a long stem.
- Essential tool for picking up the magnetic stirring bars from flasks after use without loosing them.
- They offer risk-free removal of magnetic stirring bars even from agressive liquids and reduce the risk of magnetic bar loss.
- **Alternative 2 retrievers:**
  - **With solid stem**
  - **With flexible stem**
- Magnetic bar retriever with flexible stem guarantees easy reach to the edges of the cornered flasks such as erlenmeyers.

catalogue number	retriever model	stem length	pack quantity
057.02.001	solid stem	270 mm	1 piece
057.02.002	flexible stem	300 mm	1 piece

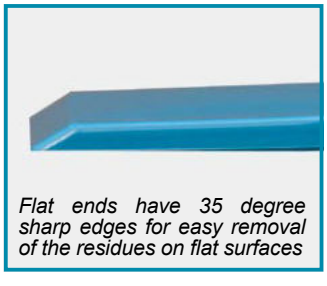

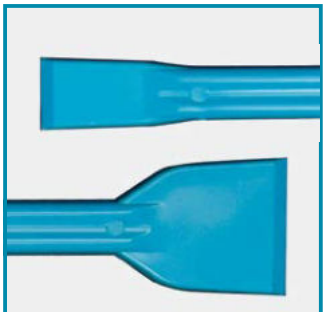

STIRRING ROD - *"polypropylene"*

- Manufactured from polypropylene with a flattened ends for effective mixing.
- Offers practical solutions for mixing and stirring solutions both for narrow and wide neck flasks.
- Featured with two flat ends with different widths on a single handle.
- Flat ends have 35 degree sharp edges for easy removal of the residues on flat surfaces.

catalogue number	total length	narrow end width	large end width	pack quantity
057.04.251	240 mm	12 mm	23 mm	10 pieces

Flat ends have 35 degree sharp edges for easy removal of the residues on flat surfaces

Two ends with different widths for narrow and wide neck flasks.

MECHANICAL STIRRER - "light duty"

catalogue no	615.01.001
dimensions	83x220x186 mm
weight	2,6 kg
motor type	DC motor
power	70 W
voltage	100 - 240 V
frequency	50 / 60 Hz
capacity	20 L
range	0 - 2200 rpm
display	LED
resolution	± 1 rpm
max. torque	40 Ncm
max. viscosity	10000 mPas
chuck dia.	0,5 - 10 mm

- Highly reliable design for stirring low to medium viscous media with a vibration free and silent operation.
- Maintenance free, silent and explotion proof DC motor offers a stirring volume up to 20 lt with a smooth start without sample overflow and a quick stop.
- Sturdy aluminium main body efficiently absorbs and emits the heat generated by the motor.
- Electronic speed control from 0 to 2200 rpm provides a gentle revolution and precise stirring speed even at high temperatures.
- Large LED panel for simultaneous display for set & actual speed.
- Overload safety feature automatically stops the operation and protects all mechanical and electronic components.
- Stirring shafts can be easily inserted to their position by "push through" system.
- Stirring shaft, stand and fixing clamp are not supplied as a standard accesory. These should be ordered separately.

accesories for mechanical stirrer - "stand & bosshead"

Bosshead manufactured from steel with opening distance of 0 - 20 mm.

Sturdy construction specially enables holding heavy objects such as stirrers.
Catalogue No: 615.01.012

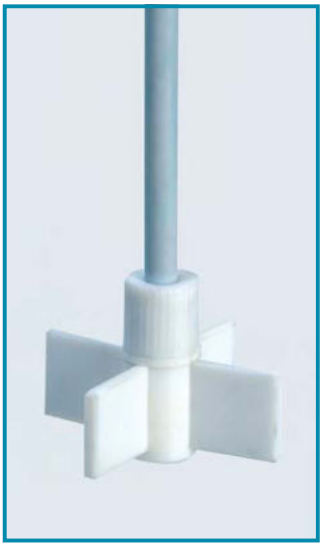

Stirrer stand is made from powder coated cast steel.

Unique base design offers very stable holding of the assembled stirrer and also possibility of getting close to the stand rod.

Supplied complete with 14 mm diameter stainless steel support rod.
Catalogue No: 049.09.250

accesories for mechanical stirrer - "stirring shafts"

catalogue number	shaft type	shaft dia. & length	shaft material	recommended for
615.01.101	cross	9,0 x 400 mm	st. steel	medium & high speed
615.01.103	cross	8,5 x 350 mm	PTFE	medium & high speed

HOMOGENIZER - *"light duty"*

catalogue no	621.11.001
dimensions	45x55x230 mm
weight	0,6 kg
motor type	carbon brush
power	160 W
voltage	220 V
frequency	50 Hz
range	8000 - 30000 rpm
control	6 stage
max. viscosity	5000 mPas
working volume	0,1 - 50 ml with shaft 621.11.050
working volume	1 - 250 ml with shaft 621.11.250

- Practical solution if mixing, emulsification, shredding or chopping is required for small samples.
- High torque motor with a variable speed adjustment enables rapid and effective disruption of a wide range of samples.
- Speed control as 8.000, 12.000, 15.000, 18.000, 22.000, 30.000 rpm.
- Different rotors and stators enables adaptation to most applications.
- Can homogenize samples inrange 0,1 ml to 50 ml or 1 ml - 250 ml of liquid depending on the rotor/stator type.
- Maximum speed of 30.000 rpm rate reduces processing time significantly.
- Complete homogenization of samples is usually achieved in a few seconds.
- Smooth motor drive makes working very safe and comfortable.
- Smooth acceleration also prevents unnecessary spills. An overload protection feature increases the life span of the motor.

Light duty homogenizer is supplied without bosshead, clamp, stand and rotor/stator set.

Bosshead manufactured from steel with opening distance of 0 - 20 mm.
cat. no: 615.01.012

Stirrer stand is made from powder coated cast steel.

Unique base design offers very stable holding of the assembled stirrer and also possibility of getting close to the stand rod.

Supplied complete with 12 mm diameter st. steel support rod.
cat. no: 049.09.180

Bosshead clamp is specially suitable to hold light duty homogenizer.
cat. no: 621.11.103

"shafts" & "rotors" and "stators"

- **Shafts, rotors, stators are not supplied as a standard accesory. These should be ordered separately.**
- Assambly and disassemly of rotors can be done without requirement of special tools.
- Shafts, rotors and stators are constructed of quality AISI 316 stainless steel which is inert to agressive solutions

For liquid / solid media
working volume: 0,1 - 50 ml
621.11.050

For liquid / solid media
working volume: 1 - 250 ml
621.11.250

stirring & mixing & shaking & heating & cooling

WATER BATHS

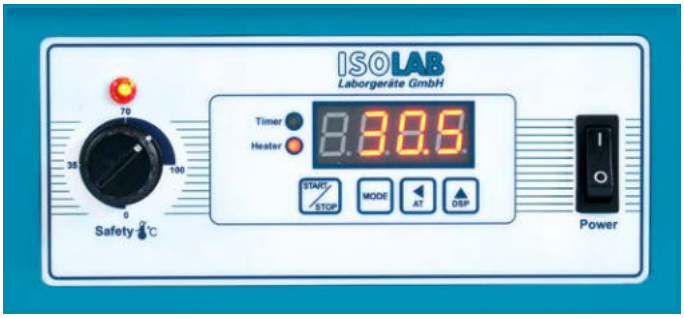

- Water tank is manufactured from cavitation-proof, seamless and corrosion resistant stainless steel.
- Alarm and timer functions can be automatically controlled by membrane keypad with digital LED panel.
- Integrated heater design provides homogenous heat distribution rate and enables rapid heating up.
- Integrated PID temperature technology enables excellent heating control from ambient +5°C to 99°C with accuracy of +/- 0,1°C.
- Integrated overheat protection with alarm circuit automatically turns off heating in case of overheating.
- Automatic timer with audial and visual alarm functions enables selective operation as “continuous” mode or 99 minutes and 99 hours.
- Perforated bottom tray protects heating element and temperature sensor.
- Delivered complete with flat type stainless steel lid.

Seamless, robust cavitation-proof, stainless steel water tank. Perforated bottom tray protects heating element and temperature sensor. Baths are supplied with a stainless steel flat lid.

Membrane keypad with digital LED panel with timer, alarm and auto-tuning functions. Timer with delayed on/off function can be set selectively either to 99 min. 59 sec. or 99 hour 59 min.

WATER CONDITIONER

- Higly effective special softener for water baths.
- Extremely gentle on ware with almost neutral pH value.
- Fully water soluble, low-foaming, low phosphate content, non-combustible, no gas formation, non-aggressive, biodegradable.
- Recommended 2 ml added to each 1 lt exchanged water.

catalogue number	pack quantity
602.01.101	500 ml bottle

Recommended 5 ml added to 1 liter new changed fresh water.

HEATING MANTLES - *"without stirrer"*

- Designed heating and boiling liquids in various size of round bottom flasks from 100 ml to 10.000 ml.
- Time proportional heater control with excellent repeatability enables a temperature operating range to 450°C.
- Heating element is made of highly flexible heat-resistant glass yarn which performs a maximum temperature of 900°C.
- Flexible heating element absorbs chocks, minimizing the risk of flask breakage and guarantees uniform heat distribution.
- Outer casting is manufactured from easy to clean powder coated steel.
- Glass fibre outer insulation with excellent ventilation slots keeps the outer casing cool at all times.
- Featured with non-skid rubber feet enabling perfect stability during operation.
- Control panel has separate indicator lamps for power and heat functions.

Heating element is made of highly flexible heat-resistant glass yarn which performs at maximum temperature of 900°C.

HEATING MANTLES - *"with stirrer"*

- Designed to control both heating power and stirring speed independently.
- Time proportional heater control with excellent repeatability enables a temperature control to 450°C.
- Heating element is made of highly flexible heat-resistant glass yarn which performs a maximum temperature of 900°C.
- Flexible heating element absorbs chocks, minimizing the risk of flask breakage and guarantees uniform heat distribution.
- Provides a stirring speed up to 1.400 rpm with an integrated magnetic stirrer.
- For effective stirring, place the correct model and size of magnetic stirrer into the flask and increase the stirring speed slowly from minimum level.
- Outer casting is manufactured from easy to clean powder coated steel.
- Glass fibre outer insulation with excellent ventilation slots keeps the outer casing cool at all times.
- Featured with non-skid rubber feet enabling perfect stability during operation.
- Control panel has separate indicator lamps for heating and stirring functions.

VORTEX MIXER - *"advanced"*

catalogue no	622.01.001
dimensions	127x130x160 mm
weight	3 kg
power	60 W
voltage	220 V
frequency	50 / 60 Hz
motion	orbital
motion dia.	4 mm
run time	continuous / touch
range	0 - 2500 rpm
display	scale

- Offers touch and continuous orbital mixing. Provides mixing with adjustable speed control from 0 to 3000 rpm.
- Guarantees perfect mixing of a 50 ml tube in 3 seconds.
- Unique counter-balance system creates maximum vortex power.
- Aluminium cast and silicone feet pads minimize the vibration avoiding "walking".
- Reliable and extremely quiet motor guarantees an even distributed mixing.
- Can be used both in cold rooms, incubators and anaerobic and aerobic chambers due to the small foot print and extremely compact design.

motion	orbital
motion dia.	5 mm
run time	continuous / touch
range	0 - 3000 rpm
display	LED

- Offers touch and continuous orbital mixing.
- Provides efficient mixing with infinitely adjustable electronic speed control from 0 to 3000 rpm.
- Operation time can be set and controlled electronically between 1 second to 100 minutes. User friendly large LED displays enable easy setting and reading of speed and time.
- Guarantees perfect mixing of a 50 ml tube in 5 seconds with 6 mm diameter orbital movement.
- Other thecnical specifications are same as 622.01.001.

VORTEX MIXER - *"basic"*

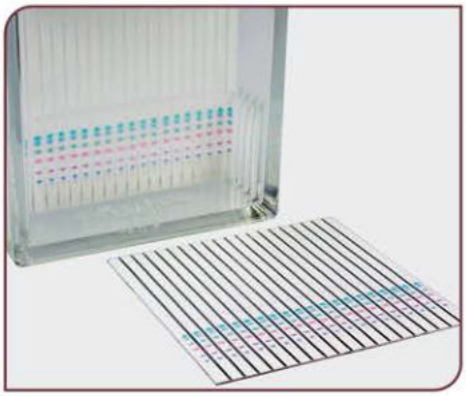

catalogue no	622.02.001
dimensions	100 mm dia. x 78 mm
weight	0,55 kg
power	12 W
voltage	100 - 240 V
frequency	50 / 60 Hz
motion	orbital
motion dia.	5.5 mm
run time	continuous / touch
range	3000 rpm
display	N/A

- Offers perfect orbital vortex mixing with a single touch. Provides efficient mixing with fixed speed of 3000 rpm.
- Guarantees perfect mixing of a 50 ml tube in 3 seconds with 5.5 mm diameter orbital movement.
- Unique counter-balance system creates maximum vortexing while minimizing the noise and vibration.
- Reliable and extremely quiet motor guarantees an even distributed mixing.
- Can be used in limited areas due to the small foot print and extremely compact design.

ISOLAB Laborgeräte GmbH

DIN EN ISO CERTIFIED 9001

chromatography & spectroscopy

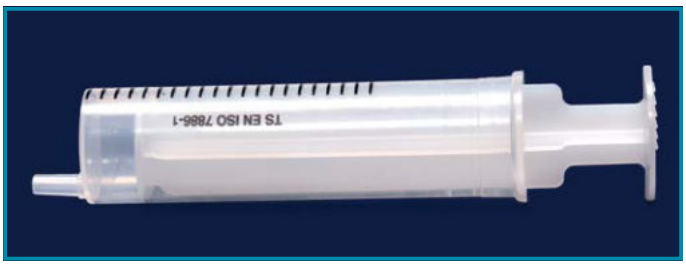

SYRINGE FILTERS - *"non-sterile" - "sterile"*

- Specially designed for HPLC sample preperations with the best quality tear proven membranes. Fully autoclavable.
- Since the housing is ultrasonically sealed they offer excellent pressure stability.
- Sample distribution rings of the body direct samples for uniform filtration with a guarantee of high flow rate and filtration speed on both directions restricting the liquid overload.
- Unique female luer-lock secures connections with syringes. Body design enables to be used with all robotic machines.
- Membrane type and porosity printed on each filter. Different colour coded sealing rings in MN enable easy differentiation of the membrane type.
- **Available 2 filters:**
  - **Syringe filters with 0,45 µm pore size**
  - **Syringe filters with 0,22 µm pore size**

SYRINGES - *"polypropylene" - "sterile"*

- 2 pieces syringes are suitable for HPLC applications. Sterile, pyrogen-free and for single use, latex and silicone oil free.
- Consists of very clear, highly transparent and absolutely leak-tight polypropylene barrel and polyethylene piston.
- Ergonomically designed for single-handed operation. Featured with accurate graduated scale marking.
- Smooth piston movement offers reduced sliding force.
- Defined position at "0" volume level to feel when piston is completely inserted.
- Defined safety stop to avoid accidental pull-out of plunger and loss of sample.
- Supplied with syringe needles. Packed in individual blister packing.

MEMBRANE FILTERS

➤ Membrane filtration offer a very convenient, fast and economical separation method.

They offer below mentioned advantages;

- ✓ Excellent level of particle retention
- ✓ Large load carry capacity
- ✓ High permeability to air
- ✓ Non-hygroscopic and biologically inert
- ✓ Chemical resistance to most solvents and reagents.
- ✓ Very high temperature resistance

CM: cellulose mixed ester membrane
Particularly suitable for aqueous solutions. They are hydrophilic. Thermally stable to 121°C. Ideal for gravimetric analysis and are often used for contamination tests.

PTFE: polytetrafluoroethylene membranes
Particularly suitable with aggressive media, as well as to concentrated acids and bases. They are hydrophobic, they can be used up to 145°C.

NC: nitrocellulose membranes
They are easily wettable and suited for filtration of aqueous solutions. In dry atmosphere these membranes are thermally stable at 125°C and can be autoclaved at 121°C.

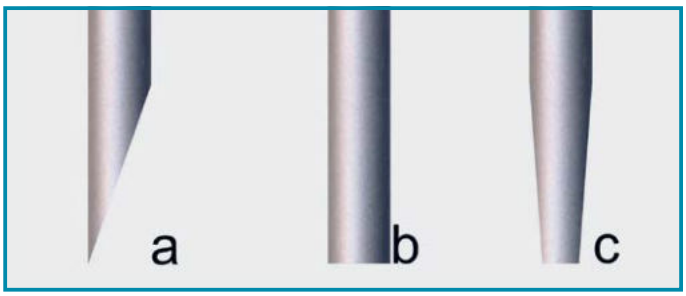

PE: polyester membranes
They are hydrophilic. Particularly suitable for fine titration, dust analysis, aerosol analysis and ultra-purification of solvents.

GF/C: glass fibre filter
Suitable for determination of liquid scintillation counting and total suspended solids collection in potable water and in industrial waste. Grade 50C glass fibre filters are hydrophilic and medium / fast, very high loading. They resist temperatures up to 500°C.

RC: regenerated cellulose membranes
These membranes are resistant to most organic solvents. They are mostly used for filtration of solvent mixtures and ultra-purification and degassing of HPLC eluents.

CA: cellulose acetate membranes
They have a low protein binding capacity and they are suited for aqueous and alcoholic media. They are hydrophobic and can be used for hot gases up to 180°C.

"A" type needles are designed for optimum penetration with 17° bevel. Also minimizes the necessary piercing force and diameter of injection channel.

"B" type needles has a 90° bevel for precise pipetting. This design relases drops completely, for maximum repreducibility. Ideal for HPLC sample injection.

"C" type needles are designed for autosamplers. The tapered tip and the 90° square end eliminate burns. Ideal for PTFE laminated seals and regular septas.

CHROMATOGRAPHY VIALS & SEPTAS & CAPS

In chromatography a wide variety of vials are used as sample containers. As they are mainly used by automatic instruments strict obedience of all dimensions is essential for trouble-free tests. Besides of these physical properties the vials have to fulfill requirements regarding inertness and cleanliness.

chromatography vials

✔ Vials are either manufactured from glass or plastic. Glass vials are manufactured from 1st hydrolic glass tubings with low expansion coefficient.

✔ Hydrolic glass quality offers perfect resistance to all chemicals and higher hydrolic resistance.

✔ Plastic vials are manufactured from polypropylene with a very good resistance to most of the chemicals and high hydrolic resistance.

vial cap without slit *vial cap with slit*

septas & caps

✔ Sealing units for vials are combination of caps and septas. Caps can be offered either with slit or without slit.

✔ For problem-free and correct results seals should also be inert and uncontaminated.

✔ Almost all septa are laminated on one side with PTFE, which has a high chemical resistance and forms an inert barrier between the sample in the vial and the cap of the septa.

vial packing

✔ Some vials (specially small size ones such as N8, N9 and N11) are packed in a polystyrene boxes.

✔ This kind of packing provides guarantees protection against dust and other enviromental effects.

✔ The glass clear polystyrene box makes the vials always clearly visible at all times.

cap packing

✔ Caps are usually packed in tamper-proof evident zip-locked bags.

✔ These bags allow easy identification of the content due to the transparent P.E material.

✔ The zip-lock enables resealing of the bag after used.

VIALS - "glass" - "screw cap" - "N8"

- Manufactured from hydrolic No:1 glass. Supplied without caps & septas.
- Offers perfect shape, very low dimensional tolerance and exact wall thickness for optimum performance.
- Featured with volume graduations and marking area.

catalogue number	vial dimensions	volume	color	pack quantity

CAPS & SEPTAS - "for N20 crimp vials"

➤ Offer optimum system performance. Designed to work excellently with needles. All of them are specially sized for proper sealings.

➤ Packed in tamper-proof evident, transparent, zip-locked bags that allow easy identification.

catalogue number	product specifications	pack quantity
096.03.001	silicone / PTFE - without slit	100 pieces

VIALS - "glass" - "screw cap" - "N24"

➤ Manufactured from hydrolic No:1 glass. Supplied without caps & septas.

➤ Offers perfect shape, very low dimensional tolerance and exact wall thickness for optimum performance.

catalogue number	vial dimensions	volume	color	pack quantity
095.03.011	27,5 x 95,0 mm	40,0 ml	clear	100 pieces
095.03.012	27,5 x 95,0 mm	40,0 ml	amber	100 pieces

CAPS & SEPTAS - "for N24 vials"

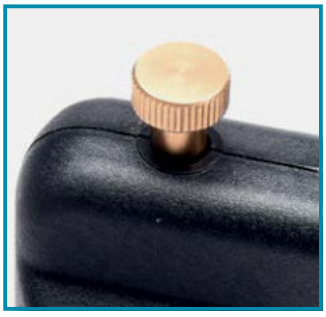

➤ Designed to work excellently with needles. Specially sized for proper sealings. Packed in tamper-proof evident, transparent, zip-locked bags that allow easy identification of interior.

catalogue number	product specifications	pack quantity
096.05.011	silicone / PTFE - without hole	100 pieces
096.05.012	silicone / PTFE - with hole	100 pieces

Offers adjustable crimping pressure by an easily accessible and well visible knob on the crimping head.

CRIMPERS & DECAPPERS - "manual"

➤ Manual crimpers and decappers are much lighter than the standard alternatives. They never create fatigue after long extended working periods.

➤ Ergonomical design offers improved comfort over blocky metal grips.

➤ Offers adjustable crimping pressure by a easily accessible and well visible knob on the crimping head.

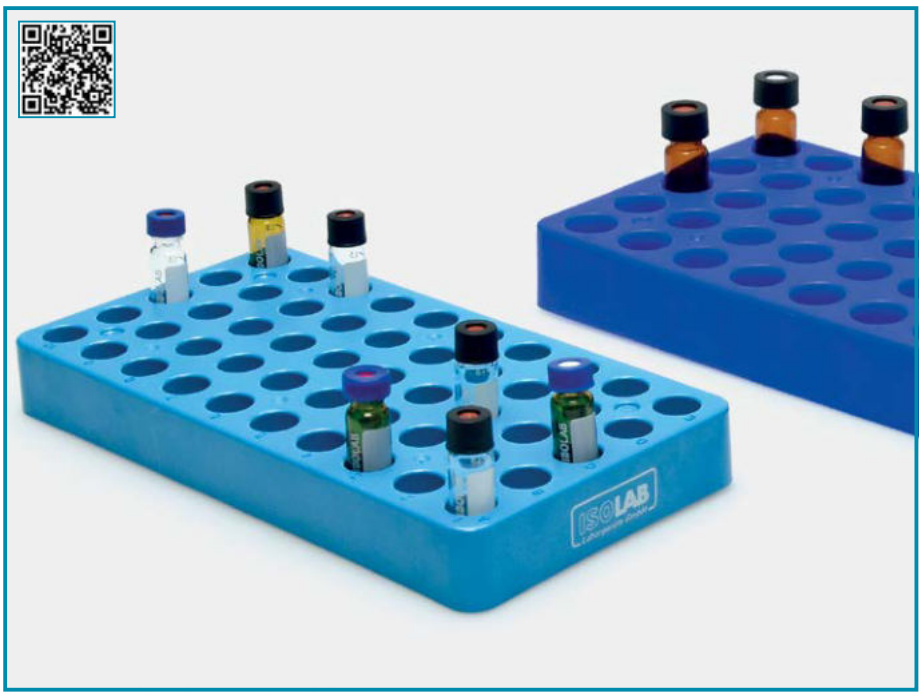

➤ Activated by bottom handle motion guarantees faster and safer hold of the tool during crimping.

➤ Due to the design of the crimper head better vertical clearance over the vial is assured.

Bottom pull handle design for faster and safer hold of the tool during crimping and decapping.

catalogue number	product descriptions	pack quantity
097.01.011	crimper - for N 11 caps	1 piece
097.01.020	crimper - for N 20 caps	1 piece
097.02.011	decapper - for N 11 caps	1 piece
097.02.020	decapper - for N 20 caps	1 piece

RACKS / WORKSTATIONS
"for vial"

- Manufactured from polycarbonate with high mechanical strength.
- Uniquely designed to carry 50 pieces of 2,0 ml & 5,0 ml volume vials in 10 x 5 array.
- Optimum design of the wells keeps the vials at their positions firmly and vertical.
- Alphanumerical index on vial rows enables easy identification of vial positions.
- Featured with a frosted write on and labelling area at the front side of the workstation.

Racks can be stacked both empty or with vials on top of each other for space saving solutions.

catalogue number	for vials diameter	well quantity	vial array	L x W x H	rack color	pack quantity
095.95.001	11,60 mm	50	5 x 10	110x195x22 mm	blue	1 piece
095.95.002	14,75 mm	50	5 x 10	115x240x30 mm	dark blue	1 piece

TUBE BOX - *"100 well" - "hinged lid"*

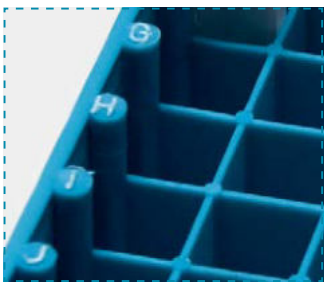

- Manufactured from autoclavable polypropylene with high mechanical strength.Guarantees high temperature resistance between -20°C to +121°C.
- Uniquely designed to carry 100 vials with 11,0 - 12,0 mm diameter in 10 x 10 array. Easily stackable for reducing storage space.
- Hinged lid with built-in stop allows easy one-handed operation and access to vials.
- Clear box lid enables easy identification of box content and protects the vials from dust and other enviromental effects.
- Different color options offer visual sorting and organising of different vials.
- Alphanumerical index both on tube rows and the lid enables easy identification of tube positions.

catalogue number	lid type	for vials diameter	well quantity	vial array	L x W x H	rack color	pack quantity
080.01.002B	hinged	11,6 mm	100	10 x 10	141x151x53 mm	blue	1 piece

080.01.002R	hinged	11,6 mm	100	10 x 10	141x151x53 mm	ruby	1 piece

Clear box lid provides protection of vials from environmental effects.

Alphanumerical index enables easy identification of vial positions.

Different colors offer visual sorting and organising of different samples.

Corners frames enable perfect stacking on each other without sliding.

CUVETTES - "polystyrene" - "12,5 x 12,5 x 45 mm"

- Manufactured from glass-clear polystyrene with 12,5 x 12,5 x 45 mm overall dimensions as single use.
- Can be both used for chemistry and life science applications.
- Wavelength operating range from 340 to 900 nm. Offers a light path of 10 mm with clear and clean optical path length.
- Optimised shape and narrow wall thickness provide increased heat transfer resulting in more constant sample temperatures during measurements.
- Groupped by mould cavity and packed in same box to ensure lowest variation of absorbtion coefficient.
- Eliminates cross contamination risk associated with washing and re-using such as glass cuvettes.
- **Available 2 cuvettes:**
  - **Macro cuvettes**
  - **Semi-micro cuvettes**
- Supplied as 100 cuvettes packed in a styrofoam box with a cover.

catalogue number	cuvette type	product descriptions	material	wavelength range	light path	volume	internal width	pack quantity
098.02.002	macro	with clear wall & without cap	polystyrene	340 - 900 nm	10 mm	2,5-4,5 ml	10 mm	100 pieces

CUVETTES - "glass" - "12,5 x 12,5 x 45 mm"

- Manufactured from polished quartz glass or polished optical glass with 12,5 x 12,5 x 45 mm dimensions as multi-use.
- They offer clear and clean optical path length and fit to all standard spectrophotometer cuvette holders.
- Can be both used for chemistry and life science applications.
- Quartz cuvettes provide wavelength operating range from 190 to 2.500 nm.
- Optical glass cuvettes provide wavelength operating range from 340 to 2.500 nm.
- Optimised shape, precise dimensions with tolerance less than 0,1 % mm and excellent wall thickness provide accurate resulting during measurements.
- **Available 3 cuvettes:**
  - **Macro cuvettes**
  - **Semi-micro cuvettes**
  - **Micro cuvettes**
- Supplied as 2 cuvettes packed in a polystyrene box for protection from dust and other enviromental effects.

BOX - "for cuvettes"

Different color options offer visual sorting and organising of different cuvettes.

- Manufactured from polypropylene with 120x112x60 mm dimensions for safe handling and holding 12 cuvettes with 10 mm width.
- Hinged lid secures clasps and offers convenient use of the box. Removable cuvette insert helps easy cleaning.
- The inside height designed to accomodate all cuvettes.

TLC SEPARATION TANK

➤ TLC developing tanks are used to run up to 5 TLC plates for separation. The tank can be equilibrated for 30 minutes prior to running the plate to yield good result. TLC Developing tank supplied to gather with the lid.

➤ Rectangular shaped TLC developing tanks are used to develop 20x20 cm TLC plates.

catalogue number	pack quantity
108.01.016	1 piece

TLC PLATES

➤ Silica 60, specific surface (BET) - 500 m2/g, mean pore size 60A, specific pore volume 0,75 ml/g, particle size 5 - 17 µm standard grade. Binders: highly polimeric products, which are stable in almost all organic solvents and resistant towards aggressive visualisation reagents.

catalogue number	product descriptions	material	dimensions	thickness of layer	pack quantity

TLC SPRAY KIT

➤ Offers an economical solution for TLC spraying. Provides a fine uniform spray ideally adjusted for TLC practices.

➤ Supplied complete with 100 ml erlenmeyer with sprayer head and a rubber pressure bellow.

catalogue number	pack quantity
108.02.002	1 piece

TLC SPRAYER - *"with gas canister"*

➤ TLC sprayer provide a fine, uniform spray all over the TLC plate surfaces for optimization of TLC plates.

➤ With it's unique design offer easy-to-use and easy-to-clean options.

➤ Based on a simple technology where the aeresol canister is situated above the reservoir bottle.

➤ A small press of the lever highly pressuries the lower glass reservoir bottle releasing a fine mist of spray.

➤ Propellant mixture is eco-friendly and does not harms the nature.

➤ Guarantees homogenous distribution, even coverage and minimum reagent consumption.

➤ Gas canister serves as handle. Cap fits to all 38 - 40 thread reagent bottles.

catalogue number	pack quantity
108.02.001	1 piece

Filling: *Pour the TLC reagent into the bottle. Never fill above the shoulder line.*

Mounting: *Attach TLC sprayer to the bottle by turning anti-clockwise. Never shake the sprayer during mounting.*

Spraying: *Start spraying with the sprayer and release the button while the sprayer is still moving at the end of the TLC plate to avoid reagent loss. For best performance a spraying angle between 90° and 45° is required.*

Also always hold the sprayer at a distance between 15 cm to 30 cm from TLC plate surface.

ISOLAB Laborgeräte GmbH

DIN EN ISO CERTIFIED 9001

TUBES - *"centrifuge" "conical bottom" - "screw cap"*

- Manufactured from ultra clear, high grade polypropylene.
- Ultra rugged tube wall guarantees resistance to high centrifugal forces up to 6.000 RCF.
- Autoclavable at 121°C for 20 minutes. Caps should not be kept closed during autoclaving process.
- **Alternative 3 tubes:**
  - **non-sterilized**
  - **aseptic tubes**
  - **sterile tubes**
- Aseptic tubes are manufactured in germ-free, class 10.000 sterile areas.
- Sterile tubes are manufactured in germ-free, class 10.000 sterile production areas and then re-sterilised by gamma irradiation.
- Sterile tubes are supplied with a certificate as a guarantee of "DNase, RNase & pyrogen free" product.
- Caps are manufactured from polyethylene with large ridges for increased grip for easy opening and closing.
- Cap inner design ensures hermetical and leak-proof closure. Caps can be opened and closed with single hand. A 3/4 turn of the cap will be sufficient for full closure.
- Graduations on side wall offer visual control of the filled volume. Printed marking area on side wall enables easy marking and labelling.
- Flat cap top provides multiple options for marking and labelling of the tube.
- Precise volume marks at the tube bottom clearly and visually show the liquid volume at the tube bottom.

Individually single packed sterile tubes have printed lot number, production date and expiry date on the package.

Sterile tubes are supplied with a certificate as a guarantee of "DNase, RNase & pyrogen free" criterias and guarantees the documentation of the quality.

Precise volume marks at the tube bottom clearly and visually show the liquid volume at the tube bottom.

Unique cap design with large ridges enables single hand operation. A ¾ turn of the cap will be sufficient for hermetical and leak-proof closure of the tube.

Printed marking area on side wall enables easy marking and labelling.
Clear graduations for easy volume reference.

TUBES - *"centrifuge" "self standing" - "screw cap"*

➤ Manufactured from ultra clear, high grade polypropylene. Self stands on the laboratory benches without the need of any tube support.

➤ Ultra rugged tube wall guarantees resistance to high centrifugal forces up to 6.000 RCF.

➤ Autoclavable at 121°C for 20 minutes. Caps should not be kept closed during autoclaving process.

➤ **Alternative 3 tubes:**
- ➤ **non-sterilized**
- ➤ **aseptic tubes**
- ➤ **sterile tubes**

➤ Aseptic tubes are manufactured in germ-free, class 10.000 sterile areas.

➤ Sterile tubes are manufactured in germ-free, class 10.000 sterile production areas and then re-sterilised by gamma irradiation.

➤ Sterile tubes are supplied with a certificate as a guarantee of "DNase, RNase & pyrogen free" product.

➤ Caps are manufactured from polyethylene with large ridges for increased grip for easy opening and closing. Other technical specifications are exactly similar to the conical bottom.

clear tubes	amber tubes	volume	tube dimensions	product specifications	packing specifications	pack quantity	box quantity

TUBE RACKS - *"for 15 & 50 ml conical bottom centrifuge tubes" - "push & hold"*

➤ Manufactured from high grade polypropylene for safe holding and carrying conical bottom centrifuge tubes.

➤ Resistant to most acids, bases, and many commonly used solvents. Guarantees high temperature resistance between -20°C to +121°C.

➤ Uniquely designed to carry 25 tubes in 5 x 5 array tube compartments for holding the tubes in their position firmly.

➤ Very easy to use; Just press the tubes slightly into the tube compartments and leave.

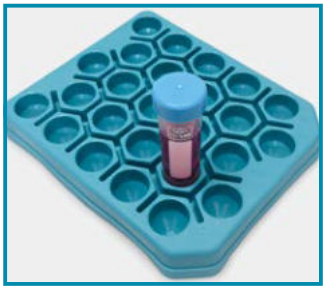

➤ Different color options offer visual sorting and organising of different samples.

➤ Empty racks are easily stackable for reducing storage space.

➤ Alphanumerical index on tube rows enables easy identification of tube positions.

078.06.050B	50 ml	25	5 x 5	190x230x35 mm	1 piece

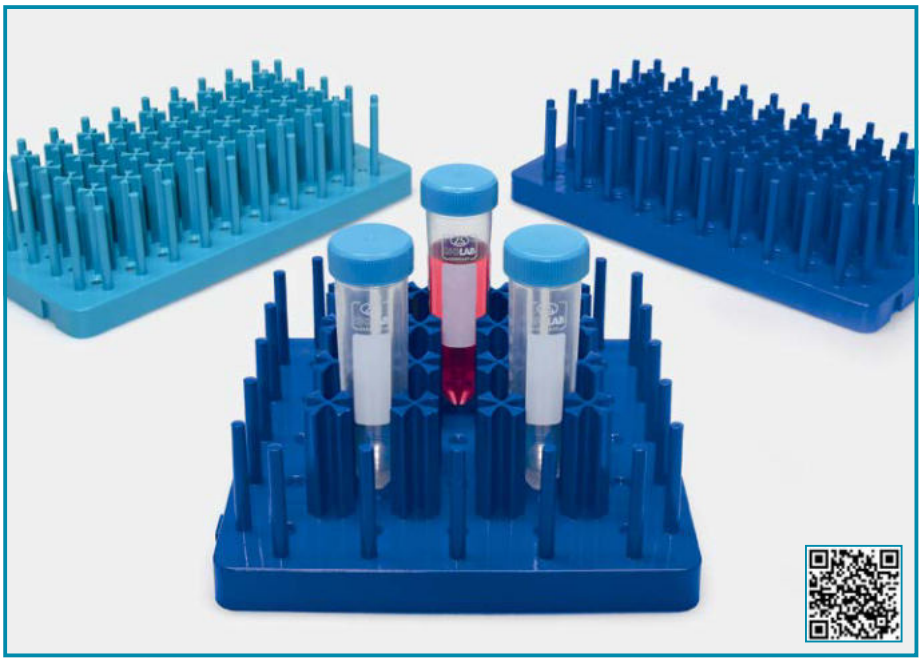

Designed to carry 25 tubes in 5 x 5 array tube compartments.

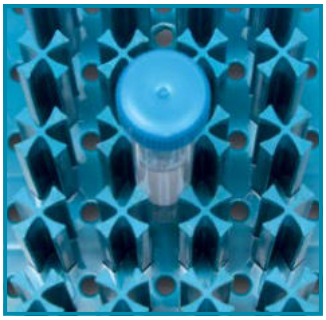

Unique designed tube compartments hold the tube in their position firmly.

TUBE RACKS - *"for 15 & 50 ml conical bottom centrifuge tubes" - "hedgehog design"*

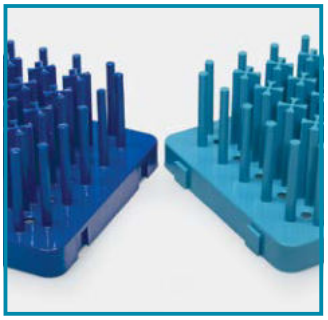

- Manufactured from "modified" high quality ABS which enables the rack to be used in water baths without the risk of floating.
- Resistant to most acids, bases, and many commonly used solvents.
- "Hedgehog" designed cross formed tube support rods enable uniform aligning of tubes in their position firmly.
- Unique rack design allows easy viewing of the tube contents in 4 angles.
- Different color options offer visual sorting and organising of different samples.
- The interlocking design of the racks makes them ideal for creating a user friendly workstation.
- These racks can also be used as drying rack for tubes and chromotography plates.

079.08.050L	50 ml	25	5 x 5	200x200x70 mm	dark blue	1 piece

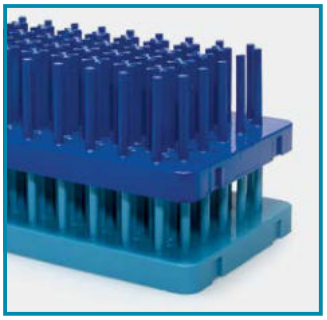

"Hedgehog" designed cross formed tube supports enable uniform aligning of tubes in positions firmly.

The interlocking design of the racks makes them ideal for creating a user friendly workstation.

Different color options offer visual sorting and organising of different samples.

TUBE BOX - *"for 15 & 50 ml conical bottom centrifuge tubes" - "cardboard"*

- Manufactured from freze resistant, water repellent, durable cardboard covered with superior quality chromated paper coating.
- Press on lids perfectly fit to the box body provides a safe and tight closure. Protects the box interior from dust, moisture and other enviromental effects.
- Special moisture repellent coating protects box interior from the effects of liquid nitrogen or condensation from refrigerators.
- Sized to fit all standard steel and polycarbonate freezer racks
- Chemically resistant to alcohols and mild organic solvents. Offers temperature resistance between -196°C to +121°C.
- Alphanumerical index on the lid for identification of tube positions.
- Write on area at the side wall and the lid provides a convenient area for special notes.

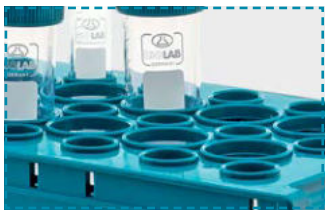

catalogue number	for tubes	well quantity	tube array	L x W x H	pack quantity

TUBE RACKS - *"foldable"*

- Manufactured from modified polypropylene which enables the racks to be used in water baths without floating.
- Resistant to most acids , bases, and many commonly used solvents. Guarantees high temperature resistance between -20°C to +121°C.
- Raised tube sockets guarantee firm hold of the tubes at their exact positions.
- The alpha numeric grid reference on the top tier of the rack ensures an easy tube location and sample positioning.
- Racks are supplied assembled and folded. Can be ready for use in few seconds with a simple action.
- These racks can be refolded after use for reducing storage area.

catalogue number	tube volume	tube quantity	tube array	pack quantity
079.03.003B	15 ml	50	5 x 10	1 piece

079.03.006B	15 & 50 ml	21 & 12	assorted	1 piece

Raised tube supports strongly hold the tubes in their position.

Tube rack can be folded for space saving solution.

TUBE RACK - *"snapable"*

- Manufactured from high grade ABS for safe holding and carrying conical bottom centrifuge tubes.
- Uniquely designed to carry 30 x 15 ml and 20 x 50 ml centrifuge tubes simultaneously.
- Rack is supplied already disassembled. Unique and practical "snapping" system allows the rack "ready to use" in few seconds.
- Alphanumerical index on the lid enables easy identification of tube positions.

catalogue number	tube volume	tube quantity	tube array	pack quantity
079.04.001	15 & 50 ml	30 & 20	assorted	1 piece

Supplied dismantled and can be assembled in less than minute.

Holes at the bottom plate guarantee firm hold of tubes in their position.

CENTRIFUGE TUBES - *"micro" - "with flat cap"*

➤ Manufactured from ultra clear polyropylene with flat caps that ensure smooth opening and closing with one hand. Once closed they guarantee leak-proof closure

➤ **Alternative 2 shapes:**
- ➤ **Conical bottom tubes which need a tube rack**
- ➤ **Skirted tubes which can self stand on benches.**

➤ Skirted tubes can self stand on laboratory benches without the need of any tube rack.

➤ Ultra rugged tube wall guarantees resistance to high centrifugal forces up to 20.000 RCF. Optimum tube design offers micro pestle compatibility.

➤ Reinforced tube bottom ensures added protection against deformation and leakage. Conical bottom form guarantees excellent fit to allmost all centrifuge rotors. Higly polished interior wall guarantees low liquid retention and ensures minimum sample loss.

➤ Autoclavable at 121°C for 20 minutes. Caps should not be kept closed during autoclaving process. Otherwise tubes can be deformed.

➤ **Alternative 2 tubes:**
- ➤ **aseptic tubes**
- ➤ **gamma sterile tubes**

➤ Aseptic tubes are manufactured in germ-free , class 10.000 sterile production areas with extreme sterility control.

➤ Sterile tubes are manufactured in germ-free, class 10.000 sterile production areas and then resterilised by gamma irradiation. Supplied with a certificate as a guarantee of "DNase, RNase & pyrogen free" product.

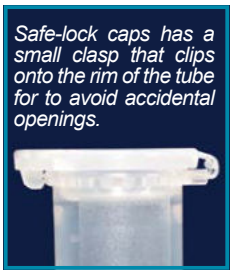

➤ Improved cap design ensures smooth opening and closing with one hand. Inner design ensures hermetical and leak-proof closure. Cap can be pierced easily with any syringe needle.

➤ Graduations on the side wall offer visual control of the filled volume. Frosted marking area on side wall enables easy marking and labelling.

tubes sterilized	tubes non sterilized	volume	skirt	pack quantity	box quantity

078.03.024	078.03.004	2.0 ml	yes	500 pieces	5000 pieces

Safe-lock caps has a small clasp that clips onto the rim of the tube for to avoid accidental openings.

CENTRIFUGE TUBES - *"micro" - "with safe-lock cap"*

➤ Manufactured from ultra clear polyropylene with safe lock caps that ensure smooth opening and closing with one hand.

➤ Once closed they guarantee leak-proof closure.

➤ Safe-lock caps have a small clasp that clips onto the rim of the tube preventing accidental openings specially during applications where heating is required.

➤ **Alternative 2 tubes:**
- ➤ **aseptic tubes**
- ➤ **gamma sterile tubes**

➤ All other tehcnical specifications are identical with flat cap tubes.

tubes sterilized	tubes non sterilized	volume	pack quantity	box quantity
078.05.022	078.05.002	1.5 ml	500 pieces	5000 pieces
078.05.025	078.05.005	5.0 ml	200 pieces	2000 pieces

TUBE ADAPTER - *"for 5 ml microtubes"*

➤ Manufactured from polypropylene.

➤ Perfectly fits to the bottom part of the 15 ml centrifuge tube rotors.

➤ They provide the practical usage of the 5 ml tube in a 15 ml rotor.

catalogue number	pack quantity
078.05.105	8 pieces

CRYO TUBES - *"sterile"*

➤ Designed for the storage and conservation of biological material, human and animal cells at very low temperatures in the gas phase of liquid nitrogene or in cryogenic freezers.

➤ Manufactured from ultra clear, polyropylene by fully automatic machines. Higly polished interior wall guarantees low liquid retention and ensures minimum sample loss.

➤ Cryo tubes are manufactured in germ-free, class 10.000 sterile production areas and then resterilised by gamma irradiation.

➤ Tubes are supplied with a certificate as a guarantee of "DNase, RNase & pyrogen free" product.

➤ Since both cap and tube are made of same material with same coefficient of expansion secure seal at all temperatures.

➤ Caps are featured with cavities for different colored cap inserts which enable easy identification of tube contents. Cap inner design ensures hermetical and leak-proof closure

➤ The external thread of the tube ensures secure and tight closure and prevents leakage without silicone gasket.

➤ Caps can be opened and closed with single hand. A 3/4 turn of the cap will be sufficient for full closure.

➤ Unique foot design enables free standing option. Foot design allows the tube to be fixed at the cryo vial racks. Tube caps can be opened by single hand.

cryo tubes with external thread	tube volume	tube height (mm)	tube diameter (mm)	pack quantity
091.11.102	2.0 ml	48,00 ± 1,00	11,90 ± 0,1	100 pieces
091.11.105	5.0 ml	88,00 ± 1,00	11,90 ± 0,1	100 pieces

Unique star-base foot design enables free standing option.

Base design allows the tube to be fixed at the cryo vial racks. Tube caps can be opened by single hand without the need of picking up the tubes.

The external thread of the tube ensures secure and tight closure and prevents leakage without silicone gasket.

CRYO TUBE CANES - *"polycarbonate"*

➤ Made from polycarbonate for holding cryo tubes. Ideal tool to insert the cryo tubes into cryo freezer storage or into dewar flasks. With their total length of 310 mm they can carry 6 pieces 2,0 ml and 3 pieces 5,0 ml cryo tubes at a row.

Graduations on the side wall offer visual control of the filled volume.

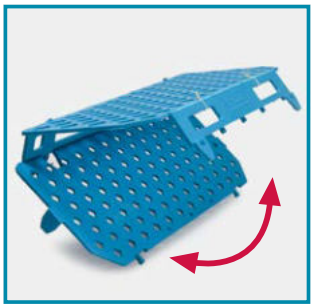

MICROTUBE RACKS
"foldable"

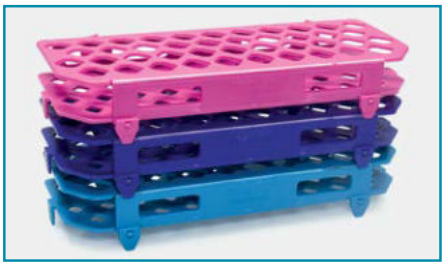

- Manufactured from polypropylene with high mechanical strength.
- Resistant to most acids, bases and solvents. Guarantees high temperature resistance between -20°C to +121°C.
- Alphanumerical index on tube rows enables easy identification of tube positions. Marking areas on wall sides enable easy marking and labelling.
- Supplied dismantled as a sheet and can easily be assembled in few seconds.
- Also can be dismantled in few seconds and forms a flat layer for safe and efficient storage purpose.

Supplied dismantled as a sheet and can easily be assembled in few seconds.

Also can be dismantled in few seconds and forms a flat layer for safe and efficient storage purpose.

Different color options offer visual sorting and organising of different samples. After replacement of the tubes racks can be stacked on top of each other for space saving.

MICROTUBE RACKS
"monoblock"

- Manufactured from polypropylene with high mechanical strength.
- Resistant to most acids, bases and solvents. Guarantees high temperature resistance between -20°C to +121°C.
- Can be used with a unique base support tray that provides alternative inclined position for the rack.
- According to the wish rack can be used horizontally or with 30 degree angle providing easy filling option of the tubes.
- After replacement of the tubes racks can be stacked on top of each other for space saving solution.
- Alphanumerical index on tube rows enables easy identification of tube positions.
- Marking areas on wall sides enable easy marking and labelling.

BASE SUPPORT

- Base support is manufactured from acrylic with 30° inclination. When placed under the tube rack with the help of 30 degree inclination this support offers easy filling options of the tubes specially when you are sitting.

catalogue number	color	pack quantity
080.01.101	white	1 piece

MICROTUBE RACKS
"3 tier"

- Manufactured from polypropylene with high mechanical strength.
- Resistant to most acids, bases and solvents. Guarantees high temperature resistance between -20°C to +121°C.
- The interlocking design of the racks makes them ideal for creating a workstation.
- Raised tube slots guarantee firm and stable hold of tubes in vertical position.
- Alphanumerical index on tube rows enables easy identification of tube positions. Marking areas on wall sides enable easy marking and labelling.

- Unique design for to carry 3 different size micro tubes on each tier:
  - Bottom row carries 24 x 0,2 ml (2 x 12 array) micro tubes.
  - Middle row carries 14 x 0,5 ml (2 x 7 array) micro tubes.
  - Upper row carries 12 x 1,5 ml (2 x 6 array) micro tubes.

Different color options offer visual sorting and organising of different samples

The interlocking design of the racks makes them ideal for creating a user friendly workstation.

MICROTUBE RACKS
"double side"

- Manufactured from polypropylene with high mechanical strength.
- Resistant to most acids, bases and solvents. Guarantees high temperature resistance between -20°C to +121°C.
- Rack has two sides and each side accomodates different size and combination of microcentrifuge tubes.
- Clear box lid enables easy identification of rack content and protects the tubes from dust, moisture and other effects.
- Alphanumerical index on tube rows enables easy identification of tube positions. Marking areas on wall sides enable easy marking and labelling.
- Different color options offer visual sorting and organising of different samples.
- Racks can be stacked on top of each other for space saving.
- Uniquely designed to carry different size micro tubes on both sides.
  - **Upper side:** carries 96 x 1,5 ml (6x16 array) micro tubes
  - **Reverse side:** carries 48x0,5 ml (6x8 array) and 96 x 0,2 ml (8x12 array) micro tubes.

092.01.001R	2,0 - 5,0 ml	50	10 x 5	195x101x24 mm	ruby	1 piece

- Manufactured from polycarbonate with high mechanical strength.
- Resistant to most acids, bases and solvents. Guarantees high temperature resistance between -196°C to +121°C.
- Uniquely designed to carry 50 pieces of 2,0 ml & 5,0 ml volume cryo tubes in 10 x 5 array.
- These racks allow easy one handed opening and closing of tubes thanks to an innovative locking system.
- The locking system at the well bottoms ensures that tubes will securely lock in each position and will not return in their axis.
- Alphanumerical index on tube rows enables easy identification of tube positions.
- Featured with a frosted write on and labelling area at the front side.
- Different color options offer visual sorting and organising of different samples

These racks allow easy one handed opening and closing of tubes thanks to an innovative locking system.

The locking system at the well bottoms ensures that tubes will securely lock in each position and will not return in their axis.

Different color options offer visual sorting andorganising of different samples

TUBE BOX - *"100 well" - "hinged lid"*

- Manufactured from polypropylene with high mechanical strength. Resistant to most acids, bases and solvents. Guarantees high temperature resistance between -20°C to +121°C.
- Uniquely designed to carry 100 cryo tubes in 10 x 10 array.
- Hinged lid with built-in stop allows easy one-handed access. Featured with a frosted write on area at the front side of the lid.
- Clear box lid enables easy identification of box content and protects the tubes from enviromental effects.
- Moulded frames at the corners of the tube boxes enable perfect stacking on top each other without sliding.

catalogue number	tube array	L x W x H (mm)	rack color	pack quantity

Alphanumerical index both on tube rows and the lid enables easy identification of tube positions.

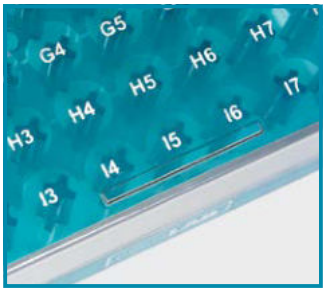

Different color options offer visual sorting and organising of different samples.

CRYO TUBE BOXES - *"81 well" - "polycarbonate"*

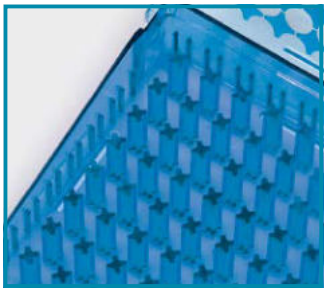

- Manufactured from polycarbonate with high mechanical strength and high temperature resistance between -196°C to +121°C.
- Uniquely designed to carry 81 pieces micro or cryo tubes in 9 x 9 array.
- "Hedgehog" designed tube compartments hold the tube in their position firmly. They fit all steel and polycarbonate freezer racks.
- Unique design with vent and drainage holes guarantees best, efficient air circulation.
- Forward slope base ensures quick visual orientation. Easily stackable for reducing storage space.
- Hinged lid with built-in stop allows very easy access to tubes.
- Clear box lid enables easy identification of box content and protects the tubes from dust, moisture and other enviromental effects.
- Vent and drainage holes at the lid and the base guarantee the best air circulation.
- Alphanumerical index both on tube rows and the lid enables easy identification of tube positions.
- Featured with a frosted write on area at the front side of the lid.
- Different color options offer visual sorting and organising of different samples.

Vent and drainage holes at the lid and the base guarantee the best air circulation.

"Hedgehog" designed cross formed tube supports enable uniform aligning of tubes in positions firmly.

Alphanumerical index both on tube rows and the lid enables easy identification of tube positions.

Box is supplied together with a disposable forceps for easy removal of tubes.

CRYO TUBE BOXES - *"81 well" - "cardboard"*

- Manufactured from freze resistant, water repellent, durable cardboard covered with superior quality chromated paper coating.
- Special moisture repellent coating protects box interior from the effects of liquid nitrogen or condensation from refrigerators.
- Chemically resistant to alcohols and mild organic solvents. Offers temperature resistance between -196°C to +121°C.
- Alphanumerical index on the lid for identification of tube positions. Write on area at the side wall and the lid provides a convenient area for special notes.
- Press on lids perfectly fit to the box body provides a safe and tight closure. Protects the box interior from dust, moisture and other enviromental effects.
- Sized to fit all standard steel and polycarbonate freezer racks

PCR TUBES - *"single cavity"*

- Single cavity 0.2 ml PCR tubes for thermal transfer and PCR applications are manufactured from ultra clear, virgin polyropylene by fully automatic, human touch free machines.
- Manufactured in class 10.000 sterile areas as **"DNase, RNase & pyrogen free"** product.
- Uniform and thin wall design accelerates the thermal heat transfer and shortens the PCR reaction and cycling times.
- Optimum tube dimensions guarantee compatibility with most leading thermal cyclers.
- Cap inner design ensures hermetical and leak-proof closure
- Once cap is closed the tubes guarantee perfect sealing during thermal cycling preventing evaporation.
- Cap can be opened and closed with one hand without the risk of sample contamination.
- Group packed with lot number, production date and expiry date printed on the package.

catalogue number	pack quantity	box quantity
123.01.002	500 pieces	6 packs / 3000 pieces

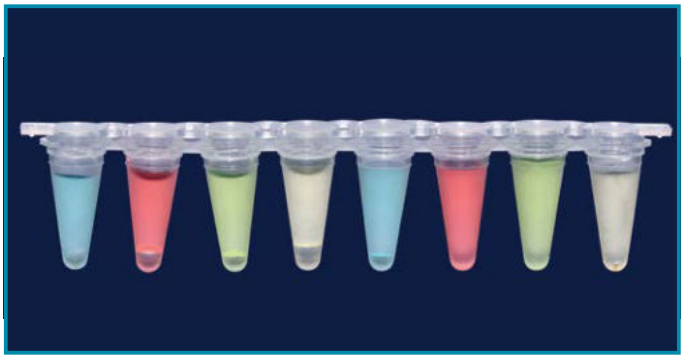

PCR TUBES - *"8 strip"*

- 8 strip PCR tubes for thermal transfer and PCR applications are manufactured from ultra clear, high grade polyropylene by fully automatic, human touch free machines.
- They perfectly fit to all PCR plates and provide fast filling option by 8 channel pipettors.
- Manufactured in class 10.000 sterile areas as "DNase, RNase & pyrogen free" product.
- Uniform and thin wall design accelerates the thermal heat transfer and shortens the PCR reaction and cycling times.
- Unique design offers compatibility with most leading PCR thermal cyclers.
- Once caps are closed the tubes guarantee perfect sealing during thermal cycling preventing evaporation. Caps can be opened and closed with one hand without the risk of sample contamination.
- Group packed with lot number, production date and expiry date printed on the package.

qPCR TUBES - *"8 strip" - "with flat cap"*

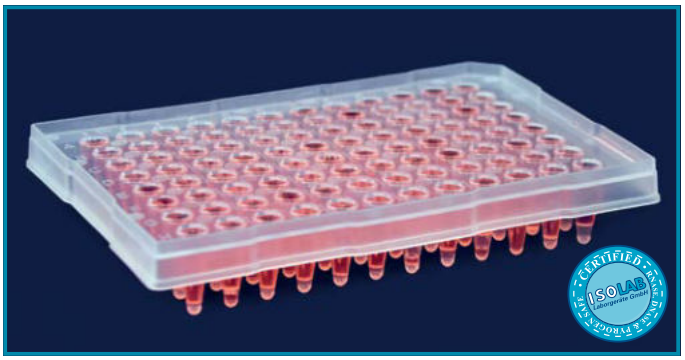

- 8 strip 0,1 ml qPCR tubes for thermal transfer and qPCR applications are manufactured from ultra clear, high grade polyropylene by fully automatic, human touch free machines. Manufactured in class 10.000 sterile areas as "DNase, RNase & pyrogen free" product.
- Uniform and thin wall design accelerates the thermal heat transfer and shortens the PCR reaction and cycling times. Low profile tube design offers compatibility with most leading qPCR machines.
- Once caps are closed the tubes guarantee perfect sealing during thermal cycling preventing evaporation. Caps can be opened and closed with one hand .

- Group packed with lot number, production date and expiry date printed on the package.

123.02.028	0,1 ml	clear qPCR strips with seperated flat caps	12 pieces	10 packs / 120 pieces
123.02.018	0,2 ml	clear qPCR strips with seperated flat caps	12 pieces	10 packs / 120 pieces

SEALING FILMS - *"for PCR and qPCR plates"*

- Manufactured from polyester based film with acrylic adhesive back. "DNase, RNase & pyrogen free" product.
- Guarantees excellent chemical and temperature resistance between -40°C to +120°C.
- Can be used with all kinds of microplates including raised rim and skirted ones. Transparency allows optical analysis possibility of PCR and qPCR applications.
- Allows easier and more accurate positioning and more secure sealing around each well.
- Prevents cross contamination between samples and wells.
- Also does not interfere with cycle reactions and does not cause spills on PCR samples.

PCR RACK & WORK STATION

- Manufactured from polypropylene for "before" and "after" use at PCR sampling and applications.
- Rack can carry 3 different size PCR tubes & PCR strips.
  - 96 x 0,2 ml PCR tubes (8x12 array)
  - 12 x strip of 8 PCR tubes (8x12 array)
  - 8 x strip of 12 PCR tubes (8x12 array)
- Alphanumerical index on tube rows enables easy identification of tube positions.

***PCR rack** can be inserted and locked in the **PCR workstation** to form a combine working unit.*

"plug cap for airtight culture"

Plug seal cap usually used for airtight culture applications. Can be used also for open culture when the cap is unscrewed.

"plug cap for airtight culture"

Vent cap is designed for open culture applications. Includes a contamination preventing hydrophobic membrane 0,2 µm.

FLASKS - *"for cell culture"*

- Manufactured from optically clear polystyrene in germ-free, class 10.000 sterile production areas and then resterilised by gamma irradiation. Supplied with a certificate as a guarantee of "DNase, RNase & pyrogen free" product.
- Offers absolutely flat growth surface with surface activated growth area for fast and efficient growth.
- Special design offers minimized contamination risk. Angled design of the flask neck allows easy access to each corner with 100 % cell retrieval without leaving any dead corners.
- Caps are made from polypropylene with large ridges with increased grip. Cap inner design ensures hermetical and leak-proof closure.
- Caps can be opened and closed with single hand. A 2/3 turn of the cap will be sufficient for hermetic and leak-proof closure.
- Graduations on the side wall offer visual control of the filled volume. Marking area on side wall enables easy marking and labelling.
- Individually single packed with lot number, production date and expiry date printed on the package.

catalogue number	growth area	working volume	cap type	surface treatment	pack quantity	box quantity

Angled design of the flask neck allows easy access to each corner with 100 % cell retrieval without leaving any dead corners.

Ergonomic design minimizes contamination and raised corners at the body enables easy and slip-free stacking possibility.

CENTRIFUGE TUBES - *"for cell culture"*

- Manufactured from **FDA approved** ultra clear, high grade polypropylene. Can resist centrifugation up to 6.000 RCF.
- Sterilized with gamma irradiation, **free of RNase, DNase, and pyrogene.**
- Individual packing eliminates the possible risks of contaminations.
- Their conical bottoms make them suitable for centrifugation tests in immunology, microbiology etc.

Other technical specifications can be seen at catalogue page no 180 - 181.

MULTIWELL PLATES - *"for cell culture"*

Ergonomic design offers minimized contamination risk and easy handling with slip-free stacking possibility.

➤ Widely used plates for handling multiple samples in a single experiment during culture. Manufactured from optically clear polystyrene in germ-free, class 10.000 sterile production areas and then resterilized by gamma irradiation.
Supplied with a certificate as a guarantee of "DNase, RNase & pyrogen free" product.

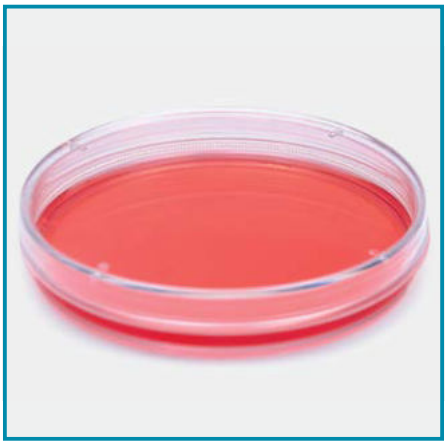

➤ Offers absolutely flat growth surface with surface activated growth area for fast and efficient growth. Unique design guarantees minimized cross contamination risk. They offer also easy handling with slip-free stacking possibility. Lid with air-venting system for controlled gas exchange with low evaporation.

➤ Vented base guarantees excellent air flow between stacked dishes to prevent condensation. Sloped edge allows placement of the lid in one single position.
Uniform well volumes always ensures equal growth surface area.

➤ Individually single packed with lot number, production date and expiry date printed on the package.

The unique clamp mechanism at the base enables fixation of the viewing objects firmly in place.

MAGNIFIER - *"table top"*

- Multifunctional table-top magnifier offers magnification power of 3X and 5X depending on view direction.
- Can be operated by one hand. Offers smooth and easy use with distant and near vision lenses.
- 4 LED bulbs with on/off control provide super bright powerful illumination.
- Two separate flexible gooseneck holders enable magnifying lens and illumination angle adjustable in multiangular axes.
- Shadow and flicker free illumination without heat development provides optimal concentration of light.
- Aspherical lens provides spherical aberration and distortion free images with edge-to-edge sharpness.
- Removable main body can be fixed at table corner with a clamp.
- Sturdy base plate inreases the standing efficiency.
- The clamp mechanism at the base enables fixation of objects firmly in place.

catalogue number	pack quantity
065.10.001	1 piece

MAGNIFIER - *"handy type"*

- Hand magnifier offers magnification power of 3X and 5X depending on view direction.
- Handle perfectly fits to hand with a comfortable grip.
- Aspherical lens provides spherical aberration and distortion free images with edge-to-edge sharpness.
- LED bulb with on/off control provides super bright powerful illumination.
- A rotatable joystick switch enables adjustment of illumination angle in all angles.

catalogue number	external dimensions	lens dimensions	pack quantity
065.10.006	230 x 100 mm	100 mm	1 piece

MAGNIFIER - *"pocket type"*

- Perfect magnifier for reading small prints with magnification power of 2X.
- 3 LED bulbs with on/off control provides super bright powerful illumination.
- Ergonomic design enables intuitive movement on the reading material. Delivered in a soft protective bag

REFRACTOMETER - *"digital"*

➤ With a wide measuring range offers a precise measurement and determination of refractive index and Brix values of liquid samples.

➤ Portable, light weight, compact design guarantees fast and easy measurements also eliminates the reading errors.

➤ Operation is extremely simple: only with a few drops of sample guarantees fast and reliable measurements.

➤ Zero point check and calibration can be done with water.

➤ LED light source around the prism warns the user during the calibration or measurement process.

➤ Simple and easy to change measuring from % Brix to refractive index. Features with automatic temperature compensation (ATC).

catalogue number	measuring range % Brix	measuring range refractive index	division Brix / RI	ATC
618.32.001	0 - 95	1,3330 - 1,5400	0,1 / 0,0001	yes

➤ Ideal for precise measurement and determination of refractive index and % Brix values of liquid, solid, semi-solid and powder samples. Simple handling and easy to use. Calibration can be done easily with supplied calibration prism.

REFRACTOMETER - *"hand type"*

➤ A practical alternative for practical yet quick measurement of concentrations of liquids.

➤ Portable and hand-held design enables both laboratory and field applications.

➤ Models with automatic temperature compensation are specially suitable for field use.

➤ With focusing eyepiece with soft rubber eyecups for reducing straylight ingress and also avoiding scratches at spectacle lenses.

➤ Calibration is easily done by turning the adjustment screw.

catalogue number	measuring range % Brix	division %	ATC
618.21.001	0 - 10	0,1	yes
618.22.001	0 - 18	0,1	yes
618.23.001	0 - 32	0,2	yes
618.24.001	0 - 80	0,5	no
618.25.001	0 - 90	0,5	no

REFRACTOMETER - *"ABBE"*

➤ Large optical prism enables excellent boundary line brightness and contrast during measurements.

➤ Adjustable wide field eyepiece with 10X magnification, enables bright and clear images. Super contrast, optical system with 30X magnification guarantees sharp images.

➤ Equipped with movable, hinged covers to keep light out. Offers connection possibility to a thermostatic circulator.

➤ Featured with a digital thermometer with a large LCD display. Temperature reading is selectible as °C or °F with a precision of 0,1°C or 0,1°F.

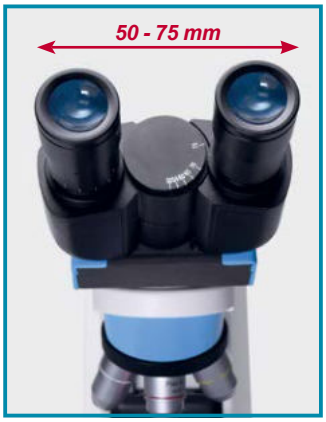

catalogue number	618.41.001
external dimensions (mm)	270 x 180 x 370
refractive index (nD)	1,3000 - 1,7000
dissolved solid Brix (%)	0 - 95
accuracy	± 0,0002
water inlet / outlet Ø (mm)	10
digital thermometer	LCD display - 34 x 14 mm
temperature range (°C)	0 - 70
temperature uniformity (°C)	± 0,1

MICROSCOPE - *"biological"*

- Ideal for academic and clinical research with excellent optical system, outstanding resolution and definition.
- Unique design with backward nosepiece offers larger working space and enables convenient handling.
- Featured with a 360° rotatable binocular head inclined at 30 with interpupillary distance adjustable 50 mm - 75 mm.
- Wide field eyepiece with 10X magnification power, 20mm lens diameter enables bright and clear images
- 4X, 10X, 40X and 100X plan achromatic objectives guarantee net and sharp images. NA 1,25 abbe condenser with iris diaphram and filter holder guarantees ideal contrast.
- 142x138 mm square mechanical stage with 76 mm left-right and 55 mm back-forward movement offers easy use.
- Coarse and fine adjustment is enabled with upper limit safety with 0,002 mm fine division and 20 mm maximum moving limit. Each rotation of control knob enables 37,7 mm coarse stroke and 0,2 mm fine stroke.
- Featured with a power supply 100 Volt - 220 Volt multi input rating and easily replaceable, super bright and powerful LED illumination with adjustable light power.
- Supplied with dust cover and immertion oil.

613.21.001	1 piece

Featured with a 360° rotatable binocular head inclined at 30 with interpupillary distance adjustable 50 mm - 75 mm.

Featured with a power supply 100 Volt - 220 Volt multi input rating and super bright. LED illumination with adjustable light power.

142x138 mm square mechanical stage with 76 mm left-right and 55 mm back-forward movement offers easy use.

Coarse and fine adjustment is enabled with upper limit safety with 0,002 mm fine division and 20 mm maximum moving limit.

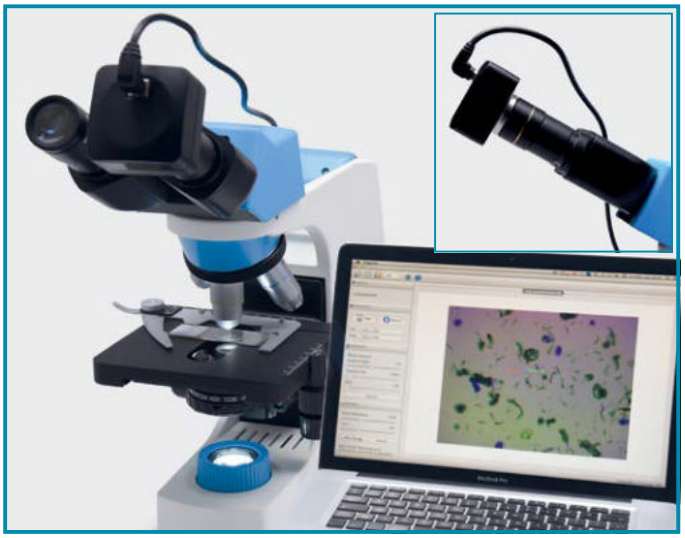

IMAGE PROJECTOR

- Consists of a scientific research camera with Aptina CMOS sensor for advanced video and image processing.
- Offers excellently clear projection of the images from microscopes to screens and practical photo and video shootings.
- Featured with hardware resolution among 0,35M to 14M and USB 2.0 interface for high speed data transmission. Ultra-fine color engine guarantees perfect color reproducibility.
- Other pces are; Maximum resolution: 8.000.000 Pixels / Pixel size: 1,67 µm x 1,67 µm / Dynamic range: 65,2 dB. / SN ratio: 34 dB / Spectral range: 380 – 650 nm / Exposure: 0,38 ms – 2000 ms, ROI Auto & Manual.
- Sturdy zinc aluminium housing for a very long life cycle.

catalogue number	pack quantity
613.31.001	1 piece

MICROSCOPE - *"stereo"*

- Offers ergonomic design, sharp image quality, high resolution and wide field of viewing for academic, industrial and clinical applications.
- Featured with a 360° rotating binocular head inclined at 45 with interpupillary distance adjustable 52 mm - 75 mm.
- Wide field eyepiece with 10X magnification power with 20mm view field enables bright and clear images.
- Adjustable objective with 0,7 X to 4,5X magnification power provides a wide and clear viewing field of 20 mm diameter with zoom ratio of 1:6,4
- Featured with a power supply 100 Volt - 220 Volt multi input rating and easily replaceable, super bright and powerful LED illumination from bottom and overhead.
- Supplied with dust cover, and circular examination glass plate and an additional examination plate with one side black and other side white.

catalogue number	pack quantity
613.22.001	1 piece

Supplied with an additional examination plate with one side black and other side white.

Featured with a 360° rotating binocular head inclined at 45 with interpupillary distance adjustable 52 mm - 75 mm.

Objective with 0,7 X to 4,5X magnification power provides a wide and clear viewing field of 20 mm diameter with zoom ratio of 1:6,4.

Featured with a power supply 100 Volt - 220 Volt multi input rating and super bright and powerful. ***LED illumination from bottom.***

Featured with a power supply 100 Volt - 220 Volt multi input rating and super bright and powerful. ***LED illumination from overhead.***

MICROSCOPE SMART TABLET

- Offers a built-in image capture and video record 9.7 inch touch screen tablet, with a resolution of 2048(H) x 1536(V).
- Consists of a 5.000.000 pixels camera system and 1080p video support.
- Futures for measuring line lenght, curve lenght, parallel line distance and point line distance. Also geometric measurements are available such as Radius of the circle line, three point circle and concentric circle.
- Supplied with adapting lens to convert from C-mount to 23.2 mm eyepiece tube, with 30.0 mm adaptor rings and 30.5 mm adaptor rings to fit most of the microscopes.

catalogue number	pack quantity
613.41.001	1 piece

BLOOD COUNTING CHAMBERS

- Manufactured from special optical glass according to DIN 12847 standard.
- It is possible to count different types of cells such as leukocyte, erythrocytes with simple methods under a microscope.
- Tolerance of the depth of the chamber does not exceeds 2 %.
- Counting grids are engraved into two polished surfaces at the central station.
  - **"Neubauer - improved" chamber** with grid consists of 3 x3 large squares with areas of 1 mm2 each.
- **Alternative 2 chambers:**
  - **"Thoma - new" chamber** with 0,1 mm depth. The grid covers an area of 1,1 x 1,1 mm^2.
- Supplied in a polystyrene box together with two haemocytometer cover glasses.

catalogue number	product descriptions	pack quantity
075.03.001	Neubauer Improved	1 piece
075.03.002	Thoma - New	1 piece

COVER GLASSES - *"for counting chambers"*

- Manufactured from special optical glass with ground and polished edges.
- These cover glasses are used to cover specimens in counting chambers.
- With their excellent flat surfaces they adhere perfectly on the chambers and define the volume of the cell suspention over the counting grid.
- Their substential thickness of 0,4 mm offers perfect results without bending under capillary forces.
- Their practical dimensions of 20 x 26 mm enables use with amost chamber types.

catalogue number	pack quantity
075.04.001	10 pieces

CELL COUNTER - *"mechanical"*

- Multi use mechanical counter with maximum counting capacity up to 9999 for counting blood cells, bacterial colonies, drops of liquids, or any repetitive action.
- Featured a quick reset knob, lens window for easy reading, and finger ring for a secure grip.
- Sturdy and chrome finished metal housing offers long life cycle.

catalogue number	pack quantity
081.14.002	1 piece

CELL COUNTER - *"digital"*

- Multi-use digital counter with maximum counting capacity up to 9999 for counting blood cells, bacterial colonies, drops of liquids, or any repetitive action.
- Featured a quick reset knob, lens window for easy reading, and finger ring for a secure grip.
- Sturdy and chrome finished metal housing offers long life cycle.

catalogue number	pack quantity
081.14.001	1 piece

COVER GLASSES

- Manufactured from optical grade, hydrolic 1 class borosilicate glass according to DIN ISO 8255 standard.
- Fully automatic production cycles ensure dust-free, absolutely clean cover glasses with excellent flatness and smooth surfaces.
- With their thickness varying 0,13 mm - 0,17 mm they guarantee perfect clearness.
- Their edges are cut with highest precision assuring flawless results.
- **Alternative 2 glasses:**
  - **economical quality cover glasses**
  - **superior quality cover glasses**

dimensions	economic quality	box quantity	superior quality	box quantity	pack quantity
18 x18 mm	075.00.001	10 packs	075.01.001	10 packs	100 pcs

SLIDES

- Manufactured from optical grade, hydrolic 3 class soda lime glass according to DIN ISO 8037-1 standard.
- Fully automatic production cycles ensure dust-free, absolutely clean cover glasses with excellent flatness and smooth surfaces.
- With their extremely flat pre-cleaned surfaces free of dust and oil and their 1 mm thickness they assure flawless results.
- **Alternative 2 slides:**
  - **economical quality cover glasses**
  - **superior quality cover glasses**
- Superior quality color coded slides has ground edges with 45° edge angle.
- Color coded with 5 different colors enables fast, easy identification.

Superior quality color coded slides with 5 different colors provide easy identification of samples.

Superior quality slides have ground edges with 45° edge angle.

SLIDE BOX - *"with hinged lid"*

➤ Manufactured from robust polypropylene providing perfect storage and transportation of slides.

➤ Moulded grooved slide slots with numerical index hold the microscope slides at the position.

➤ Hinged lid offers safe closing and easy opening. Once the lid is closed the box interior is protected from enviromental effects.

Different color options offers easy slide classification and minimize the possiblity of sample mix-up.

SLIDE BOX CABINET

➤ Manufactured from acrylate with 5 slide box compartment.

➤ They offer practical solutions for storing the slide boxes on top of each other. Can be linked to each other by magnetic fixators to form longer working station.

catalogue number	pack quantity
076.02.101	1 piece

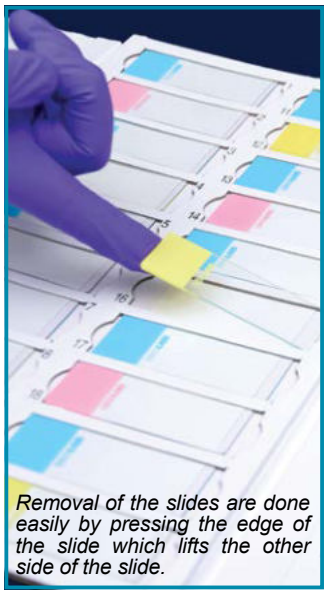

SLIDE MAILERS

- Manufactured polypropylene for storing and shipping of slides.
- Flat mailers can carry 1 or 2 or 3 slides depending on the type.
- Easy-to-close snaps hold the mailers always securely closed while keeping the interior away from dust, moisture and other enviromental effects.
- Box mailer with slotted channels can hold 5 slides separated from each other.
- The hinged lid protects the mailer interior from dust and other enviromental effects.

catalogue number	slide capacity	pack quantity	box quantity

Different color option offers easy slide classification and minimize the possiblity of sample mix-up.

Removal of the slides are done easily by pressing the edge of the slide which lifts the other side of the slide.

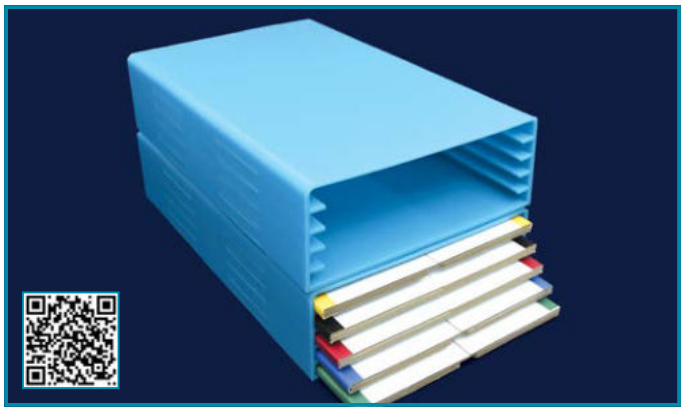

SLIDE WALLETS - *"cardboard"*

- Manufactured from thick and robust cardboard with 20 pieces slide capacity. Consists of 2 parts: A base for slide compartments and two folding covers.
- Unique recessed design of the slide compartments avoids the risk of covers touching the slides.
- Alphanumerical index on slide rows enables easy identification of slide positions.
- Printed marking area on side walls of the covers enables easy marking and labelling.
- Slide compartments have finger slots for easy and fast removal of the slides.
- Cardboard hinged covers protect the slides from enviromental effects.

SLIDE WALLET RACK

- Manufactured from thick and robust acrylic for easy and safe storage of 5 slide wallets. For easy insertion and removal of the slide wallets also protects the wallet interior.
- Easily stackable due to the body form for reducing storage space.

catalogue number	pack quantity
076.01.003	1 piece

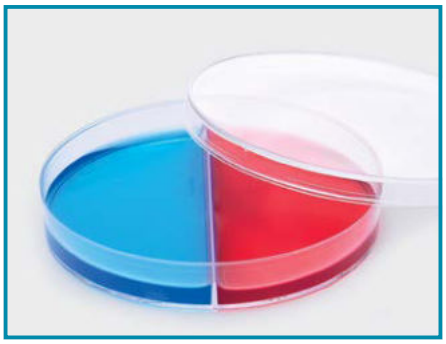

PETRI DISHES - *"glass"*

- Manufactured from heat resistant glass with counter sinking process which guarantees bubble-free dishes.
- Lids perfectly fit to the body enabling easy handling.
- Extremely flat bottom base guarantees an even media dispersion and uniform cell growth.
- Fire polished body and lid edges enable safe use by reducing the risk of breakage.

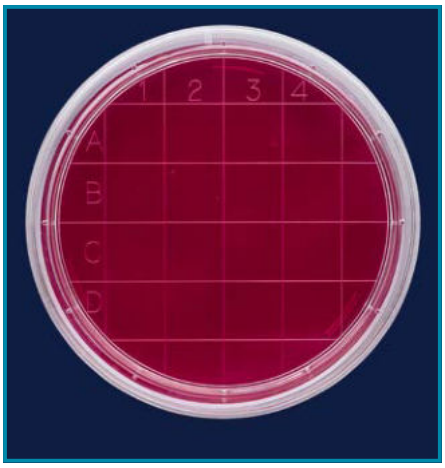

catalogue number	diameter	height	pack quantity

PETRI DISHES - *"polystyrene" - "sterile"*

- Manufactured from optically clear, transparent polystyrene for multiple use in microbiology and bacteriology. Manufactured by fully automatic, human touch free machines.
- Ideal body form guarantees excellent use with automatic filling machines. Vented lids enable consistent and effective practice.
- **Alternative 2 dishes:**
  - **Aseptic petri dishes**
  - **Gamma sterile petri dishes**
- Aseptic petri dishes are manufactured in germ-free, class 10.000 sterile production areas with extreme sterility control.
- Sterile petri dishes are manufactured in germ-free, class 10.000 sterile production areas and then resterilized by gamma irradiation. Sterile petri dishes are supplied with a certificate as a guarantee of "DNase, RNase & pyrogen free" product.

PETRI DISHES *"contact" - "rodac"*

- Manufactured from optically clear, transparent polystyrene for determining bacterial contamination of surfaces such as the skin and all other surfaces. Also facilitates the counting of colonies.
- Featured with a moulded grid at the bottom which enables the identification of the detected contamination / cm^2.
- Aseptic petri dishes are manufactured in germ-free, class 10.000 sterile production areas with extreme sterility control.
- Sterile petri dishes are manufactured in germ-free, class 10.000 sterile production areas and then resterilized by gamma irradiation.
- Sterile petri dishes are supplied with a certificate as a guarantee of "DNase, RNase & pyrogen free" product.

COLONY COUNTER

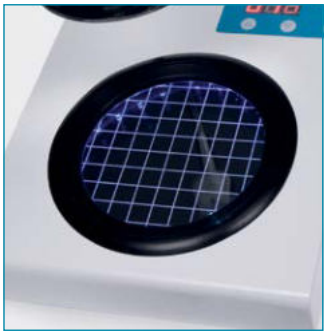

➤ Ideal for fast and practical manual counting of colonies on any agar in petri dishes. The versatile unique design accepts petri dishes from 40 mm to 100 mm.

➤ Intelligent counter with LED digitron display allows fast and precise count of the colonies between 0 - 999. Numericals on the counter can be adjusted backward and forward manually.

➤ Featured with a 90 mm high quality magnifier with 3x / 9x magnification power magnifier attached to a goose neck, flexible holder.

➤ Flexible holder enables both magnifying lens position and illumination angle adjustable in multiangular axes.

➤ Counting table is featured with a backward LED illumination with variable light control. Circular LED illumination system offers a shadow and flicker free illumination.

Circular LED illumination system offers a shadow and flicker free illumination without heat development with optimal concentration of light.

1 square centimeter cross sectional template of the counting plate guarantees reliable counting.

Marking is done by a "felt pin pen" which is connected to the system by cable.

Intelligent counter with LED digitron display allows fast and precise count of the colonies between 0 - 999.

PETRI DISH BASKET - *"st. steel"*

➤ Manufactured from high quality, chemical and corrosion resistant AISI 304 grade stainless steel.

➤ Ideal tool for transportation and autoclaving of petri dishes with maximum 100 mm diameter.

➤ Petri dish basket can carry maximum 10 petri dish.

catalogue number	pack quantity
081.20.001	1 piece

Sealing tape for petri dishes can be seen on catalogue page no 74.

PETRI DISH STAND

➤ Manufactured from acrylic for safe storing, transportation of petri dishes. Also very useful during inoculation and incubation.

➤ Also provides steamline benchtop sample processing and protects petri dishes from dust, moisture and other environmental effects.

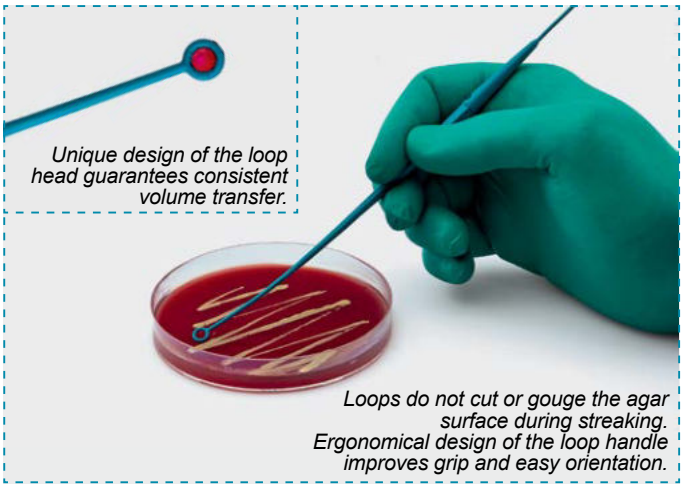

➤ Center divider provides space for labelling and incorporates buit in finger grip for easy handling. Can be linked to each other by the magnetic fixators at both sides.

INOCULATION LOOPS - *"HIPS" - "sterile"*

- Aseptic inoculation loops are manufactured from HIPS in germ-free, class 10.000 sterile production areas.
- Supplied with a certificate as a guarantee of **"DNase, RNase & pyrogen free"** product.

Unique design of the loop head guarantees consistent volume transfer.

Loops do not cut or gouge the agar surface during streaking. Ergonomical design of the loop handle improves grip and easy orientation.

- Highly flexible body form enables comfortable and efficient planting and avoids streaking of cultures.
- Anti-static property of the raw material eliminates problems caused by electrostatic effects and guarantees consistent complete liquid transfer.
- Hexagonal loop shaft improves grip, assists orientation and makes diluting and streaking easy.
- Hexagonal loop handle also enables orientation of the loop head with a fixed angle.
- Ultra smooth loop surfaces allow easy streaking and offer problem-free planting without the risk of cutting or gauging the agar surface.
- Double use loops have one side a fine tip specially designed for holding, transporting and counting colonies. The loop at the other for streaking in petri dishes.
- Color coded loops enable fast, easy and practical identification of loop type.

INOCULATING TURNTABLE

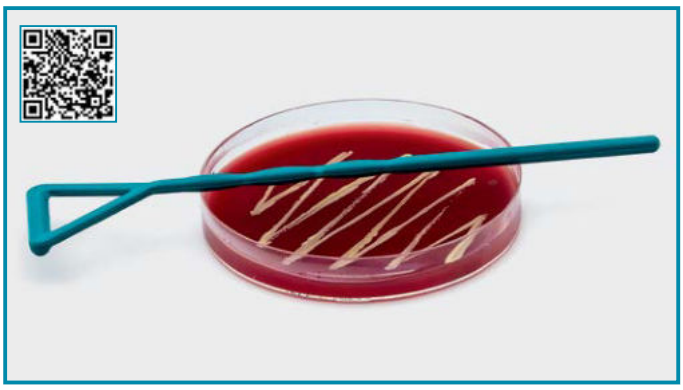

- Light weight but robust body manufactured from aluminium and featured with non-skid feet.
- Manually operated turntable guarantees smooth and easy rotation on both directions. Also enables easy and fast allocation of bacteria across petri dish surface.
- Double sided construction accomodates petri dishes from 60 to 150 mm diameter by inverting the turntable.
- Ball bearings provide a smooth and effortless spinning ensuring rapid inoculation steps and extended operation life.
- The silicone pad holds the petri dishes firmly and keeps the dish allways in center position during inoculation steps.
- The non-skid pad can easily be removed for fast and efficient cleaning.

catalogue number	pack quantity
081.10.001	1 piece

Turntable can rotate 360 degree around it's axis enabling smooth and easy inoculation.

CELL SPREADER - *"HIPS" - "sterile"*

- Aseptic cell spreader is manufactured from HIPS in germ-free, class 10.000 sterile production areas.
- Supplied with a certificate as a guarantee of "DNase, RNase & pyrogen free" product.
- Ultra smooth, edgeless designed, triangular spreading head allows easy and problem-free spreading without the risk of cutting or gauging the agar surface.
- Highly flexible body form enables comfortable and efficient spreading and avoids streaking of cultures.
- Rippled designed ergonomic handle improves gripping efficiency and assists easy orientation of the spreader head.
- Handle flexes slightly under pressure allowing the triangular head for perfect,evenly distributed and uniform pressure on the agar surface.
- Individually single packed with lot number, production date and expiry date printed on the package.

Handle flexes slightly under pressure allowing the triangular head for perfect,evenly distributed and uniform pressure on the agar surface.

CELL SPREADER - *"stainless steel"*

- Manufactured AISI 304 grade stainless steel. Suitable for sterilization by autoclaving or by direct flame.
- Smooth, rounded surfaces prevents any cutting or gouging of agar surface during application.
- Triangular formed spreader head enables even spreading of liquid samples all over the surface.

catalogue number	triangular bar width	handle length	pack quantity
082.03.003	32 mm	190 mm	1 piece

INOCULATION LOOP HANDLE

- The loop shaft is manufactured from nickel plated brass.
- The shaft of the loop handle is insulated by PVC for further protection of user against heat.
- Featured with a screw fastening end for tight fastening of the loops used.
- Handle guarantees easy holding option and fatigue-free application.

catalogue number	length	pack quantity
082.02.003	200 mm	1 piece

INOCULATION LOOP - *"stainless steel"*

- These durable loops are manufactured from nickel-chrome metal wire with twisted wire strands.
- Highly flexible body form enables comfortable and efficient planting and avoids streaking of cultures.
- Ultra smooth loop surfaces allow easy streaking and offer problem-free planting without the risk of cutting or gauging the agar surface.
- Can be heated up to 1200°C and can be cooled rapidly after heat sterilisation.

catalogue number	length	pack quantity
082.02.001	50 mm	10 pieces

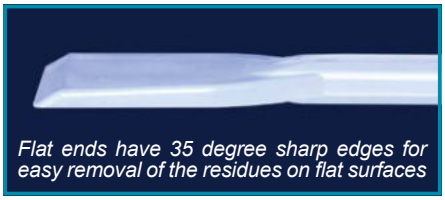

CELL LIFTER - *"for cell culture" - "sterile"*

- Manufactured from polypropylene and specially designed for scraping of attached cells on culture dishes or plate surfaces. Ideal for manual harvesting of cells.
- Manufactured in germ-free, class 10.000 sterile production areas and then resterilised by gamma irradiation.
- Supplied with a certificate of **"DNase, RNase & pyrogen free"** product.
- Featured with two flat ends with different widths on a single handle.
- Two blades with different widths offer practical and easy solutions during sample scraping and collection.
- Specially the wide blade end offers ideal solutions for dish and 6 well plates.
- Flat ends have 35 degree sharp edges for easy removal of the residues on flat surfaces.
- Individually single packed with lot number, production date and expiry date printed on the package.

PIPETTES - *"serological" - "polystyrene"*

- Manufactured from virgin polystyrene with excellent optical transparency.
- Sterilized with gamma irradiation. Free of RNase, DNase, DNA and pyrogene.
- Unique design offers a smooth interior which prevents cell-hanging and clumping inside the pipette wall.
- Stable and break-resistant pipette tip offers constant the reproducible flow in each time.
- Optimised mouthpiece perfectly fits to all types of pipette pumps and balls.
- Filter plug at the mouthpiece prevents overflow of liquid and also eliminates contamination.
- Color coded ring mark at suction stem allows fast identification and sourcing.
- The sharp, black, highly visible permanent graduations prevent ambiguity and guarantee precise reading and accurate dispensing.
- Reverse graduations show actual removed or remaining volumes on all pipettes larger than 1 ml volume.
- Pipettes are supplied individually wrapped in fiber-free color coded paper as easy-to-open packing.

Volume identification by color coding on pipette enables easy volume identification during working.

Filter plug at the mouthpiece of the pipette prevents exterior effects and minimize contamination.

Accurate volume identification by highly visible bidirectional graduation printed on pipette side body.

Ascending and descending scales facilitate reading both dispensing and remaining volume.

STAINING JAR RACK

- Manufactured from stainless steel to hold and carry microscope slides.
- Featured with inserts that can hold 20 single slides in horizontal position.
- Long handle offers easy and safe hold.

catalogue number	dimensions	pack quantity
073.06.001	85x70x20 mm	1 piece

EMBEDDING CASSETTES - *"without lid"*

➤ Manufactured from POM which is fully resistant to histological solvents.

➤ The unique design allows perfect fit to all microtome chuck adapters.

➤ Slanted marking area on front side enables easy marking and labelling.

casette without lid	color	pack quantity	box quantity
074.01.001	white	500 pieces	5000 pieces
074.01.002	yellow	500 pieces	5000 pieces
074.01.003	green	500 pieces	5000 pieces
074.01.004	pink	500 pieces	5000 pieces
074.01.005	blue	500 pieces	5000 pieces

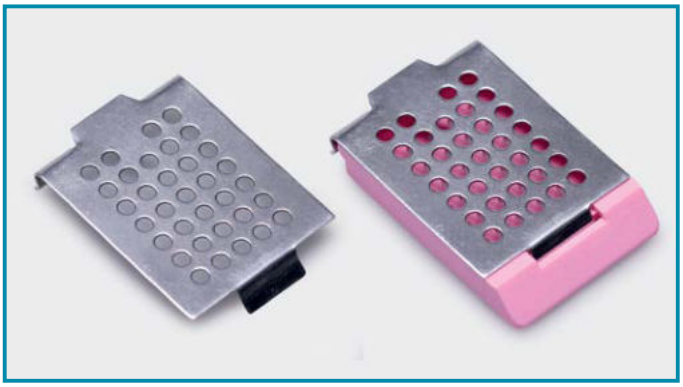

CASSETTE LID

➤ Manufactured from high quality, chemical and corrosion resistant AISI 304 grade stainless steel.

➤ Perforated surface offers the optimal liquid diffusion.

➤ The body form fits perfectly to the casettes and guarantees tight closure.

catalogue number	pack quantity
074.02.001	5 pieces

EMBEDDING CASSETTES - *"with lid"*

➤ Manufactured from POM which is fully resistant to histological solvents.

➤ **Alternative 2 cassettes:**

➤ **Histology casettes with rectangular openings**

➤ **Biopsy casettes with square openings**

➤ The unique design allows perfect fit to all microtome chuck adapters.

➤ The efficient flow-through slots maximize the liquid exchange and also ensure proper drainage.

➤ The unique design of the lids can be opened and closed as often as necessary without getting loose.

➤ Lids allways relock securely without any risk of specimen loss.

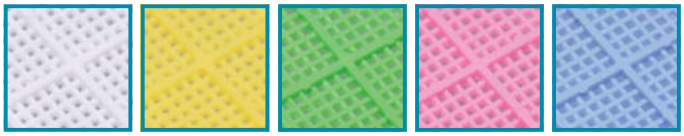

➤ Slanted marking area with 45° angled on front side enables easy marking and labelling.

➤ Histology casettes with rectangular openings provide maximum liquid exchange and does not require use of a pad.

➤ Biopsy casettes with aquare openings provide maximum liquid exchange and does not require use of a pad.

casette hystology	casette biopsy	color	pack quantity	box quantity

074.03.004	074.04.004	pink	500 pieces	5000 pieces
074.03.005	074.04.005	blue	500 pieces	5000 pieces

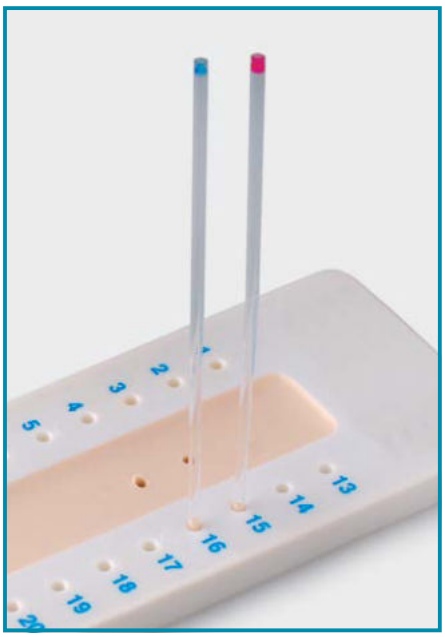

MICRO - HAEMATOCRIT TUBES

- Manufactured by fully automatic machines according to ISO 12772 and BS 4316-68 standards with 75 mm length and 0,2 mm wall thickness.
- **Alternative 2 tube types:**
  - **Non-heparinised tubes with blue color tip.**
  - **Heparinised tubes with red color tip.**
- Interior surface of heparinised tubes are covered with sodium heparinite.

catalogue number	tube type	vial quantity	box quantity
088.02.001	heparinised	100 pcs	10 vials
088.02.002	non-heparinised	100 pcs	10 vials

MICRO - HAEMATOCRIT TUBE WAX

- Offers fast and safe solutions for sealing of the micro haematocrit tube ends.
- Can carry 48 tubes with 2 x 24 array.
- Numerical index on the tray provides easy identification of tube positions
- This non drying sealing compound has a life time of 3 years at room conditions.

catalogue number	tube capacity	pack quantity
088.03.001	48 tubes	10 pieces

Lancets are very incisive and have very sharp edges which penetrates into the skin very easily.

BLOOD LANCETS *"manual"*

- Manufactured from medical grade stainless steel.
- Featured with very sharp blade end that penetrates into the skin easily without pain.
- Single use and gamma sterilized and individually packed.

catalogue number	pack quantity	box quantity
088.01.001	200 pieces	50 pack

BLOOD LANCETS - *"automatic"*

- Offers perfect protection since the needle is allways been fully shielded "before" and "after" use.
- Featured with ultra sharp needle with high speed penetration of 1,8 mm depth.
- Single use and gamma sterilized and individually packed.

catalogue number	pack quantity	box quantity
088.02.003	100 pieces	5 packs

Twist off the protective safety cap first.

Hold the lancet firmly on the finger site

Press the release button to activate the lancet

Gently press the finger to let the blood drop out
